PACIFIC MAIL

Steamship Company's

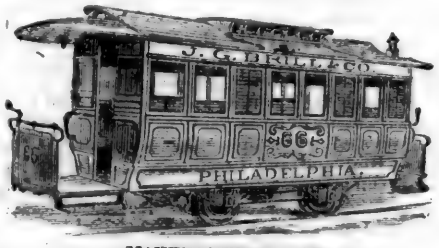
LINE TO

California, Japan and China.

VIA PANAMA,

CARRYING MAILS, PASSENGERS AND FREIGHT TO

ASPINWALL, PANAMA, SANTA MARTHA AND GREYTOWN, AND PACIFIC COAST OF MEXICO, CENTRAL AMERICA, PERU, AND CHILI.



Steamers leave 10th 20th and 30th each month, except when those days fall on Sunday, then the day previous.

May 10, 1873—Steamer ————, ————, will leave Pier No. 42, North River, at 12 o'clock noon for Aspinwall direct, connecting at Panama with steamer GREAT REPUBLIC, Capt. Caverly, touching at Acapulco, Manzanillo and Mazatlan, also connecting for all Central American and South Pacific ports. Departures of 10th and 20th each month connect with the Company's steamer, touching at San Benito, Tonata, Salina Cruz and Port Angel.

Steamer COLORADO will leave San Francisco, May 1, 1873, for Japan and China.

For rates of passage, freight and all further information, apply at the Company's office on the pier, foot of Canal street.

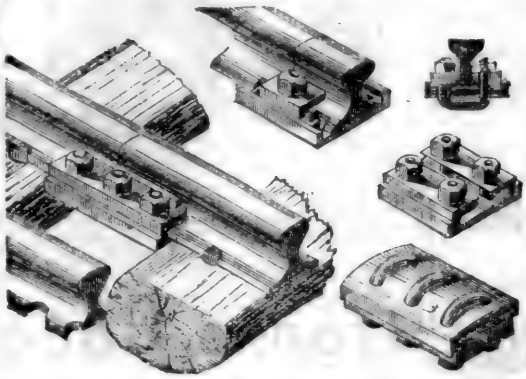
THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

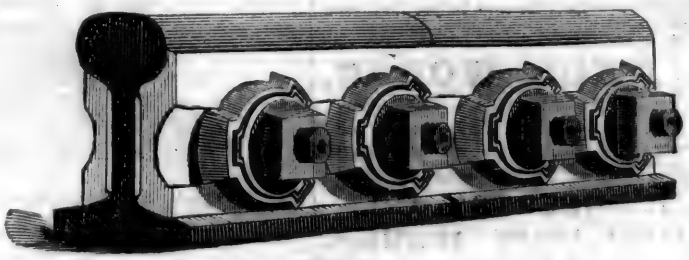
Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

New York, Saturday, May 10, 1873.

Nashua and Rochester Railroad.

At the annual meeting of this company held in Nashua, N. H., on the 1st inst., the President, Francis H. Kinnicut, read the report of the directors, chief engineer and treasurer, which were accepted and ordered to be placed on file. A ballot for officers resulted as follows: Directors—Charles H. Waters, Croton; N. V. Whitehouse, Rochester; J. C. Eastman, Hampstead; F. H. Kinnicut, Francis H. Dewey, Worcester; Chas. E. Whitin, Whitinsville; E. B. Stoddard, Chas. W. Smith Chas. S. Turner, Worcester; Aaron W. Sawyer, Frank A. McKean, Nashua; John Lynch, Portland; Joseph C. Burley, Epping; A. H. Dunlap, Nashua; Edward G. Wallace, Rochester. Clerk of the corporation—Aaron F. Stevens of Nashua. A resolution was passed fixing the capital stock at $800,000; also a resolution authorizing the directors to apply to the New Hampshire Legislature for permission to issue bonds of the corporation to be secured by mortgages on the road to the amount of $700,000. The reports and some remarks by Hon. A. H. Dunlap of Nashua, and Hon. John Lynch of Portland show that the building of the road is progressing rapidly. The meeting was very harmonious.

INVESTMENT BONDS.

The NORTHERN PACIFIC RAILROAD 7.30 FIRST MORTGAGE GOLD BONDS, which we recommend as a profitable and well-secured investment, bear 7 3-10 per cent. gold interest, and have the following elements of security, viz.:

1. They are the obligation of a strong corporation.

2. They are a First Mortgage on the Road, its Equipments, Rights, and Franchises.

3. They are a first lien on its Net Earnings.

4. There is pledged, in addition, for the payment of principal and interest, a Land Grant of 12,800 acres per mile through the States, and 25,600 acres per mile through the Territories traversed. The Company is already entitled to nearly Ten Million acres of its Grant, and its Land Sales thus far have realized $5 66 per acre.

With nearly 500 miles of the road completed and in operation, the earnings for 1873 will be large.

All marketable stocks and bonds are received in exchange for Northern Pacifics on most favorable terms.

JAY COOKE & CO.,
No. 20 Wall Street, New York.

Northern Central Railway.

The directors of the Northern Central Railway Company held a stated meeting at Harrisburg, Pa., on the 28th ult., the president, J. D. Cameron, in the chair, Robert S. Hollins, secretary. Among other business transacted was the adoption of a resolution, "that it is inexpedient to declare the usual semi-annual dividend." It was stated by the president that the committee of five, viz.: Thomas C. Jenkins, Henry Webster, Henry G. Moser, A. Loudon Snowden and John S. Irick, appointed at the general meeting of the stockholders held in Baltimore on the 27th of February, to negotiate with the Pennsylvania Railroad Company for the permanent lease of the Northern Central Railway, had not as yet submitted a report to him. The report it is understood, will be submitted to the president in a short time, when it will be printed and furnished the stockholders by Mr. Hollins, twenty days from the holding of a meeting to take action on the report.

☞ Messrs. BILLMEYER & SMALLS, Broad and Narrow Gauge Car-Builders, York, Pa., have recently enlarged their already extensive works and added thereto machinery suitable for the construction of every description of cars, and are now prepared to furnish any parts of narrow-gauge rolling-stock, well packed, ready for shipment by cars or vessels to all parts of the world. The trucks are of iron and steel, and may be shipped complete, ready to be placed under car-bodies at place of destination. They have made shipments in this way to South-America, the Islands, and to Washington Territory via the Isthmus and Cape Horn, and by rail to San Francisco.

☞ The estimated earnings of the [illegible] Pacific Railway for the week ending April 22 are: freight, $46,446 06; passengers, $30,885 63—total, $77,331 69.

Texas and Pacific Railway.

The San Diego, (Cal.) *Union* of April 22d, announces the commencement on the 21st, in that city, of the work of construction at the California terminus of the Texas and Pacific Railway, and then adds—

We are assured that the work now begun will be carried forward without cessation and with increasing energy; that the company will certainly expend in this city during the present year from three to four hundred thousand dollars; and that the whole road will be completed, so that our citizens may go through without change of cars to attend the grand centennial celebration of American Independence at Philadelphia in 1876.

The Baltimore and Potomac Tunnel.

The Baltimore and Potomac tunnel, running through a portion of the western section of the city, is upon the verge of completion. It was begun in May, 1871, and the city ordinance giving the Baltimore and Potomac Railroad Company the right to construct the tunnel under the beds of certain streets requires the portion on those streets to be finished during the present month. This requirement will be complied with. The track-laying is now proceeding, about half a mile of the tunnel being already laid with double tracks of steel rails and stone ballasting. The tunnel is made with two open cuts, one of 200 feet, near Boundary avenue, and between Oliver and John streets, and the other of 345 feet, between Pennsylvania avenue and Fremont street. Exclusive of the open cuts the tunnel is 6,448 feet long, and with the open cuts 7,593 feet. It connects the Baltimore and Potomac Railroad with the Northern Central Railroad at North avenue bridge over Jones' falls, the portal of the tunnel being at the western abutment of the bridge. It then follows the line of Wilson street from Oliver street to John street. The first open cut, that between Oliver and John streets, will be kept open for ventilation and light. From John street the line follows Wilson street to Pennsylvania avenue, where it curves to the right into Winchester street. Here is the other open cut; it will be kept open for the reasons before stated and also for a depot, which will be located here fronting on Pennsylvania avenue. Passengers will descend by stairs from the depot to the track. Thence the tunnel runs still under the bed of Winchester street, to Gilmor street, where it ends, connecting with its road running into the open country. The distance between Bolton and John street, about 1,100 feet, is tunnel proper; that is, it was carried through by drifts wholly under ground. The other part of the tunnel was worked by making open cut, then arching the tunnel, covering it over and restoring the grade of the street. The sewers in some cases which the line of the tunnel crossed have been deflected and carried along parallel with the tunnel until the ascending grade of the latter allowed the sewers to pass above or below the arch. The most serious difficulty, and one not encountered in tunnelling outside of cities, arose from the streets being built up with houses on each side. To prevent the earth caving in and causing the houses adjacent thereto to crack and settle, it was necessary to make the sides of the cut vertical, and to support them with heavy timber. The tunnel is constructed so as to almost insure stability and safety.

The masonry at the abutments all along the tunnel rests on solid rock, clean sand or gravel, with haunch backing stone all the way up the sides of the cut. Some springs were struck, but as the tunnel is entirely down hill to Jones' falls, the water has simply been turned into the tunnel and drained into the falls. The arch is turned with five rings of brick and well backed with rubble masonry. The side walls are of massive masonry, of Cockeysville marble, rock faced, but dressed at beds and joints.

The following are the officers under whose direction the tunnel has been built: Thomas Seabrook, general manager Baltimore and Potomac Railroad; Israel Smith, acting chief engineer; H. H. Carter, engineer in charge of the tunnel; Thomas Rutter, contractor for the tunnel. The cost of the tunnel, it is estimated, will be about $2 000,000. It is expected the cars will be running through the tunnel somewhere about the first of June next.

The Western Maryland Railroad connects with this tunnel at Fulton avenue. The Union Railroad tunnel 3,410 feet long, begins at the western portal of the Baltimore and Potomac tunnel, running under the bed of Hoffman street to Bond street, whence the open track of the Union Railroad passes to tide-water at Canton. The greatest depth of cut of the Union tunnel is 66 feet, and of the Baltimore and Potomac tunnel 55 feet. The Union tunnel is also nearly completed.—*Balt. Sun.*

Lehigh Coal and Navigation Company.

The Board of Managers respectfully submit their report for the year 1872, as follows, viz:

Revenue from railroads		$822,770 05
Revenue from canals		293,788 79
Net profit on 566,724 tons Lehigh coal		146,493 15
Royalty on coal mined by lessees		69,397 88
Net profit on real estate sold		27,708 45
Net profit from rents		66,597 82
Miscellaneous receipts		1,673 07
Total		$1,428,429 21
Less general expenses		$97,246 70
Less rent and taxes Nesquehoning Valley Railroad		136,500 00
Less rent and taxes Delaware Division Canal		188,701 40
Loss on 232,930 tons Wyoming coal		87,980 83
Taxes chargeable to canals	$9,394 14	
Taxes chargeable to coal and coal lands	75,225 92	
Taxes on interest	39,000 53	
Taxes on capital stock and surplus of 1871	24,615 79	
Taxes on landed property and improvements	14,894 36	
		163,180 73
Balance of interest account for 1872		1,080,796 39
Total		$1,704,355 55
		1,428,429 21
Deficit		$275,926 34

The coal tonnage on the Lehigh and Susquehanna Railroad and Lehigh Canal, compared with that of 1871 was as follows, viz:

	1872. Tons.	1871. Tons.
From the Wyoming region	1,497,304	1,297,561
From the Upper Lehigh regi'n	205,018	111,758
From the Hazleton region	241,701	217,117
From the Beaver Meadow region, via Nesq. Val. R.R.	168,094	83,665
From the Beaver Meadow region, via Lehigh Val. R.R.	109,737	71,727
From the Mahanoy region	13,336	6,551
From the Lehigh Coal and Navigation Company's Lehigh mines	549,115	486,827
From sundry shippers	8,400	2,572
Total	2,792,705	2,277,778

Distributed as follows:

	1872.	1871.
Delivered east of Mauch Chunk by railroad	1,672,832	1,331,053
Delivered east of Mauch Chunk by canal	767,094	740,733
Consumed along the line above Mauch Chunk	75,259	70,901
Delivered to connecting lines in Wyoming Valley	232,104	105,225
Delivered to Lehigh Valley Railroad at Packerton	15,801	29,866
In stock at Hazarouville	29,615	.....
Total	2,792,705	2,277,778
Showing an increase of	514,927	

The production of the company's mines was as follows:

	1872. Tons.	1871. Tons.
From the Summit mines	498,866	462,128
From the Room Run mines	67,858	48,933
From the Newport mines	102,263	112,785
From the Plymouth mines	130,667	.....
Total	799 654	623,846
Shipped by railroad	434,883	259,924
Shipped by canal	309,534	337,004
Sold at mines and Mauch Chunk	12,362	9,214
Used at planes, &c	10,482	12,154
In stock at Hazardville and elsewhere	32,393	5,550
Total	799 654	623,846
Showing an increase of	175,808	.....

From mines under lease:

	1872. Tons.	1871. Tons.
From Sugar Notch mines, Wilkesbarre C. & I. Co., lessee	112,667	110,245
From Cook estate, Wilkesbarre C. & I. Co, lessee	41,973	27,963
From Greenwood mines, E. Borda, lessee	60,596	7,739
Total	215,236	145,947
Showing an increase of	69,289	

The foregoing statements show a very satisfactory increase in the amount of business of the railroads, with a moderate increase in canal tonnage, and in our coal productions.

Notwithstanding the increased volume of business, the profits were less than in 1871, owing to the extremely low price of coal during the year.

RAILROADS.

The receipts from passengers show an increase of about 15 per cent., and from miscellaneous freights of about 20 per cent. over 1871. While the amount of coal delivered on the line and forwarded east of Mauch Chunk for the year exceeded the amount in 1871 by 365,566 tons, the receipts therefrom were less by $229 790 57 than for transporting the smaller amount in 1871.

The tonnage of—

	An average of	Received per ton.	Per ton per mile.
1869 was transported	64.17 m.	$1 28	$0.02
1870 "	.63.75 "	1 05	.01 65/100
1871 "	.66.07 "	1 13	.01 71/100
1872 "	.60.55 "	78	.01 29/100

At the rate of 1871, the receipts from transportation of coal in 1872 would have been in excess of the actual amount received therefrom the sum of $607,500, of which our one-third would have amounted to $202,500.

The lessee, with our concurrence, is double-tracking the Lehigh and Susquehanna Railroad from Easton to Penobscot, a distance of eighty-three miles. More or less work has been done on all sections excepting between Penn Haven and White Haven, and a considerable portion of the work will be completed and in use next summer. Large additions have been made to the equipment, and every preparation is being made for the wants of the increased business which the coal companies tributary to our roads are prepared to give us.

CANALS.

Owing to the cold weather in the early spring our canals were not opened for business until the 7th of April, and they remained open, without material interruption, until closed by ice on the 7th of December.

On the 28th of June the tonnage was 165,836 tons in excess of last year, but this amount was gradually reduced until the excess at the close of the season was only 26,361 tons. During September, October, and November usually our best months, the falling off was very large, due principally to the dullness of the coal market.

The amount received for tolls on—

740,733 tons in 1871, was	$522,221 69
767,094 tons in 1872, was	446,965 51
Less in 1872	$75,256 18

Which accounts for the reduced net revenue in 1872. At the rates of tolls current in 1871 the receipts in 1872 would have been $130,000 larger than they were without any increased expense. We have been steadily improving the condition of the canals, and they are stronger now than ever before.

COAL.

The production of our Lehigh mines was 55,663 tons in excess of the previous year. While the prices realized were unusually low, the cost of production was materially increased by the duplication of expenses connected with the gradual changes from gravity road to Nesquehoning Valley Railroad, from Mauch Chunk to Nesquehoning Valley Screen Building for the second preparation, and to Hazardville for shipping into the canal. The changes have all been made, and we anticipate favorable results from them during the coming year. From the improvements at the mines referred to in our last annual report we derived very trifling advantage during the past year, but they will have progressed sufficiently by the opening of navigation next spring to increase materially the production and diminish the cost.

The small production of our Newport mines was due to the repairs to the brakers during the first half of the year, and the scarcity of men and the difficulty in selling coal later in the year. The red ash coal from our Plymouth mines has given general satisfaction, and commands ready sale.

Improvements in progress on our Greenwood property by the lessee have opened a large amount of fine coal, proving it to be of as great value as we have ever estimated. We expected a large increase of revenue from that property during 1873, but the recent destruction of the breaker by fire will delay the realization of the increase. The breaker belonged to the lessee and the company sustained no loss by the fire.

The deliveries of coal from our city yards to factories and families amounted in 1872 to 55,845 tons. We find this a very satisfactory way of selling coal, and expect to increase materially the amount thus disposed of. The total amount of coal mined by the company and its lessees in 1872 was over a million of tons, and the profit realized therefrom was small. Had the prices at which we sold in 1871 been realized on the sales in 1872, the net result of our coal business would have been at least $400,000 in excess of the actual profit realized therefrom.

The privilege of converting the loan of 1867, due in 1877, into stock expired on the 10th of December last, and but a small amount was converted. We offered to the holders of the loan to extend the privilege for five years if they would also extend the maturity of the loan five years, and pay 2½ per cent bonus. Loan to the amount of $689,100 was thus extended, leaving $762,779 18 of the original issue outstanding at the close of the year, besides the amount pledged as collateral security for loans of money to the company.

The amount of this loan authorized by the action of the Board in October, 1867, was		$3,300,000 00
There is now outstand'g.	$762,779 18	
There has been converted into stock	45,000 00	
		807,779 18
Leaving as the amount of loan extended by the action of the Board on December 3d last		$2,492,220 82
Of this amount there was issued in exchange for the original loan		689,100 00
Leaving available as collateral security for loans or for other purposes of the company		$1,803,120 82

Of which amount, $419,000 was at the close of year outstanding as collateral security for loans.

The new year opens with good promise for coal interests. Although the quantity of anthracite sent to market in 1872 exceeded that in 1871 over three and a quarter millions of tons, there was no surplus at the end of the year, and the markets are likely to be bare when navigation opens next spring.

The new iron furnaces in process of construction, the activity of the iron trade generally, the enlarged area of consumption, the increasing demand for ocean steamers, and for export, indicate that the wants of 1873 will greatly exceed those of 1872.

This last was a season of unusual regularity in coal production and transportation, and if there is any less regularity in 1873 it will be difficult to supply the demands of the market.

Our interests are all dependent on the condition of the coal trade, and if that prospers we prosper, and we are glad to feel that the promise of the year we have just entered upon is favorable.

The mines of the company have not, for many years, been in as good a condition as they will be on the opening of canal navigation, and we anticipate a considerable increase in their production. Other companies shipping from the Wyoming and Beaver Meadow regions by our railroads and canals are preparing to increase their shipments largely, so that we need only that the coal shall sell at fair prices to yield us a large return from the business of the coming year.

At an election held February 25, 1873, the following named persons were chosen officers of the Lehigh Coal and Navigation Company for the ensuing year:

President.—E. W. CLARK.

Manager.—Francis R. Cope, Francis C. Yarnall, Fisher Hazard, Charles Parrish, George F. Tyler, Phillip C. Garrett, Charles Wheeler, George Whitney, Alexander Biddle, John Leisenring, Samuel Thomas.

General Agent.—J. P. ILSLEY.

Treasurer.—SOLOMON SHEPHERD.

Secretary.—F. MITCHELL.

City Passenger Railroad Cars.

Mr. JOHN STEPHENSON, of 47 East 27th Street, this city, has been engaged in the manufacture of city passenger railroad cars and omnibuses since 1831, and has succeeded in building up an immense business. Horse cars from his establishment being now in use in London, Liverpool, Birmingham, and Leeds, in England; Glasgow, in Scotland; Dublin, in Ireland; Brussels, Copenhagen, Lisbon, and Vienna, on the Continent; Buenos Ayres, Montevideo, Valparaiso, Callao, Rio Janeiro, Lima, and other cities in South America, and in Montreal, Quebec, Ottawa, and Halifax in British North America. The greater part of the horse cars used in New York are also made here. Some of the cars intended for England are provided with a light flight of stairs to the roof, on which are seats. In others for South America cushions are dispensed with, and the seats and backs are formed of long thin boards perforated with holes for ventilation, bent into a curved shape, the seats being concave and the backs slightly convex.

☞ Rutland (Vt.) has two railroads under consideration; one from Barre to Worcester, and the other from Coldbrook to Princeton, uniting the Ware River road with the Boston, Barre and Gardner.

Is there to be a Rival Seaport to New York on the North Atlantic?

A writer in the *Daily Bulletin*, in discussing the future of Virginia, makes the claim that a new and important seaport is to arise on the Chesapeake Bay which will be, so to speak, the Liverpool of the United States, the shipping port for the west, while New York remains the centre of financial exchanges. There is some movement afoot in connection with the deep-water extension of the Chesapeake and Ohio Railroad which gives color to the idea that a new and extensive shipping port is to be established not far from Hampton Roads which will become by reason of its advantages of exit and entrance a rival of the minor out-ports if not of New York itself. The *Bulletin* writer says:

The commercial eminence of New York did not come through merit of position, either looking seaward or westward. Until the tide waters of the Hudson could be fed by the fresh waters of the lakes, Philadelphia, although distant from the ocean, out ranked New York in foreign commerce. Norfolk Bay was more attractive to foreign shipping, and even Perth Amboy, on the Jersey coast, indulged not very unwise hopes of a successful competition. Previous to the completion of the Erie Canal Massachusetts Bay held more foreign ships than passed Sandy Hook, and Charleston, South Carolina, feared not the rivalry of Manhattan. When the canal was finished, giant strides were made, and New York not only distanced all competitors, but dwarfed almost every other Atlantic port, including Philadelphia, to a coasting trade. When Pennsylvania was aroused, she found no means of linking the navigable waters of Western rivers with tide-water within her own territory, but did what she could by rail and tow path. She had to wait the conception and birth of the larger enterprise—all rail: and it is only of late that a rivalry in ocean commence has been rethought of under new auspices. To the north, the Hoosac Tunnel will open the gate which hitherto shut out Boston from a successful competition in Western traffic and ocean commerce. To the South, below Norfolk, no port can gain much beyond a local and sectional prominence. Baltimore, Philadelphia and Boston, all now splendidly equipped with carrying facilities for Western trade, can only, for various reasons, divide the fringe of foreign commerce, the body still continuing to enter and depart where the preponderating forces have been aggregated. The contest in the future, if there is need for any, will be between the harbor of New York and that of Hampton Roads (Norfolk and vicinity). Until the completion of the Ohio and Chesapeake Railway, such a contest was but a dream—now it is a tangible hope that has a precedent in the effects which had the Erie canal for the cause. Nor is that an idle hope. Assuming Cincinnati as the representative focus of Western traffic, Richmond is reached by water, 160 miles, and rail 420—580; Baltimore, 671; Philadelphia, 816; New York, 900. The great Valley of the Mississippi, with 25 millions of inhabitants, 16,000 miles of river navigation, and 81,000 miles of railroads, obtains an outlet on the Atlantic at Richmond, Norfolk or Yorktown, not hitherto equalled in respect to distance.

The maximum grade of the Chesapeake and Ohio, for 16 miles only, is 75 feet; a milder climate lessens winter obstructions; and Ohio is left at the highest point of free navigation at low water, easy curves and the deepest harbors, entrepots with the readiest access from the ocean and the safest reached, never incommoded by ice, and less visited by the cutting winds of a Northern winter, may all be said to favor the speedy recognition of a route calculated to attract a through traffic of immense proportions.

From the eastern terminus to the Blue Ridge, agricultural lands are traversed by the Ohio and Chesapeake, which are not surpassed in respect to natural fertility, location and surroundings by any lands in the North. In value and variety of agricultural products Eastern Virginia has not been equalled. The iron deposits which have enriched Pennsylvania are here duplicated and multiplied.

Timber and pasture lands abound on the low-lands and crown the mountain ranges. Passing into Western Virginia, we find a country, almost the whole area of which is underlaid with coal, oil, salt; the surface covered with timber, oak, walnut, hemlock, poplar, beech and ash; the soil rich, loamy and genial; the bottom lands fat, and the hills all arable; iron ore in abundance at hand and within easy reach; limestone, fire clay and building material in profusion; navigable rivers, a location central to North, West and South, and in the pathway of the great midland route of the Continent, which must cross two routes now running eastward from the Ohio to tide-water. Here we have a condensed view of a region of wonderful promise.

Grand Trunk Railway of Canada.

REPORT OF THE DIRECTORS FOR THE HALF YEAR ENDING DECEMBER 31, 1872.

The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines, have been £966,678. Deduct—The ordinary working expenses (being at the rate of 64-95 per cent., against 59-70 of the corresponding half of last year), £627,894; and renewals, &c., of the permanent way and works in the half-year debited to revenue, £165,399, making a total of £793,293, leaving an available balance earned in the half year of £173,385. Deduct loss on American currency, £24,195—balance, £149,190, in comparison with £160,894 at the corresponding period of 1871.

To this sum of £149,190 has to be added the balance carried from the net revenue account of last half-year of £1,653, making a total balance of £150,843. From this, however, has to be deducted the amount of postal and military revenue due for the half-year to the postal bondholders of £17,890, leaving the balance of £132,953 applicable for the following payments viz—

Interest on hired cars, temporary loans, &c	£13,070
Atlantic and St. Lawrence lease (in full).	29,001
Detroit lease (in full)	11,250
Montreal and Champlain	12,081
Buffalo and Lake Huron	30,000
1st equipment bond interest	15,000
2d " " "	15,000
Balance carried forward	311
	£132,953

Comparing this half year with the corresponding period of 1871, the gross receipts show an increase of £31,337, or 3 35 per cent. There was an increase in the passenger receipts of £29,953, or 9-19 per cent, and in the freight receipts of £1,349, or 0 22 per cent. The total number of passengers carried was 984,525, against 961,432; and the quantity of freight was 797,935, against 789,231 tons. The average receipt per passenger was 6s. 6d., against 6s. 1d.; and per ton of freight 15s. 4d. against 15s. 5d.

The extraordinarily severe weather which set in towards the end of December caused an actual decrease in the traffic receipts for the last week of the year of nearly £13,000, and the change of the gauge between Sarnia and Fort Erie, carried out last November, caused for a time a considerable interruption in the general traffic; and from these two causes the gross increase in the traffic was considerably less than it otherwise would have been. It will be seen, however, that the steady growth of traffic to which reference has frequently been made in previous reports still continues, and that notwithstanding the exceptional causes referred to, a greater number of passengers and tons of freight were carried during the past six months than in any previous half-year.

The expenses for the half-year amounted, including the renewals as charged in the ordinary revenue account, to £793,293, or 82-07 per cent of the gross receipts; as against £712,724, or 76.18 per cent for the corresponding six months of 1871. Excluding the renewals, the ordinary working expenses were 64.95 per cent, against 59.70 per cent. There was an increase of expenditure for the half-year of £69,326—at the rate of 12.41 per cent, against an increase of 3.35 per cent in the receipts. This additional expenditure was wholly due to the enhanced cost of fuel and other materials used in the working of the railway, and to a further rise in wages.

The number of miles of permanent way re-laid during the year was 236, of which 182½ miles were laid with steel. The total length of steel rails laid up to the 31st December last was 291½ miles. The number of sleepers laid in during the year was 909,564, against 678,703 in 1871. The ballasting of a further length of 174 miles was completed. It will be observed that the total charge for maintenance and renewals in the past half year was, for maintenance £78,031, and for renewals £193,188. In the previous half-year the charges for these items were, for maintenance £70,918, and for renewals £76,780. The total charge for 1872 was, therefore, £418,868. Of this amount, £27,739, representing the cost of laying in the track 2,905 tons of steel rails with fittings, &c., has been brought to the debit of a supplemental account. This account has been opened for the purpose of charging it with the cost of the additional quantities of steel rails intended to be laid on the line beyond the 14,000 tons already arranged to be included as part of the ordinary maintenance and renewals of the railway during 1873 and 1874. This extra quantity will amount in the present and two following years to 32,000 tons. To the credit of this supplemental account has been placed the sum of £82,737, a portion of the proceeds realized from the recent sale of the Atlantic bonds. It will be remarked from the engineer's report that the condition of the permanent way is more satisfactory than it has been for many years. The breakages of iron rails during 1872 have been 50 per cent less than in 1871. The cost of maintenance will materially diminish as steel rails are further substituted for iron rails; and ultimately the total sum for maintenance and renewals, when the main line has been relaid with steel, will not, it is expected, amount to much more than one-half of the sums above charged.

The total train-miles run were 3,474,208 against 3,642,556, showing a decrease of 168,348 miles; and there was a decrease in the car-mileage of 527,570 miles. The cost per train-mile in the locomotive department was 32.14 cents, against 26.40 cents. The increase in the item of fuel in this department was no less than £21,237, and the increase in the wages amounted to £5,701. These two items alone represent very nearly the increased cost of the working of the locomotive department in the half-year. In regard to the charges for "car hire," &c., it will be noticed that a large saving has been effected in consequence of the action by the president when he was in Canada last autumn in terminating certain onerous agreements that were then in force, and had several years to run, for the use of changeable-gauge car-stock. The saving thus made will not be less than at the rate of £50,000 a year.

The total addition to capital during the six months was £1,018,037, of which £464,075 was the capitalised interest on the four classes of preference bonds and stocks, and £316,926 was paid on account of the purchase of the Montreal and Champlain, under the terms of the agreement made with that company. The other items, less certain credits, are chiefly for new works, the details of which will be found fully set forth in the accounts themselves.

The receipts in American currency during the half year amounted to $2,439,000, as against $2,387,000, of which $1,101,554 was converted into gold against $956,599, entailing a loss of £24,195, against £18,183 for the corresponding period of 1871.

Having regard to the future, the directors have to report that their bill now before the Canadian

Parliament, containing the additional clauses adopted by the meeting held on 20th of March last, has been approved by the Government in respect of the postponed and contingent Dominion debt of £3,111,500, and that the railway committee of the Canadian House of Commons to whom it was referred, has reported favorably upon it. As was announced at the meeting referred to, the contractors for the new issue of £10,000,000 of ordinary stock have already deposited £100,000; and they are bound to place a further sum of £100,000, in the hands of the company within a fortnight after notice has been received of the passing of the bill. As soon as this last deposit has been paid the company will be prepared on the request of the contractors to issue the new stock. A further sum of £300,000 is then to be paid by the contractors within one calendar month from the date of payment of the last mentioned £100,000. The balance of £1,500,000 is to be paid by the following six instalments—viz., £200,000 on 30th September and 31st December 1873 and 31st March 1874 respectively, and £300,000 on 30st June, 30th September, and 31st December 1874 respectively. The directors have, as far as possible, made preliminary arrangements—with a view to the narrowing of the gauge from Stratford to Montreal during the present year—for placing on the line, by the time the narrowing is effected, of 125 additional narrow gauge engines, and for completing other important works in stations, sidings, and ballasting; and they will be better prepared, therefore, to give the necessary orders for the carrying out of the above improvements as soon as their bill has finally passed.

According to the latest advices from Canada, there is every reason to believe that the International bridge will be opened for traffic in August next. The traffic at present passing between Detroit and Buffalo, even with the limited carrying capacity of a ferry boat, exhibits gratifying results.

Further sections of the Intercolonial will also be opened during the present year, and will be of assistance to the traffic of the Eastern section of the Grand Trunk.

After the expenditure of the proceeds of the £10,000,000 of new ordinary stock which it is proposed to issue, the directors feel that a new condition of things will be established on the Grand Trunk. The line will be made equal, as regards permanent way and rolling stock, to any railway on the American continent. Canada and the western States of the Union in connection with it are advancing rapidly in population and wealth. There is now more reason than at any previous time to hope that the company will at last surmount its difficulties, and be placed in a fair way to realize that measure of success which the directors and proprietors have so anxiously and persistently labored, in spite of repeated disappointments, to achieve.

As, after the passing of the bill, the first and second preference bonds will become first and second preference perpetual stocks, due notice will be given as to the time when these bonds are to be sent to the office for conversion, and for the capitalization of the interest due upon them.

The directors who retire by rotation are Sir James Ramsden (who was elected by the board to fill the vacancy created by the retirement of Mr. Molson), Mr. Kirkman D. Hodgson, M. P., Mr. Grosvenor Hodgkinson, M. P., and Captain Tyler. These gentlemen are eligible, and offer themselves for re-election.

Much to the regret of the board, Mr. Grant has signified his intention of resigning the office of secretary, which he has held in Canada and in London for nearly twenty years, in order to accept a partnership in a London firm. That Mr. Grant should meet with advancement can surprise no one who know him, and the directors and shareholders will alike congratulate him on his improved position. During his long connection with the company, and especially in those periods of difficulty and depression which it may be hoped, are now at an end, Mr. Grant has never failed in those qualifications of zeal, tact, and ability, which have enabled him on many trying occasions to render most important services to every interest concerned in the undertaking.

A vacancy has occurred amongst the auditors by the retirement of Mr. Child. It has been intimated to the board that the election of Mr. Grant to fill this vacancy would be highly satisfactory to the proprietors, inasmuch as Mr. Grant's intimate knowledge of the affairs of the company would render his services in that capacity exceedingly valuable, and that he will be proposed for election as one of the auditors.

Central Vermont Railroad.

A correspondent of the Boston *Advertiser*, writing from St. Albans, Vt., under date April 30th, gives the following account of the first steps in the organization of the new corporation that is to have charge of the interests hitherto managed by the Vermont Central Railroad trustees:

The commissioners named in the bill obtained at the last session of the Legislature to create the Central Vermont Railroad Company to take the place of the Vermont Central, met this afternoon in the parlor of the Weldon House to open the books for subscription to the stock of the new organization. Two of the committee were present, ex-Governor Stewart and Mr. Nichols. The commissioners are empowered to accept subscriptions on the first and second mortgage bonds at not less than their market value. The rate named is ten dollars for a second mortgage bond and forty dollars for a first mortgage, and upon cash subscriptions five per cent at the time of subscribing. Subscriptions were freely made, and in a very short time the amount was carried up to two million dollars cash subscriptions and one hundred and twenty-seven thousand dollars in second mortgage bonds. A list of the principal subscribers is appended, with the number of shares standing against their names: G. M. Rice, Worcester, Mass., 500 shares; J. H. Perkins, Boston, 250; J. G. Abbott, Boston, 150; J. H. Kimball, Bath, Me., 250; B. P. Cheney, Boston, 250; John B. Page, Rutland, Vt., 250; J. A. Brooks, Boston, 127; W. C. Smith, St. Albans, Vt. 250; C. T. Lincoln, North Bennington, Vt., 100; N. S. Colburn, Manchester, Vt., 100; J. G. McCullough, North Bennington, Vt., 100; A. O. Selover, New York, 1,000; G. N. Brown, New York, 3 000: A. McKinney, New York, 1,000; J. O. Hoyt, New York, 500; C. Meyer, New York, 2 000; Wm. B. Duncan, New York, 3,000; Joseph Clark, Milton, Vt., 200; J. G. Smith, St. Albans, Vt., 500; J. R. Langdon, Montpelier, Vt., 250; L. Barnes, Burlington, Vt., 250; Estes Howe, Boston, 200; L. Underwood, Burlington, Vt., 100; T. W. Park, North Bennington, Vt., 5,318.

It will be noticed that by far the largest amount subscribed is from parties in New York and the southwestern section of the State on the line of the New York, Boston and Montreal Railroad, which by securing the charter of the Vermont Central Railroad, becomes one of the most important corporations in this country. The public are not to infer from this that the interests of New England and of Boston are to suffer. It is understood, on the contrary, that every measure will be employed to put the line in the most thorough condition for its development for the business that belongs to it. The gentlemen resident in New York and Northern Vermont have two objects in view—that of obtaining a connection of their road with Montreal and the lumber regions of Canada, and that of developing the Vermont Central line. The charter provides that a majority of the directors must be citizens and residents of Vermont.

☞ The line of the Worcester County Central Railroad, which is now being examined, to run from Worcester through Leicester, Spencer, East Brookfield and Hardwick, to the Springfield and Northwestern Railroad,

The Covington and Lexington Railroad Case Decided.

The important case of the Covington and Lexington Railroad Company vs. Bowler's heirs and and others was decided by the Court of Appeals yesterday, the judgment of the Kenton Circuit Court in favor of Bowler's heirs and others being reversed on the merits of the controversy.

It is held that the appellant (the old company), by accounting to Bowler's heirs and assignees for the moneys expended by them in satisfaction of the Fayette judgment and for repairs and improvements on the road, are entitled to have an account for profits realized from its operations, and, by complying with the terms of the Fayette judgment, to be restored to the control and management of the road.

The pleas of limitation and former adjudication are discussed and overruled, the court holding:

First—That the Kenton Circuit Court, having jurisdiction of the persons to be affected, may rightfully determine whether or not the appellees hold the road in trust for the railroad company.

Second—In the exceptions filed by the stockholders to the report of the commissioner of the Fayette court they did not represent the Covington and Lexington Railroad Company, and consequently the company was not bound, nor is it now estopped by the order of the Fayette court overruling those exceptions.

Third—This is not an action for the recovery of real property, nor an action for relief on the ground of fraud, but it is a suit to declare and enforce an implied or constructive trust. The cause of action arose when Bowler finally and decisively repudiated the claim of appellant to the benefit of his purchase. The limitation to this class of actions is five years. Bowler having died, and his representatives being necessary parties, the bar was not complete when this suit was brought. A mandate fixing the basis upon which to settle the accounts between the parties will be prepared and filed within a few days.

The case has attracted considerable attention, was ably argued, and held over for consideration for quite a long time by the Court of Appeals.—*Louisville Courier Journal, Apl.* 30.

☞ It is expected that the laying of the rails the entire distance of the Nashua and Acton road will be completed this week, a distance of fifteen miles. This road connects at Nashua with northern roads, and at the easterly part of Acton with the Framingham and Lowell road; from that point to West Concord, over the latter road, to the Fitchburg road, a distance of four miles. On this section it is proposed soon to lay another track, so as not to incommode the Lowell and Framingham road. The road has been constructed in a very thorough manner, and the rolling stock is in readiness to be put on.

☞ The following gentlemen were elected directors of the Kansas Pacific Railway Co. on the 1st inst.: Robert E. Carr, Adolphus Meier, C. S. Greeley, S. M. Edgell, John D. Perry, F. W. Meister, D. W. Lewis, Jr., Eastman Harrison, of St. Louis; Thomas A. Scott, M. Baird, of Philadelphia, and John McManus, of Reading, Pa. Robert E. Carr was re-elected persident. The annual report gives the net earnings for 1872 as $1,491,000, being an increase of $484,519 over the preceding year.

☞ The work of building the Mississippi Central Railroad extension, north from Jackson, Tenn., is progressing with great rapidity. The track is now laid for over ten miles, and the grading is all done to Milan, with the exception of one cut. In two or three weeks at farthest, the iron will be laid down to Milan, the junction of the road with the Memphis and Louisville.

RAILROAD EARNINGS—MONTHLY.

1872-3....	114,804,406

Locomotives for Wooden Railroads.

The Boston *Transcript* says that George E. Fifield, of South Newmarket, N. H., has been building, for a few years past, a novel class of locomotives for the wooden track railways in the lumber regions of Georgia. They are only six tons in weight, and have very large cylinders for so light machines. The capacity for carrying water and fuel is very great, the whole forming a very unique and serviceable machine, one of them being able to do the work of thirty mules easily. The rapid denudation of the timber lands along the rivers and lines of railroads all through the South is driving the lumbermen deeper into the forests to supply the demand for a material almost indispensable for heavy bridges, cars, and floors thoughout the country. No yellow-pine tree ever grows where one is cut, a soft, sappy, worthless scrup pine of another kind taking its place.

Statement of the Public Debt of the United States May 1, 1873.

DEBT BEARING COIN INTEREST.

Interest paid by United States, $18,509,280 90; interest repaid by transportation of mails, &c., $4,185,438 68; balance of interest paid by United States, $14,323,842 22.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1873.

WILLIAM A. RICHARDSON,
Secretary of the Treasury.

☞ Aid was granted to the railways undermentioned as follows during the session just closed:—Midland, $90,100; Northern extension, $56,000; Toronto, Grey and Bruce, $50,625; Wellington, Grey and Bruce, $50,450; Lake Huron and Bruce, $135,000; Prince Edward County, $86,500; Whitby and Port Perry, $42,000; Port Dover and Stratford, $120,000; Cobourg and Marmora, $18,000; total, $648,675.

☞ One of the freight conductors on the Atlantic, Mississippi and Ohio Railroad is said to have invented a new revolving signal light, to be attached to the rear of trains, by which engineers behind them can tell by the speed of their rotations, as shown by the succession of different colored lights, at what rate the trains are moving, and when they are at rest.

☞ The Richmond and York River Railroad was sold at auction on the 2d inst., to foreclose certain mortgages thereon. Thomas Clyde, of Philadelphia, and R. S. Burrows, of Albion, N. Y., became the purchasers at $350,000, of which $150,000 was paid in cash. The road will hereafter be known as the Richmond and Chesapeake Railroad.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in *"Italics."* State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 10, 1873.

Stock Exchange and Money Market.

The city banks have made a decided and very encouraging gain in their reserves since our last, and the course of the Money market has been much more favorable for the borrowing interests, the later call loan negotiations having been on the basis of legal rate of 7 per cent per annum to the more prominent of the Stock Exchange firms and 6@7 per cent to the leading Government houses. The discount market also worked more smoothly for the mercantile classes, and strictly prime to very good commercial paper was quoted in request at 8@10, and railway notes and acceptances, more salable at 10@12 per cent per annum. There has been far less pressure for aid, and the general tendency of the movement has been toward a further relaxation in rates. The return of currency from the country, and the usual tendency to ease in the Money market in the month of May go very far to restore confidence after the recent prolonged pressure and extravagant rates for Money. The effect upon the general trade of of the city, cannot fail to tell upon business at a season like the present, when the reopening of Canal and Lake navigation favors a free demand for merchandise for the West and a liberal export demand for domestic produce from the West. The banks are once more ahead in their obligatory reserve, the last statement showing that they had $2,729,425 more than the 25 per cent reserve which the national banks are required by law to keep on hand. The U. S. Sub-Treasury, last week, reduced its coin balance over a million dollars; while adding nearly two millions to its currency reserve. Its currency reserves at the close of the week were $20,391,184; and its coin hoard, $42,-204,931.

The clearances of the banks averaged through the week 116⅜ millions a day, and amounted in the aggregate, for the whole week, to $698 038,786 as against $693,515,940 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance $1,946,765 and cut down its coin reserve $1,083,621 as the result of the week's business.

The specie reserve of the city banks according to the latest return is $18,677,800, against $18,325,400 same time last year. The city bank deposits are now $196,471,900 against $211,636,400, week ending May 4, 1872. The legal tender reserve amounts to $40,051,700, against $47,407,400 same time last year. The circulation now stands at $27,564,400 against $27,809,800 same time last year. The loans are now $270,721,100 against $280,284,900 at this date last year.

The coin reserve of the city banks is now about 18⅝ millions as against about 25¾ million on the 20th of last July; the legal tender reserve is nearly 40⅛ millions against about 55½ millions on the statement of June 15th; and the deposits are now about 196½ millions, against 247½ millions on the 20th of July.

The U. S. Sub-Treasury office last week received $4,402,682 of currency, and $5,872,550 of gold, the latter including $2,114,000 from customs; and disbursed $2,455,916 of currency and $6,957,171 of gold, the latter embracing $4,249,-816 of coin interest.

Government revenues have been yielding rather less satisfactory since our last. The excises yielded within the week about 1⅝ millions, and thus far in the current fiscal year beginning with July 1, 1872, $94,869,578. The customs at the port of New York, for the week, were $2,016,936, and at the outports, about $700,000 more, in coin or coin certificates.

The cash balances under the control of the Treasury Department on Tuesday were as follows: Currency, $4,474,615; special deposit of legal tenders for the redemption of certificates of deposit, $26,230,000; coin, $73,737,874. Coin certificates outstanding, $25,997,100. Legal tenders outstanding $357,180,919.

The Gold speculation has been comparatively weak and hesitating, on a restricted volume of dealings, though toward the close there was rather more animation apparent. The customs and export drains were light. The enlarged produce exports tended to lessen the confidence of operators for higher figures. The range of the price during the week has been from 116⅝ @117⅜ and the closing quotation on Wednesday was 117¼ against 117¼ on Wednesday of the preceding week. The specie outflow last week, was $401,818. The Gold Exchange Bank clearances have averaged about 63⅛ millions per day during the week.

The customs demand for Gold last week, averaged $352 333 a day. The arrivals of specie from Europe, Havana and other foreign ports thus far in 1873, have been $1,097,018 against $622,639 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $115,269,464 against $136,466,924 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $67,305,192, against $67,943,970 during the same time in 1871-2.

The export drain of specie was $401,818 last week, against $1,735,018 same week preceding year. The shipments since July 1, 1872, have been $53,388,447 against $33,275,268 during the same portion of 1871.

Foreign Exchange has been held more firmly, though not remarkably active. Bankers' sixty day bills on London closed at 108⅜@108⅝; sight bills on London, at 109¼@109½. The week's exports of Domestic Produce have been to the currency value of $7,518,679.

Under the Treasury programme for May, Government proposes to sell through the Sub-Treasury Gold as follows: Thursday, May 15, $1,000,000; Thursday, May 22, $1,500,000; Thursday, May 29, $1,000,000. And to buy in Five-Twenties as follows; Wednesday, May 21, $500,000.

On Wednesday, Government bought in $500,000 Five-Twenties from 115 74@115 92, net out of an aggregate offering of $1,351,400.

Government securities have been in much better request at firmer and buoyant prices, favored by the growing ease in Money and the encouraging debt exhibit May 1, which showed a further liquidation in April of $2,155,228.

U. S. sixes of 1881 closed on Wednesday of this week at 121¼@121⅜; U. S. Five-Twenties of 1862, 115½@116; U. S. Five-Twenties of 1864 at 115½@116; U. S. Five-Twenties of 1865, 117⅜ @117⅝; U. S. Five-Twenties of 1865 consolidated, 118¼@118⅜; U. S. Five-Twenties of 1867, 120 @120⅛; U. S. Five-Twenties of 1868, 118⅛@ 118⅜; U. S. Ten-forties at 113¾@114; U. S. Fives of 1881 (Funding Loan) 114⅞@115; Six per cent. currency Sixes from 115⅜@115⅝.

State bonds have been attracting more attention from investment buyers and have been held with increasing firmness.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	April 23.	April 30.	May 7.
Consols	93½	93⅝	93⅜
U. S. 5-20s, 1865	*91⅝	92	92
" 1867	93¾	93¾	93⅞

New Fives of 1881	90	90	89⅜
Erie	51⅛	50½	50⅜

* Ex-May coupon.

The Metal trade has been devoid of animation. Trade in Copper has been quite dull, with prices quoted easier. Lake closing at 32½c., without important sales; 75 tons best selected English changed hands at 30¼c.@30½c., cash and 30 day's credit. Scotch Pig-iron has been offered more freely at yielding prices, without leading to much activity; sales have been reported of 350 tons Glengarnock on private terms, and 100 tons

Eglinton at $49. American Pig-iron depressed and lower, with a slack demand noted. Other kinds quiet. We quote Glengarnock Pig at $50; Eglinton do. at $49; No. 1 American Pig at $48; No. 2 do. at $45; Wrought Scrap at $50 @$52; English rails at $70@$71, gold; American Rails at Works, $80@$83; Pig lead firmer and in more request at 6¾c.@6⅞c., gold, for ordinary foreign; sales, 100 tons. Spelter has been quiet at 7⅞c.,@8c., gold. Pig-tin has been very quiet with Straits quoted at 32c., and English at 31⅞c., gold. Tin Plates dull; 500 boxes Charcoal sold at $12, gold. Charcoal Plates quoted here at $11 75@$12 25; Charcoal Terne, $10@$10 75; Coke, $9 75@$10 50; Coke Terne, $8 50@9 75, gold, per box. Zinc quiet at former prices.

The Railway and Miscellaneous share speculation has shown more activity, and though disturbed by the course of Pacific Mail, under its embarrassing connections, the market towards the close showed comparative firmness and buoyancy, influenced in part by the growing ease in Money.

Railway Mortgages Bonds have been in more request, for investment purposes, at firmer rates. Central Pacific Sixes have been more sought after closing at from 103½@104. Chesapeake and Ohio Sixes have been more freely purchased at 88 and interest. Western Pacific Sixes have been in better demand at 95. The Northern Pacific 7-30 Loan has been in good request at par and interest.

General business has been moderately active, and toward the close quoted steadier as to values. Breadstuffs met with a freer sale, in good part for export. Cotton, moderately dealt in. Groceries, brisker. Sugars and Coffee firmer. Middling upland Cotton left off at 19¼c. per lb. The receipts at all the ports, since Sept. 1, have been 3,272,024 bales, against 2,576,914 bales same time in the preceding year; exports 2,178,643 bales against 1,776,028 bales in the previous year; stock at the ports at latest dates, 430,234 bales against 272,255 bales same date 1871.

Foreign goods have been rather more sought after on the basis of previous quotations. The week's imports amounted to $6,970,387 including $1,721,428 of dry goods.

Ocean freights have been more active, closing more firmly.

At the Live Stock Markets, Beeves have been in less request at from 9¼@13¼ cts. Veals in more demand at 5@12 cts.; Sheep at from 5@8 cts.; Swine at 6¼@6½ cts. per lb., all live weight. The week's receipts were 9,586 Beeves, 3,383 Veal Calves, 11,688 Sheep and Lambs, and 41,919 Swine.

Baltimore, Chesapeake and Delaware Bay Railway.

A meeting of the corporators of this company, for which a charter was obtained at the last session of the Maryland Legislature, was held in this city yesterday, for the purpose of electing a president and board of directors, and which resulted in the choice of the following gentlemen: Dr. G. W. Goldsborough, of Caroline county, president; Dr. Alexander Hardcastle, of Queen Anne's county, R. W. Ericson, of Kent Island, J. B. Penington, of Dover, John Manlove, of Caroline county, and Sydney C. Long, of Baltimore, directors. The route of the proposed road has been surveyed, and though it will bring lower Delaware nearer to Baltimore than to Philadelphia, the ultimate object, it is understood, is to make a connection with New York other than that now had by way of Philadelphia. The route selected was originally one that had been agreed upon by several gentlemen of Delaware, and who obtained a charter for the same, but failing to avail themselves of the charter, it was repealed by the late Legislature and one granted to the corporators of the proposed new road.

There is at present a road from Lewes, on Delaware Bay, to Harrington, and it is intended to run the road from Harrington to Queenstown, Md., by way of Greenboro' where it will cross the Maryland and Delaware Railroad leading from Oxford to Clayton. Kent Island will be the Maryland terminus, and from thence steamboats will run to this city. Should the road be so constructed as to make a new connection with New York, it will connect at Harrington with the Junction and Breakwater Railroad, and thence to Delaware Bay, where a line of steamboats will connect with New York. In all about eighty miles of track will be laid, and a desire was evinced at the meeting yesterday that the work of constructing the road should be commenced without delay. It was also stated that perhaps a summer resort, similar to Holly Grove, will be established at the Kent Island terminus, that place being represented as well adapted for such a purpose. A meeting of the directors will be held in a few days, when the question of opening books for subscription to the stock of the road will be discussed.—*Balt. Sun, Apl.* 30.

☞ The directors of the Port Royal Railroad Company recently elected are: George T. Jackson, John P. King, H. R. Cook, B. W. Lawton, Josiah Sibley, D. F. Appleton, W. F. Herring, R. E. Robbins, W. W. Clark, T. P. Branch, J. C. Durant, W. E. Jackson, M. P. Stovall. George T. Jackson was elected President.

☞ Some twenty miles of the eastern extension of the Allegheny Valley Railroad, which is to form the great low grade road between Pittsburg and the seaboard, has been completed, and that portion from Red Bank to New Bethlehem was opened on the 5th inst. for passenger and freight traffic.

☞ The Athens and Schenactady Railroad has commenced operations, and during the navigation season will be used for the transportation of cattle.

☞ H. J. Jewett has been elected President, Daniel Applegate Treasurer, and Wm. Wing Secretary of the Central Ohio Railroad Company.

☞ The grading of the Bucksport and Bangor Railroad will be completed by September 1, 250 men being at work upon it.

☞ The Calumet and Hecla Mining Company has declared a dividend of $5 per share, payable on the 15th inst.

☞ Columbus, Ohio, has voted, 2,393 to 1,053, to give $300,000 to the Toledo and Columbus (West Line) Railroad.

New York Canal Tolls, Tonnage, etc.

The following particulars of interest to canal forwarders and others are condensed from the tables published in the report of Mr. Wm. Thurstone, Secretary of the Buffalo Board of Trade.

	1870.	1871.	1872.
Canal tonnage..	6,173,769	6,467,888	6 673,370
Tolls at Buffalo.	$1,060,055	$1,389,910	$1,416,049
Tolls at Oswego.	331,166	402,210	338,155
Total tolls of all N. Y. canals..	2,611,577	3,100,838	3,072,412

The tolls from 1847 to 1872 exclusive were:

Tonnage	119,396,718
Tolls at Buffalo	$34,703,307
Tolls at Oswego	10,037,971
Total tolls of all New York canals	86,410,653

The actual amount of tolls collected to the credit of the Oswego canal, were as follows:

1867	$151,174 71	1870	$111,232 87
1868	184,627 97	1871	109,491 24
1869	160,155 00	1872	88,704 48

The per cent of toll revenue received was:

	1868.	1869.	1870.	1871.	1872.
At Buffalo	48.0	43.5	40 6	44.8	46.0
Oswego	13.2	14.9	15.0	13.0	14 0
Other places	38.8	41.6	44.4	42.2	43.0

The total amount of tolls and freight received on all the New York canals for thirty-six years was	$237,752,561
Total freight to carriers same period.	130,561,729
Balance to State	$107,190,832

The last three years show as follows:

	1870.	1871.	1872.
Total tolls and freight	$7,552,988	$10,779,887	$10,468,711
Total tolls to carriers	4,941,410	7,679,049	7,576,300

The average per tons freight on upward and downward merchandise between Buffalo and Albany was in

	1869.	1870.	1871.	1872.
Av. upward freight..	$2 60	$2 60	$2 60	$2 60
Av. downward freight	4 44	3 06	3 70	3 70

☞ Regarding Bessemer steel, which is now so largely manufactured in the United States, a Sheffield (Eng.) correspondent observes, "Bessemer steel continues in great request, its application to new purposes being almost weekly extended. It can be produced so much cheaper than cast steel made in the old way, and yet is so tough and endowed with many of the virtues of best cast steel, that there is no wonder that its use is becoming pretty nearly universal."

☞ The Watson Manufacturing Company, of Paterson, N. J., are building 14 iron bridges for a Costa Rica Railroad. They are also building a bridge for Morris County, N. J.; one for Newark, to cost, $11,000; one for Jersey City, to cost $20,000; and they recently completed one for Fourth Avenue, New York, which was 600 feet long and cost between $35,000 and $40,000.

☞ The earnings of the Central Pacific Railroad in April, 1873, were $1,132,920—an increase over April, 1872, of $183,322. For the first four months of the year the earnings were $3,654,255—an increase over the corresponding four months of 1872, of $664,834.

☞ The earnings of the Erie Railway Company for the week ending April 30, 1873, were $384,329, and since November 1, 1872, $8,800,582—an increase over the corresponding six months of the previous year of $281,843.

BANKING HOUSE OF FISK & HATCH,
No. 5 NASSAU-ST., NEW YORK, May 5, 1873.

The present high price of Government Securities is increasing the demand for first-class Railroad Bonds; and it is reasonable to suppose the present difference of from TWENTY to THIRTY per cent. cannot be obtained for any great length of time.

We are recommending the following for Exchanges or for new investments—all of them payable in gold, principal and interest:

The CHESAPEAKE AND OHIO SIX PER CENTS at **88** and accrued interest, interest payable May and November; these bonds are issued in denominations of $100, $500, and $1,000. The road, 420 miles in length, is now completed, and the business offering is very large, and increasing daily.

The WESTERN PACIFIC SIX PER CENTS at the market price, which is to-day **95**, flat. These bonds are $1,000 each; interest payable January and July. This road having been consolidated with the great CENTRAL PACIFIC, and payment of its bonds, principal and interest, assumed by them, we see no good reason why they should not soon approximate in price to Central Pacifics—now 103.

Also, the CHESAPEAKE AND OHIO SEVEN PER CENTS, interest payable January and July, secured by a First Mortgage on the Extension to deep water on Chesapeake Bay, on the proposed Kanawha River Branch, and on the Great Bridge to be built over the Ohio River at Huntington, and a Second Mortgage on the Main Line, with all its equipments, depots, &c.

Only **$3,000,000** of these Bonds will be offered for sale at present. Price **90** and accrued interest.

We consider them amply secured, and a very desirable investment. The proceeds will be used in adding largely to the present equipment, and in extending to deep water on the Chesapeake Bay, where the largest steamers in the world can load and unload alongside the cars.

We continue to deal in Government and Central Pacific Bonds, receive deposits on which we allow interest, make collections, execute orders at the Stock Exchange for cash, and conduct a general banking business.

We have just published a pamphlet giving a full description of the Chesapeake and Ohio Railroad and its advantages, and particular information concerning the agricultural, mineral and mechanical resources; the remarkable coal and iron deposits; and the opportunities for settlement, investment, and the employment of capital and labor in various industries along its route, copies of which may be had free of charge, upon application in person or by mail to

FISK & HATCH.

☞ The Chief Engineer of the Ligonier Valley Railroad will receive proposals at his office, Latrobe, Westmoreland Co., Pa., until noon, May 12, 1873, for the graduation and masonry of Sections 9, 10 and Y, at Latrobe, of the Ligonier Valley Railroad.

☞ In 1872, 301 cars of pig iron, 285 cars of coal, 3,600,000 feet of lumber, and other materials in proportion were used in the manufacture of Fairbank's scales.

Journal of Railroad Law.

RAILROAD COMPANIES—CONTRIBUTORY NEGLIGENCE—RIGHTS OF CARRIERS AND PASSENGERS.

The facts in the recent case of The Chicago and Alton Railroad Company *vs.* Randolph, (53 Ill., 510), are fully and clearly stated in the following opinion by—

WALKER, J.—This action was brought by appellee, in the Logan Circuit Court against appellants, to recover for damages received by him while leaving appellants' train of cars, about the 21st of September, 1868. It appears that, on the evening of the day that the injury was received, appellee procured a ticket at Lincoln for the station at Atlanta, and got upon a freight train while it was still in motion, the employees not intending to stop at the station at Atlanta. There was another passenger got on the train at the same time, who was going to the same place. The train was a through stock and freight train which stopped regularly at certain stations for fuel and water, but not at others, unless signaled to do so to take stock from them, or where there was freight to be delivered.

There is no evidence as to whether appellee made any inquiry, when he purchased his ticket to learn whether the train would stop at Atlanta. Appellee and the other passenger who got on the train at the same time, both swear that before leaving Lincoln, the conductor informed them that it would. This is denied by the conductor, who swears that he was not in the caboose while at Lincoln, and not until they reached Lawndale, when he took up the tickets of appellee and the other passenger, when, he swears, he informed them that the train would not stop at Atlanta, unless there should be stock at that point for shipment, but that he would run very slowly on the grade south of Atlanta, where they might jump off safely if they chose, which they agreed to do. The conductor seems to be corroborated in his statement by the brakesman and another passenger on the train.

It appears that, when the train reached the grade and was running slowly, the conductor informed appellee and the other passenger for Atlanta, that then was their time to leap from the train, which they refused to do, whereupon they were informed that the train would not stop. On reaching that point both men went out on the platform, and appellee leaped from the train, and in falling injured himself, but the other passenger remained on the train and was carried to the next station, where he was put off without injury. On a trial in the court below, appellee recovered a verdict for $1200, upon which judgment was rendered, and the case is brought to this court on appeal, and various errors are assigned.

It is contended by appellee, that he leaped from the train under the orders of the conductor; but on the other side it is denied that the conductor gave any such orders, or that he, at that time, even made any suggestion that he could or might leap from the train in safety. On the trial, appellants asked this instruction, but it was refused.

"The court further instructs the jury, for the defendant, that even if the jury should believe, from the evidence, that the conductor or brakeman told the plaintiff, at the time he jumped off the train, that he would do so with safety, and yet eft it voluntary with plaintiff to get off or not, then what the conductor or brakeman might have said at the time (if the jury believe, from the evidence anything was said by them) did not release the plaintiff from the duty of exercising reasonable judgment and caution as to whether it was safe to get off or not. If the jury believe, from the evidence, that, under all the circumstances existing at the time, a man of ordinary prudence, situate as the plaintiff was, would not have jumped off, the jury should find for the defendant."

It is urged that it was error in the court to refuse this instruction.

In the conflict in the testimony, this instruction should have been given. If the conductor only gave it as his opinion that appellee could leap from the train in safety and appellee acted upon his suggestion, still it was his duty to exercise his judgment whether or not it was safe; and if the conductor only gave it as a matter of opinion, still, if the danger was so apparent that a prudent man, similarly situated, would not have attempted to leap from the train, then appellee was guilty of negligence, and should not be permitted to recover. He was bound to exercise ordinary prudence, if left to act voluntarily, and was not acting under constraint. The instruction only asserted these propositions, and it should have been left to the jury to determine whether appellee was under constraint when he leaped, and if not, whether he acted with ordinary prudence.

It is also urged that the court erred in refusing to give appellant's tenth instruction, which is this:

"If the jury believe, from the evidence that the train in question sometimes did and sometimes did not stop at Atlanta and that this was known to the plaintiff before getting on said train, or before the same left Lincoln, then it was the duty of the plaintiff to ascertain, from some one authorized person before becoming a passenger, whether said train would or would not stop at Atlanta on the trip in question. And if the jury believe, from the evidence that the plaintiff got on said train, knowing such stoppage to be uncertain, then the defendants were not bound to stop said train at Atlanta for his accommodation, and the taking plaintiff's ticket by the conductor did not constitute a contract to stop at Atlanta."

No one will question the legal right of a railroad company to appropriate a portion of their trains exclusively to the carrying of freight, and to entirely exclude passengers from such trains. Their obligations to the public only require them to furnish sufficient passenger trains to accommodate the travel, and such freight trains as the business of the country along their line requires. They are not required to carry passengers on their freight trains, or freight on their passenger trains. But they may if they choose do either. It then follows, that when a passenger purchases a ticket, he only acquires the right to be carried according to the custom of the road. When he obtains a ticket, he has a right to go to the place for which it calls, on any train that usually carries passengers to that place. But he does not acquire the right to insist that the company shall send him on a special train, or out of the customary course of their road.

When a traveler obtains such a ticket, he should inform himself as to the usual mode of travel on the road, and so far as the customary mode of carrying passengers is reasonable he should conform to it. These companies have passenger trains that only stop at the principal stations on their roads, and the right so far as we know has never been challenged, when they furnish a reasonable number of other trains, stopping at all stations, to accommodate public travel. And when a person purchases a ticket, he should ascertain whether the train will only stop at the principal stations, or at all of them, before he gets on a passenger train, and were he to get on one that was not accustomed to stop at the station to which he desired to go, he would not without an agreement to stop, have any right to insist upon the company's changing the course of their business for his accommodation. The requisite information can always be had from the agent when the ticket is procured, and it is but reasonable to require passengers to obtain the information and to act upon it.

If, then, the company may run passenger trains that only stop at designated stations, furnishing reasonable means for carrying passengers to all their stations, it is more reasonable that they may run freight trains which only stop at certain stations for fuel and water, or at such other stations as the transportation of stock or freight may require. And it is but reasonable that the company may exclude all passengers from such trains, or only carry them to the places at which they are accustomed to stop; and if a porson gets upon such a train, without any agreement that they will stop at an unusual place of stopping he cannot require the company to change the usual course of their business for his accommodation, and to serve his convenience. Should a person get on such a train, without the consent of the employees of the road, the taking up of his ticket merely without an agreement to stop at the desired station, would not amount to an undertaking by the company to put him off at that place. In such a case, the passenger is in the wrong, and has no right to insist that he should be safely put off at the point he desires, or to be carried through without charge. The instructions are in harmony with these views, and should have been given. For the refusal to give these instructions, the judgment of the court below must be reversed and the cause remanded.

Judgment reversed.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending April 26, at 415,484 tons, and for the coal year at 4,821,932 tons, against 4,805,231 tons to corresponding time last year, being an increase of 16,701 tons. The bituminous tonnage for the week is 61,346 tons, and for the year 597,266 tons, giving a total of all kinds for the week of 476,830 tons, and for the year 5,419,197, tons, an increase as against production to same time last year of 117,303 tons.

☞ Agreeably with their custom of spreading information concerning enterprises they have in hand, Messrs. FISK & HATCH have issued in pamphlet form a summary of the advantages of the Chesapeake and Ohio Railroad for carrying a large through traffic, together with suggestions on the production and shipment of breadstuffs, &c., the consumption of iron and coal and other topics in which the Chesapeake and Ohio Railroad has a direct interest.

☞ The total tonnage of the Columbus and Hocking Valley road for the month of April was 73,844 tons. Total earnings of company for same time, $93,137 53.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, May 8, 1873.

THE ANNUAL MEETING OF THE SHAREholders of the Illinois Central Railroad Company, for the election of directors and the transaction of other business, will be held at the office of the Company, in the City of Chicago, on WEDNESDAY, the 28th day of May instant, at 11 o'clock A. M. The transfer-books of the Company will be closed after the 14th instant until the 2d day of June next.

A subsequent closing for the new stock subscriptions will be duly announced.

L. A. CATLIN, Secretary.

Notice to Contractors.

SEALED PROPOSALS WILL BE RECEIVED until noon of THURSDAY, May 15th, 1873, for the GRADING AND MASONRY of the Second Track on the main line of the Pittsburgh, Fort Wayne and Chicago Railway.

Between Highland and Enon, Pa., about 8 miles in length.

Between Beloit and Alliance, Ohio, about 5 miles in length.

Between Alliance and Louisville, Ohio, about 11½ miles in length.

Between Orville and Wooster, Ohio, about 13 miles in length.

Between Mansfield and Cresline, Ohio, about 11 miles in length.

Between Crestline and Bucyrus, Ohio, about 12 miles in length.

Between Lafayette and Delphos, Ohio, about 19 miles in length.

Between Fort Wayne and Hadley, Indiana, about 4 miles in length.

Between Columbia and Pierceton, Indiana, about 11 miles in length.

The work will be divided into sections, and proposals may be submitted for the grading or masonry separately.

The company reserve the right to reject any or all proposals. Good and sufficient security for fulfillment of contracts (by bond or bonds) will be demanded. Profiles can be seen and all information obtained on and after May 1st, 1873, for that portion of the proposed work situated between Highland and Cresline, at the Chief Engineer's Office, Pittsburgh, Pa., and for the portion west of Cresline at the Engineer's Office, Fort Wayne, Ind.

Proposals must be enclosed in sealed envelopes endorsed "Proposals for Second Track," and addressed to the undersigned at his office in Pittsburgh, Pa.

FELICIAN SLATAPER,
Chief Engineer.

LANSDELL'S
Patent Steam Railroad Water Station.

DISPENSES WITH Tanks, Tank Houses, Stationary Power, AND Attendance.

CAN NOT FREEZE IN ANY CLIMATE, UNDER ANY CIRCUMSTANCES.

COSTS LESS Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

P. I. PERRIN, Sup't.

THE WHARTON

Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Address,

ABRAHAM BARKER, Pres't,
Or WM. WHARTON, Jr., Sup't,
Of the Wharton R. R. Switch Co.,
28 South 3d St., Philada., Pa.
P. O. BOX, 2353, Phila.

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.

This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly.

They have furnished the following Roads with Narrow Gauge freight cars, viz: Denver and Rio Grande, Kansas Central, North and South R. R. of Ga., Iowa Eastern, Painesville and Youngstown, Ripley R. R. of Miss., Utah and Northern, Costa Rica R. R., C. A., and others.

Photographs of Narrow Gauge cars sent by mail.

C. Billmeyer. D. E. Small. J. H. Small.

CHAS. J. PUSEY,

78 BROADWAY,

NEW YORK.

American & English Rails,

LOCOMOTIVES and CARS,

FISH PLATES, SPIKES, &c., &c.,

SOLE AGENT FOR

Atkins Bros' Pottsville Rolling Mills.

Special attention given to filling orders for Small *T and Street Rails*, of every weight and description.

Old Rails Bought or Re-Rolled, as Desired.

P. O. Box 5222.

EDWARD J. ETTING,

105 Walnut St., Philadelphia,

MANUFACTURERS' AGENT FOR THE SALE OF

AMERICAN AND FOREIGN

RAILROAD IRON

Of every Size, Weight and Pattern,

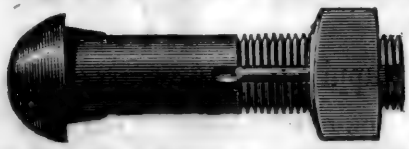
For Steam and Street Roads.

ROLLING STOCK & SUPPLIES.

Old Rails Re-Rolled & Exchanged for New.

☞ Special attention paid to the Purchase and Sale of Old Railroad and Scrap Iron.

CONSIGNMENTS SOLICITED.



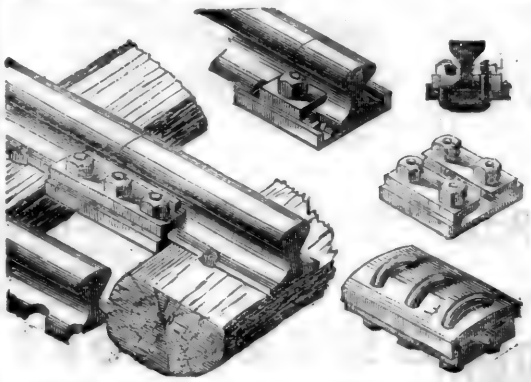
WM. COURTENAY, President. CHAS. F. COBB, Secretary.

THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

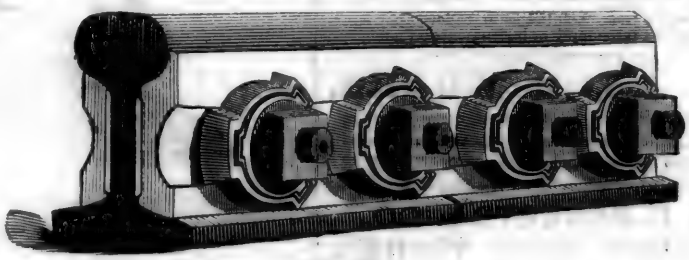
Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Central Ohio Railroad.

The annual meeting of the stockholders of this company was held at Columbus, Ohio, on the 30th ult. A very favorable report was submitted to the meeting. The road, under the management of the Baltimore and Ohio Railroad Company, who operate it, is constantly improving in its roadway, bridges, buildings, and other structures. The gross earnings of the road for the year ending November 30, 1872, were $1,008,726 39, being an increase of $62,220 55 over the year ending November 30, 1871. The sinking fund for the redemption of the first mortgage bonds of the company amounts to $216,013 78. It is the opinion of the board of directors that no further suspensions of the payment of regular dividends upon its stock will be likely to occur hereafter. The following named persons were elected as directors for the ensuing year: Hugh J. Jewett, Joseph R. Swan and William Dennison, Columbus, Ohio; Walter B. Brooks, Baltimore; John H. Heaton, St. Clairsville, Ohio; Daniel Applegate, Zanesville, Ohio; John King, Jr., Joseph H. Rieman, Joseph W. Jenkins and Jas. Harvey, Baltimore; W. C. Quincy, Columbus, Ohio; Wm. H. Clement, Morrow, Ohio; Joseph B. Ford, Wheeling, W. Va. The board organized by the appointment of Hugh J. Jewett president, Daniel Applegate treasurer, and Wm. Wing secretary.

INVESTMENT BONDS.

The NORTHERN PACIFIC RAILROAD 7.30 FIRST MORTGAGE GOLD BONDS, which we recommend as a profitable and well-secured investment, bear 7 3-10 per cent. gold interest, and have the following elements of security, viz.:

1. They are the obligation of a strong corporation.

2. They are a First Mortgage on the Road, its Equipments, Rights, and Franchises.

3. They are a first lien on its Net Earnings.

4. There is pledged, in addition, for the payment of principal and interest, a Land Grant of 12,800 acres per mile through the States, and 25,600 acres per mile through the Territories traversed. The Company is already entitled to nearly Ten Million acres of its Grant, and its Land Sales thus far have realized $5 66 per acre.

With nearly 500 miles of the road completed and in operation, the earnings for 1873 will be large.

All marketable stocks and bonds are received in exchange for Northern Pacifics on most favorable terms.

Leather Belting.

We invite the attention of our readers to the advertisement of Messrs. J. B. HOYT & Co., Nos. 28 and 30 Spruce St., N. Y., which appears at the head of the column on the last page of this week's issue. This firm is extensively engaged in tanning White Oak Leather, to which, by its durability and the handsome finish it gives to whatever it is adapted, they are no doubt indebted for their great success. While at their office our attention was directed to a large diagram of a tanned hide which showed from what parts the short-lap belting and long-lap belting are made; and in an admirably clear and concise manner presents even to the comparatively ignorant observer convincing proof of the superiority of what they term their "Short-Lap Belting." Curiosity prompting, we were informed that the hides are selected with much care, especially those to be used for this purpose. We take pleasure in referring those interested in good machinery and its accessories to the belting made at the above establishment.

Funding Tennessee Bonds.

In regard to the funding of Tennessee bonds, Gov. Brown, of that State, has issued a circular, saying that the funding and registering will commence as early as 1st of July next, perhaps sooner, of which due notice will be given, and adds:

As to what bonds will be rejected, it is proper to state that those known as the Mineral Home Railroad bonds, amounting to $100,000, and numbered as follows, to wit: from No. 9 861 to 9,885, and from 9,896 to 9,980, all of said numbers included; all being green bonds, without letter denoting series; and those known as the bonds of the Insurance Company of the Valley of Virginia, amounting to $20,000, and numbered as follows, to wit: from 6,001 to 6,017, including both numbers; also Nos. 6,740, 7,546 and 7,547, all of green issue, without letter denoting series, as well as the Tennessee Confederate war bonds, will be rejected. If there be any others that may not be registered or funded under the provisions of the funding act, their

existence is not known at this department. And when it is considered that out of more than $13,000,000 retired since the early part of 1870 no such bond has been detected, the presumption is very strong that none such are in existence.

I see no necessity for an extra session of the General Assembly. I believe the assessment act now in force will develop a largely increased amount of taxable property—ample under the present law to meet the necessities of the State. Should I be mistaken in this, however, and should the assessment returns disclose the fact that the revenue will not be sufficient to meet the current wants of the State after paying the interest as provided for in the funding act, the General Assembly will certainly be called together in ample time to meet the emergency.

Lake Shore and Michigan Southern Railway.

The earnings of this road for the years ending December 31, 1871 and 1872, were as follows:

	1871.	1872.

The company is a consolidation of the following roads:

The Buffalo and State Line Railroad—extending from the city of Buffalo, in the State of New York, westward, to the State Line of Pennsylvania. 68 miles.

The Erie and North East Railroad—extending from the State line of Pennsylvania to the city of Erie, in the State of Pennsylvana. 20 "

These two roads were consolidated, under the name of the Buffalo and Erie Railroad Company, in the year 1867, in pursuance of laws of the States of New York and Pennsylvania.

The Cleveland, Painesville and Ashtabula Railroad—extending from the city of Erie, in the State of Pennsylvania, to the city of Cleveland, in the State of Ohio. 95 miles.

The Cleveland and Toledo Railroad—extending from the city of Cleveland, in the State of Ohio, to the city of Toledo, in the State of Ohio. 113 "

With a Branch, (or Northern Division,) extending from Elyria, (twenty-six miles west of Cleveland,) via the city of Sandusky, in the State of Ohio, to Millbury, (Junction with Main Line near Toledo). 76½ "

These two roads last mentioned were consolidated, under the name of the Lake Shore Railway Company, in March, 1869, pursuant to the laws of the States of Ohio and Pennsylvania.

The Michigan Southern and Northern Indiana Railroad—extending from the city of Toledo, in the State of Ohio, to the city of Chicago, in the State of Illinois. 244 miles.

This road was consolidated with the Lake Shore Railway Company, under the name of the Lake Shore and Michigan Southern Railway Company, in May 1869, pursuant to the laws of Pennsylvania, Ohio, Michigan, Indiana and Illinois.

In August, 1869, the Buffalo and Erie Railroad Company was consolidated with the Lake Shore and Michigan Southern Railway Company, under the name of the Lake Shore and Michigan Southern Railway Company, pursuant to the laws of the States of New York, Pennsylvania, Ohio, Michigan, Indiana and Illinois, thus forming a continuous line of Railway, five hundred and forty miles in length, between the cities of Buffalo, in the State of New York, and Chicago, in the State or Illinois.

This company owns Branches as follows:

Ashtabula, Ohio, to Jamestown, Pa. 36 miles.
Elyria, Ohio, via Sandusky, to Millbury, (Junction with Main Line,) 76½ "
Toledo, Ohio, to Elkhart, Indiana, (Air Line) 131 "
Adrian, Michigan, to Jackson, Michigan 46 "
Adrian, Michigan, to Monroe, Michigan 33 "

The following roads are under separate organizations, but the capital stock thereof is owned wholly by this company:

The Detroit, Monroe and Toledo Railroad—extending from Toledo, in the State of Ohio, to the city of Detroit, in the State of Michigan. 65 miles.

The Kalamazoo and White Pigeon—extending from White Pigeon, Michigan, to Kalamazoo, Michigan. 37 "

The Northern Central Michigan Railroad extending from Jonesville, Michigan, to Lansing, Michigan. 60 "

The following roads are operated by this company under leases:

The Jamestown and Franklin Railroad—extending from Jamestown, Pennsylvania, (where it connects with the Ashtabula Branch,) to Oil City, Pennsylvania. 51 miles.

This company has a large proprietary interest in this road, and operates it under a lease for sixty per cent of the earnings.

The Kalamazoo, Allegan and Grand Rapids Railroad—extending from Kalamazoo, Michigan, to Grand Rapids, Michigan. 58 miles.

The terms of this lease are, the payment of interest on bonds and stock amounting to $103,800 per annum.

That portion of Main Line, from Toledo, Ohio, to Adrian, Mich., thirty-three miles, was acquired by a perpetual lease from the Erie and Kalamazoo Railroad Company, by the terms of which this company pays the sum of $30,000 per annum.

Under a contract with the Cleveland, Columbus, Cincinnati and Indianapolis Railroad Company, this company has the right to use their track between Cleveland and Berea, (twelve miles,) for all passenger trains, at an annual rental of $12,000 for sixty trains per week; for any trains beyond that number, $8 per train.

The whole number of miles of railroad owned and leased by this company is one thousand one hundred and thirty-six.

The company now has two hundred and twenty-two miles of double track, (independent of its double lines between Cleveland, Ohio, and Elkhart, Ind.,) and in addition three hundred and ten miles of side tracks.

During the year 1872, the Northern Central Michigan Railroad was opened from Jonesville on our Main Line, seventy miles west of Toledo, to Lansing, the capital of Michigan, a distance of sixty miles.

This company has made large advances in aid of the construction of this road, and now controls and operates it. It is known as the Lansing Division of this road.

The Capital Stock of the company is $50,000,000. Of this sum $533,500 is the ten per cent guaranteed stock of the late The Michigan Southern and Northern Indiana Railroad Company. The claim of the holders of a portion of this stock for dividends from 1857 to 1863, (when dividends were not actually earned,) is still in litigation.

This claim has been released on three thousand five hundred and six shares, leaving one thousand eight hundred and twenty-nine shares unassented.

Since the consolidation of 1869, dividends have been regularly paid at the rate of eight per cent per annum—four per cent February 1st, and four per cent August 1st, each year.

On the guaranteed stock, five per cent February 1st, and five per cent August 1st, have been paid each year.

The bonded debt of the company now stands as follows:

	Principal.	Annual int.
L. S. & M. S. Railway	$24,971,000	$1,747,970
Detroit, Monroe and Toledo	924,000	64,680
White Pigeon and Kalamazoo	600,000	44,000
Total		$1,856,650

To provide for the large expenditure required to complete the new double track from Buffalo to Elyria, Ohio, and to procure the additional equipment, etc., the Board of Directors authorized the issue of bonds to the extent of $6,000,000. The bonds are dated October 1, 1872, and mature October 1, 1882. A sinking fund provides for the retirement of ten per cent., or $600,000, annually. The bonds bear interest at the rate of seven per cent per annum, payable April 1st and October 1st. $235,000 of the $6,000,000 were sold and proceeds used in 1872.

The balance, $5,765,000, are being sold in 1873, and avails used to pay the temporary loans made to enable the company to press vigorously the construction of 1872.

Including this issue of bonds, the annual charge for interest on the bonded debt, and leases, will be $2,436,000.

Increase in gross earnings 1872 over 1871, $2,798,654 39, of which $2,462,146 42 was from freight, $218,639 93 from passengers, and $117,868 04 from other sources.

The increase in freight earnings is twenty-four and one-fourth per cent; but, as the average rate per ton per mile is less than the rate of 1871, (being one and thirty-seven one-hundredths cents in 1872 against one and thirty-nine one-hundredths cents in 1871,) we moved twenty-six and one-half per cent more tonnage to secure this result.

It is a fact worthy of note that rates have, of late years, tended downward so steadily and so rapidly that the rate per ton per mile in 1872 is but little more than half the rate of 1868.

The ascertained results are as follows:

1868	2 43-100 cents per ton per mile.
1869	2 34-100 " "
1870	1 50-100 " "
1871	1 39-100 " "
1872	1 37 100 " "

Had we received the rate of 1868 (two and forty-three one-hundredths cents per ton per mile) on the immense tonnage of 1872, the earnings from freight would have been $22,133,781, instead of $12,613,499, yielding—instead of barely eight per cent upon the capital stock—twenty-eight per cent.

These figures thoroughly disprove the assertion, so frequently and so falsely made, that railroad companies make extortionate rates for their own benefit and against the public interest; and they establish the fact that the policy of this company has been to steadily reduce the rates, as rapidly as could be safely done consistently with the maintenance of the property in good condition; and this has been accomplished notwithstanding the very considerable increase of taxation in the six States through which the road runs.

But for the substitution of steel rails for iron rails in renewals of the track, the low rates of 1871 and 1872 could not have been submitted to and dividends maintained.

It has become evident that low rates must prevail, and that a Trunk Line like this must depend for its prosperity upon the increase of the volume of its traffic, moved on double track steel rails at a moderate rate of speed.

The reduction of the fraction of two one-hundredths of one cent per ton per mile resulted, in 1872, in a loss to our net revenue of $182,000, which of itself accounts for the increased per centage of operating expenses, not mentioning the very considerable advance in labor and material of all kinds (notably iron and steel) established early in 1872 and maintained through the year.

The average rate per mile in 1872 on all passenger business was two and fifty-nine one-hundredths cents, against two and seventy-nine one-hundredths cents in 1871.

The great work of building the second track from Buffalo to Cleveland, one hundred and eighty-three miles, also the thirty-two miles of new second track between Cleveland and Toledo, is completed.

This gives the company practically a double track railroad from Buffalo, four hundred and forty miles westward, to Elkhart, Ind., one hundred miles east of Chicago.

Of this second track, one hundred and eighty-six miles was constructed in 1871 and 1872, at a cost of $3,165,727.

In this work steel rail has been for the most part used.

In addition to the new second track, there was laid in 1872 fifty-three miles of side track, at a cost of $1,025,328 77.

The average cost of second track and side track, including widening of masonry and purchase of additional right of way where needed, was, in 1871 and 1872, $22,000 per mile.

The Northern Division, from Elyria, Ohio, via Sandusky to the junction with the Main Line at Millbury, near Toledo, was completed early in 1872, at an expenditure of $309,881 25. Total cost of this extension, $942,615 47.

The Ashtabula Branch was also completed in 1872, at an expenditure of $224,498 60. Total cost of this branch, $1,161,601 37.

In the work of the substitution of stone and iron bridges in place of wood, now nearly completed on our Main Line, there was expended in 1872, $811,877 82.

The reconstruction of the passenger depot at Chicago, owned conjointly by this company and the Chicago, Rock Island and Pacific Railroad Company, was vigorously pushed in 1872, at an outlay for our half, of $144,179 42. We expect to occupy this depot May 1, 1873.

At the junction of our Main and Air Lines, just west of Toledo on a tract of one hundred and eighty seven acres owned by this company, a large distributing freight yard has been arranged, with ten miles of tracks, an engine house, a machine shop, water tanks, etc., enabling us to make up trains of through cars for their different destinations, and to run them directly past Toledo, instead of halting them upon the crowded and inconvenient "Middle Ground," as heretofore.

The new grain elevator at Toledo, in place of the old elevator "B" destroyed by fire, is approaching completion, and will be in operation by May 1st.

New round-houses have been erected at Buffalo, Ashtabula and Air Line Junction.

Other new structures, imperatively demanded by the increased volume of business, such as water tanks, depot buildings, grain-houses, coal platforms, etc., where none existed previously, have been erected.

The expenditure for these items of construction in 1872, amounted to $474,910 43.

There is much more work of this character yet to be done.

The site for new general offices at Cleveland, and additional land required at Chicago, Toledo, etc., was purchased in 1872, at a cost of $167,906 74.

The entire outlay for construction was—

1872		$5,504,217 99
1871		3,343,383 70
1870		1,113,560 90
Total—three years		$9,961,162 59
For additional equipment—		
1872	72 Engines, 1,718 Cars	$1,953,852 90
1871	47 Engines, 1,151 Cars	1,301,402 50
1870	25 Engines, 601 Cars	654,309 45
Total	144 Engines, 3,470 Cars	$3,909,564 85

In addition to the new construction, the renewals of track and equipment have been sufficient to make good the annual depreciation. There has been charged to operating expenses in 1872—

New locomotives, to replace those old and worn out	19
New cars, to replace those old and worn out	266
Miles track renewed with steel	79
Miles track renewed with iron	163
Miles track renewed with repaired iron	168
	410
Miles of new ties	182

We enter upon the year 1873 with the road and equipment in better condition than at any previous period of its history.

We have between Buffalo and Toledo, where the service is the heaviest, about three hundred miles of steel rail.

There is need of further equipment to carry the great increase of business offered to us and pressed for our acceptance.

We shall proceed with the construction of the new second track between Elkhart and Chicago as soon as practicable, and shall during this year make various improvements, which cannot fail to result in increased efficiency and prosperity.

The number of engines on the road December 31, 1872, was 418. Miles run by engines, 13,477,534. Cost per mile run, 5 93 cents. The cars are classified as follows: first class passenger 122, second class and smoking 14, emigrant 23, railroad postal 13, baggage 56, directors' 2, paymasters' 2, express freight 11, box 4,595, stock and oil 1,823, platform 1,757, coal 962, caboose 2,321, derrick 8, and dumper 148.

Tons of through and way eastward bound freight, 2,944,495; do., westward, 1,437,748—total freight movement, 4,382,243. Tons carried one mile eastward, 664,945,394; do., westward, 245,909,801—total, 910,855,195.

Number of through passengers carried: 1st class, 62,116; 2d class, 10,046; emigrant, 8,518—total, 80,680. Way passengers: 1st class, 1,992,544; 2d class, 22,369; emigrant, 17,240—total, 2,032,153. Total through and way, 2,112,833. Passengers carried westward, 1,093,169; do., eastward, 1,019,664. Miles traveled by through passengers, 43,567,200; do., way passengers, 117,018,203—total mileage of passengers 160,585,403.

Tons of eastward bound freight carried on the Jamestown and Franklin Railroad, 68,178; do. westward, 264,312—total, 332,490. Tons carried one mile, 13,988,945. Through passengers carried, 6,115; way do., 93,806—total, 99,921. Total mileage of passengers, 1,723,092.

☞ At a meeting held at Putnam, Conn., on the 8th inst., arrangements for a survey of the proposed route for the road were perfected, and it appears to be now among the probabilities that the Pascoag Railroad will be pushed on to Putnam, and westward through Woodstock, and a brough route from Providence to the West established at no distant day.

The New Illinois Railroad Law.

The following is a copy of the railroad bill as finally passed by both Houses of the General Assembly of Illinois on the 1st inst.:

A BILL, for an act to prevent extortion and unjust discrimination in the rates charged for the transportation of passengers and freights on railroads in this State, and to repeal an act entitled "an act to prevent unjust discriminations and extortions in the rates to be charged by the different railroads in this State for the transportation of freights on said roads," approved April 7, A. D. 1871.

SECTION 1. *Be it enacted by the People of the State of Illinois represented in the General Assembly*, If any railroad corporation, organized or doing business in this State, under any act of incorporation, or general law of this State, now in force, or which may hereafter be enacted, or any railroad corporation organized under the laws of any other State, and doing business in this State, shall charge, collect, demand or receive more than a fair and reasonable rate of toll or compensation, for the transportation of passengers or freight of any description or for the use and transportation of any railroad car upon its track, or any of the branches thereof, or upon any railroad within this State which it has the right, license, or permission to use, operate, or control, the same shall be deemed guilty of extortion, and upon conviction thereof shall be dealt with as hereinafter provided.

Sec. 2. If any railroad corporation aforesaid shall make any unjust discrimination in its rates or charges of toll, or compensation, for the transportation of passengers or freight of any description, or for the use and transportation of any railroad car upon its said road, or upon any branches thereof, or upon any railroads connected therewith, which it has the right, license or permission to operate, control, or use, within this State, the same shall be deemed guilty of having violated the provisions of this act, and upon conviction thereof shall be dealt with as hereinafter provided.

Sec. 3. If any such railroad corporation shall charge, collect or receive for the transportation of any passenger, or freight of any description, upon its railroad, for any distance within the State, the same, or a greater amount of toll or compensation than is at the same time charged, collected or received for the transportation, in the same direction, for any passenger, or like quantity of freight of the same class, over a greater distance of the same railroad; or if it shall charge, collect or receive, at any point upon its railroad, a higher rate of toll or compensation for receiving, handling or delivering freight of the same class or like quantity, than it shall, at the same time, charge, collect or receive at any other point upon the same railroad; or if it shall charge, collect or receive for the transportation of any passenger, or freight of any description, over its railroad, a greater amount as toll or compensation than shall, at the same time be charged, collected or received by it for the transportation of any passenger, or like quantity of freight of the same class, being transported in the same direction, over any portion of the same railroad, of equal distance; or if it shall charge, collect or receive from any person or persons a higher or greater amount of toll or compensation than it shall, at the same time, charge, collect or receive from any other person or persons for receiving, handling or delivering freight of the same class and like quantity, at the same point upon its railroad; or if it shall charge collect or receive from any person or persons, for the transportation of any freight upon its railroad, a higher or a greater rate of toll or compensation than it shall, at the same time, charge, collect or receive from any other person or persons, for the transportation of the like quantity of freight of the same class, being transported from the same point in the same direction, equal distances of the same railroad; or if it shall charge, collect or receive from any person or persons, for the use and transportation of any railroad car or cars upon its railroad, for any distance, the same or a greater amount of toll and compensation than is at the same time charged collected or received from any other person or persons, for the use and transportation of any railroad car of the same class or number, for a like purpose, being transported in the same direction, over a greater distance of the same railroad; or if it shall charge, collect or receive from any person or persons, for the use and transportation of any railroad car or cars upon its railroad, a higher or greater rate of toll or compensation than it shall, at the same time charge, collect or receive from any other person or persons, for the use and transportation on any railroad car or cars of the same class or number, for a like purpose, being transported from the same point, in the same direction, over an equal distance of the same railroad; all such discriminating rates, charges, collections or receipts, whether made directly or by means of any rebate, drawback, or other shift or evasion, shall be deemed and taken, against such railroad corporation, as *prima-facie* evidence of the unjust discriminations prohibited by the provisions of this act, and it shall not be deemed a sufficient excuse or justification of such discriminations on the part of such railroad corporation that the railway station or point at which it shall charge, collect or receive the same or less rates of toll or compensation, for the transportation of such passenger or freight, or for the use and transportation of such railroad car the greater distance, than for the shorter distance, is a railway station or point at which there exists competition with any other railroad or means of transportation. This section shall not be construed so as to exclude other evidence tending to show any unjust discrimination in freight and passenger rates. The provisions of this section shall extend and apply to any railroad, the branches thereof, and any road or roads which any railroad corporation has the right, license or permission to use, operate or control, wholly or in part, within this State. *Provided, however*, that nothing herein contained shall be so construed as to prevent railroad corporations from issuing commutation, excursion or thousand-mile tickets as the same are now issued by such corporations.

Sec. 4. Any railroad company guilty of extortion, or of making any unjust discriminations as to passenger or freight rates, or the rates for the use and transportation of railroad cars, or in receiving, handling, or delivering freights, shall upon conviction thereof, be fined in any sum not less than one thousand dollars ($1 000), nor more than five thousand dollars ($5,000), for the first offense; and for the second offense not less than five thousand dollars ($5,000), nor more than ten thousand dollars ($10 000), and for a third offense of not less than ten thousand dollars ($10,000), nor more than twenty thousand dollars ($20,000); and for every subsequent offense and conviction thereof, shall be liable to a fine of twenty-five thousand dollars ($25,000); *Provided*, that in all cases under this act either party shall have the right of trial by jury.

Sec. 5. The fines hereinafter provided for may be recovered in an action of debt, in the name of the People of the State of Illinois, and there may be several counts joined in the same declaration as to extortion and unjust discrimination, and as to passengers and freight rates, and rates for the use and transportation of railroad cars, and for receiving, handling or delivering freights. If, upon the trial of any cause instituted under this act, the jury shall find for the people, they shall assess and return with their verdict the amount of the fine to be imposed upon the defendant, at any sum not less than one thousand dollars ($1,000), nor more than five thousand dollars ($5,000), and the court shall render judgment accordingly; and if the jury shall find for the people, and that the defendant has been once before convicted of a violation of the provisions of this act, they shall return such finding with their verdict, and shall assess and return with their verdict the amount of the fine to be imposed.

upon the defendant, at any sum not less than five thousand dollars ($5,000), nor more than ten thousand dollars ($10,000), and the court shall render judgment accordingly; and if the jury shall find for the people, and that the defendant has been twice before convicted of a violation of the provisions of this act, with respect to extortion or unjust discrimination, they shall return such finding with their verdict, and shall assess and return with their verdict the amount of the fine to be imposed upon the defendant, at any sum not less than ten thousand dollars ($10,000), nor more than twenty thousand dollars ($20,000); and in like manner for every subsequent offense and conviction such defendant shall be liable to a fine of twenty thousand dollars ($20,000): *Provided*, that in all cases under the provisions of this act a preponderance of evidence in favor of the people shall be sufficient to authorize a verdict and judgment for the people.

Sec. 6. If any such railroad corporation shall in violation of any of the provisions of this act, ask, demand, charge, or receive of any person or corporation any extortionate charge or charges for the transportation of any passengers, goods, merchandise, or property, or for receiving, handling, or delivering freights, or shall make any unjust discrimination against any person or corporation in its charges therefor, the person or corporation so offended against may, for each offense, recover of such railroad corporation, in any form of action, three times the amount of the damages sustained by the party aggrieved, together with costs of suit and a reasonable attorney's fee, to be fixed by the court where the same is heard, on appeal or otherwise, and taxed as a part of the costs of the case.

Sec. 7. It shall be the duty of the Railroad and Warehouse Commissioners to personally investigate and ascertain whether the provisions of this act are violated by any railroad corporation in this State, and to visit the various stations upon the line of each railroad for that purpose as often as practicable: and whenever the facts in any manner ascertained by said commissioners shall in their judgment warrant such prosecution, it shall be the duty of said commissioners to immediately caused suits to be commenced and prosecuted against any railroad corporations which may violate the provisions of this act. Such suits and prosecutions may be instituted in any county in this State, through or into which the line of the railroad corporation sued for violating this act may extend. And such railroad and warehouse commissioners are hereby authorized, when the facts of the case presented to them shall, in their judgment, warrant the commencement of such action, to employ counsel to assist the attorney-general in conducting such suit on behalf of the State. No suits commenced by said commissioners shall be dismissed, except said railroad and warehouse commissioners and the attorney general shall consent thereto.

Sec. 8. The Railroad and Warehouse Commissioners are hereby directed to make, for each of the railroad corporations doing business in this State, as soon as practicable, a schedule of reasonable maximum rates of charges for the transportation of passengers and freight and cars on each of said railroads; and said schedule shall, in all suits brought against any such railroad corporations, wherein is in any way involved the charges of any such railroad corporation, for the transportation of any passenger or freight or cars, or unjust discrimination in relation thereto be deemed and taken, in all courts of this State, as *prima facie* evidence that the rates therein fixed are reasonable maximum rates of charges for the transportation of passengers and freight and cars upon the railroads for which said schedules may have been respectively prepared. Said commissioners shall, from time to time, and so often as circumstances may require, change and revise said schedules. When such schedules shall have been made or revised, as aforesaid, it shall be the duty of said commissioners to cause publication thereof to be made for three successive weeks, in some public newspaper in the city of Springfield, in this State. *Provided*, that the schedules thus prepared shall not be taken as *prima facie* evidence as herein provided until schedules shall have been prepared and published as aforesaid for all the railroad companies now organized under the laws of this State, and until the 15th day of January, A. D. 1874, or until ten days after the meeting of the next session of this general assembly, provided a session of the general assembly shall be held previous to the 15th day of January aforesaid. All such schedules, purporting to be printed and published as aforesaid, shall be received and held in all such suits as *prima facie* the schedules of said commissioners, without further proof than the production of the paper in which they were published, together with the certificate of the publisher of said paper that the schedule therein contained is a true copy of the schedule furnished for publication by said commissioners, and that it has been published the above specified time; and any such paper, purporting to have been published at said city, and to be a public newspaper, shall be presumed to have been so published at the date thereof, and to be a public newspaper.

Sec. 9. In all cases under the provisions of this act, the rules of evidence shall be the same as in other civil actions, except as hereinbefore otherwise provided. All fines recovered under the provisions of this act shall be paid into the county treasury of the county in which the suit is tried, by the person collecting the same, in the manner now provided by law, to be used for county purposes. The remedies hereby given shall be regarded as cumulative to the remedies now given by law against railroad corporations, and this act shall not be construed as repealing any statute giving such remedies. Suits commenced under the provisions of this act shall have precedence over all other business, except criminal business.

Sec. 10. The term "railroad corporation" contained in this act shall be deemed and taken to mean all corporations, companies or individuals now owning or operating, or which may hereafter own or operate, any railroad, in whole or in part, in this State; and the provisions of this act shall apply to all persons, firms and companies, and to all associations of persons, whether incorporated or otherwise, that shall do business as common carriers upon any of the lines of railways in this State (street railways excepted), the same as to railroad corporations hereinbefore mentioned.

Sec. 11. An act entitled "An act to prevent unjust discriminations and extortions in the rates to be charged by the different railroads in this State for the transportation of freights on said roads," approved April 7, A. D. 1871, is hereby repealed; but such repeal shall not affect nor repeal any penalty incurred or right accrued under said act prior to the time this act takes effect, nor any proceedings or prosecutions to enforce such rights or penalties.

☞ The earnings of the Michigan Central Railroad for the first quarter of 1873 show an increase of $159,780 over those for the first quarter of the previous year. The earnings of the Lake Shore and Michigan Southern Railway for January, February and March show and increase of $690,000 over the corresponding months of 1872, and the company have no reason to doubt that this ratio of increase will continue during the year.

☞ The Cleveland, Mt. Vernon and Columbus Railroad is rapidly approaching completion. The last bridge on the line, that over Alum creek, ten miles from Columbus, is finished, and the track laying is making satisfactory progress. The construction train will enter Columbus about the 20th, and as soon as the necessary arrangements can be made regular through passenger trains will commence running.

Awards of Contracts.

The following awards of contracts have been made by Chief Engineer Fisher for the construction of the two additional tracks for freighting purposes on the New York Central and Hudson River Railroad between Albany and Buffalo, and the work of construction will be commenced at an early day, and carried on to a speedy completion.

Section No. 1, from Albany to the Center, to Stephen V. Trull, of Cohoes.

Section No. 2, from the Centre to Schenectady, to Holler & McIneroe, of Albany.

Sections Nos. 3, 4 and 5, from Schenectady to Fort Plain, to N. H. Decker, of New York.

Section No. 6, from Port Plain to Little Falls, to A. M. Peck, of Albany.

Section No. 7, from Little Falls to Herkimer, to Hoblitzell, Champlain & Co., of New York.

Section No. 8, from Herkimer to Utica, to J. A. Nichols, of Syracuse.

Section No. 9, from Utica to Rome, to Nichols & Canbee, of Syracuse.

Section No. 10, from Rome to Oneida, to G. H. Thompson, of Rochester.

Section No. 11, from Oneida to Canaseraga, to L. M. Hans, of Albion.

Section No. 12, from Canaseraga to DeWitt, to Page & Williams, of Little Falls.

Section No. 13, from DeWitt to Geddes (Syracuse), to Belden, Dennison & Company, of Syracuse.

Sections Nos. 14 and 15, to John Hunter & Co., of Sterling Valley.

Seneca River Bridge, to Lord, Bellows & Co., of Rochester.

Sections Nos. 16 and 17, to A. M. Slocum & Co., of Rochester.

Section No. 18, to A. Marcellus, of Fairport.

Section No. 19, to G. W. Phelps, of Rochester.

Section No. 20, to A. Marcellus, of Fairport.

Section No. 21, to Larbett & Cragie, of Buffalo.

Section No. 22, to Bradley & Canfield, of Phelps.

Rushville, Wabash and Toledo Railroad.

Articles of association of the Rushville, Wabash and Toledo Railroad Company were filed on the 7th inst., in the office of the Secretary of State at Indianapolis, Ind. The Indianapolis *Journal* says:

The company propose to build a railroad from Rushville, Henry county, to Marion, Grant county, a distance of about seventy miles. The following gentlemen comprise the board of directors for the first term: Frank J. Hall, Rush county, J. W. Griffin, J. P. Jessup, U. L. Risk, J. S. Elliot, W. T. McLucas, L. V. Hess, Joel McCormick, Denney Reese, Frederick Tykle, S. H. Summers, and R. Wynhart, Henry county, and J. P. Winslow, Grant county. U. L. Risk, was elected President, John W. Griffin, Vice President, and Frederick Tykle, Secretary and Treasurer. The capital stock of the organization has been fixed at $2,000,000, the greater portion of which will be immediately taken by the capitalists along the line. It is proposed to advertise for proposals for the work of laying the track immediately, and have the line completed by fall. The route will connect on the north (at Marion) with the Michigan, Wabash and Cincinnati, and on the south (at Rushville) with the Louisville and Toledo.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending May 3, at 428,224 tons, and for the coal year at 5,199,248 tons, against 5,164,234 tons to corresponding time last year, being an increase of 35,014 tons. The bituminous tonnage for the week is 58,560 tons, and for the year 655,825 tons, giving a total of all kinds for the week of 496,784 tons, and for the year 5,855,073, tons, an increase as against production to same time last year of 140,241 tons.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 17, 1873.

Stock Exchange and Money Market.

Notwithstanding the disturbed condition of the Continental markets, as reported by cable, through the week, and the advanced rate of the Bank of England for accommodation, our local market for Money has been working more comfortably for the borrowing interests. The city banks have made a further liberal addition to the reserves, and have been thus enabled to increase their measure of aid to their customers. They reported an addition of 6⅜ millions to their deposit line, and of 1⅞ millions, and over 1½ millions to their legal tender, and specie reserves, respectively. They enlarged their loan and discount averages nearly four millions, while reducing their circulation $40,900. Private lenders have also been making advances, with more promptness and freedom. Rates have been quoted easier, the call loan figures toward the close having been 6@7 per cent, with choice to good mercantile credits rated at from 7@10 per cent per annum. The commercial paper now being placed at these quotations, a few weeks ago could not have been done better than 10@12 per cent, and the more encouraging feature of the market is that there is less railroad paper now offering.

The city banks are again handsomely ahead in their obligatory reserve, the last statement showing that they had $4,620,250 more than the 25 per cent reserve which the national banks are required by law to keep on hand. The U.S. Sub-Treasury, last week, reduced its coin balance about 1⅝th millions; while adding nearly a million to its currency reserve. Its currency reserves at the close of the week were $21,342,867; and its coin hoard, $40,530,146.

The clearances of the banks averaged through the week 109¼ millions a day, and amounted in the aggregate, for the whole week, to $655 285,410 as against $698,038,786 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance $951,084 and cut down its coin reserve $1,674,785 as the result of the week's business.

The specie reserve of the city banks according to the latest return is $20,261,600, against $20,005,100 same time last year. The city bank deposits are now $202,819,100 against $217,267,500, week ending May 11, 1872. The legal tender reserve amounts to $41,944,300, against $47,305,600 same time last year. The circulation now stands at $27,628,500 against $27,714,200 same time last year. The loans are now $274,681,900 against $285,002,000 at this date last year.

The coin reserve of the city banks is now about 20¼ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is nearly 42 millions against about 55½ millions on the statement of June 15th; and the deposits are now about 202⅞ millions, against 247½ millions on the 20th of July.

The U. S. Sub-Treasury office last week received $4,063,487 of currency, and $4,462,300 of gold, the latter including $2,113,000 from customs; and disbursed $3,111,874 of currency and $6,137,086 of gold, the latter embracing $2,126,000 of coin interest.

Government revenues have been on a restricted scale since our last. The excises yielded within the week about 1¾ millions, and thus far in the current fiscal year beginning with July 1, 1872, $96,210,000. The customs at the port of New York, for the week, were $2,032,910, and at the outports, about $700,000 more, in coin or coin certificates.

The cash balances under the control of the Treasury Department on Tuesday were as follows: Currency, $3,903,729; special deposit of legal tenders for the redemption of certificates of deposit, $26,995,000; coin, $73,496,228. Coin certificates outstanding, $26,255,200. Legal tenders outstanding $357,090,105.

A livelier market has been noted for Gold, the speculative dealings having been more extensive, while the export drain has been light, and the customs call moderate. The unsatisfactory financial reports from the Continental markets have tended to stimulate the upward movement, having favored operators for a rise. Yet the transactions toward the close were not characterized by much confidence and buoyancy. The range of the price during the week has been from 117⅜ @118⅜ and the closing quotation on Wednesday was 117⅞ against 117¼ on Wednesday of the preceding week. The specie outflow last week, was $551,246. The Gold Exchange Bank clearances have averaged about 78½ millions per day during the week.

The customs demand for Gold last week, averaged $351 889 a day. The arrivals of specie from Europe, Havana and other foreign ports during the week were $64,209, and thus far in 1873, have been $1,653,682 against $639,612 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $117,382,464 against $139,313,437 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $69,431,192, against $70,507,036 during the same time in 1871-2.

The export drain of specie was $551,246 last week, against $4,063,885 same week preceding year. The shipments since July 1, 1872, have been $53,939,693 against $37,329,153 during the same portion of 1871.

Foreign Exchange has been fairly active and rather firmer in price. Bankers' sixty day bills on London closed on Wednesday at 108⅝@108¾; sight bills on London, at 109¾@110¼. The week's exports of Domestic Produce have been to the currency value of $5,998,718. The standard sight drawers of Exchange as a precaution, calculate upon 6 per cent before long at the Bank of England, in place of 5 per cent, as a present, while other Bankers who have Exchange to make on United States 5-20s and other American Stocks are accepting 109¾@109⅞ for sight Bills.

Under the Treasury programme for May, Government proposes to sell through the Sub-Treasury Gold as follows: Thursday, May 22, $1,500,000; Thursday, May 29, $1,000,000. And to buy in Five-Twenties as follows; Wednesday, May 21, $500,000.

Government securities have been quite actively sought, chiefly for investment, on home and foreign account, especially the latter, at generally strong and buoyant prices, though values have fluctuated slightly, in sympathy with Gold. The supply of coupon 5-20s, and 6s of 1881, and 5 per cents is being drained for London and the Continent, and the Registered Stocks not available for this demand keep up to very full prices.

U. S. sixes of 1881 closed on Wednesday of this week at 121@121½; U. S. Five-Twenties of 1862, 115¾@116; U. S. Five-Twenties of 1864 at 115¾@116; U. S. Five-Twenties of 1865, 117¼@117½; U. S. Five-Twenties of 1865 consolidated 118@118¼; U. S. Five-Twenties of 1867, 120⅛@120¼; U. S. Five-Twenties of 1868, 118⅛@118⅜; U. S. Ten-forties at 113⅞@114⅛; U. S. Fives of 1881 (Funding Loan) 114¾@115; Six per cent. currency Sixes from 115¾@116.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	April 30.	May 7.	May 14.
Consols	93⅝	93⅜	93⅜
U. S. 5-20s, 1865....	92	92	91⅞
" 1867	93¾	93⅞	93⅝
" 10-40s	89¼	89¼	88¾
New Fives of 1881...	90	89⅝	89½
Erie	50½	50⅜	46¾

State bonds have been in fair demand, for investment and have shown more firmness as to values.

The Railway and Miscellaneous share specula-

tion has been quite active, but at unsettled prices, closing with more firmness.

Railway Mortgage Bonds have been attracting more attention, especially from home buyers, for investment purposes, at full and buoyant rates. Central Pacific Sixes have been in good request, closing at from 102¾@103. Chesapeake and Ohio Sixes have been of ready sale at 88 and interest. Western Pacific Sixes have been in fair demand at 95. The Northern Pacific 7-30 Loan has been more inquired for at par and interest.

The annual election of the New York Stock Exchange was held on Monday. The following named gentlemen were chosen to fill the respective offices for the ensuing year: For President, H. G. Chapman; for chairman, M. A. Wheelock; for vice-chairman, James Mitchell; for secretary, B. O. White; for treasurer, D. C. Hays.

General business has been on a moderate scale, since our last. The Metal trade has been exceptionally tame. Copper has been dull, at about former rates; sales, 40,000 lbs. Lake at 32½c., cash; 20 tons English at 30¼c.@30½c. Iron has been generally very quiet, and prices have favored purchasers; sales, 200 tons Cambroe Pig on private terms; other kinds dull. We quote Glengarnock Pig nominally at $48@$49; Eglinton do. at $48@$49; No. 1 American Pig at $48@50; No. 2 do. at $45; Wrought Scrap at $50@$52; English rails at $70@$71, gold; American Rails at Works, $80@$83; Pig lead has been inactive at 6¾c.@6⅞c., gold, for ordinary foreign. Spelter selling in lots at 7⅝c., gold. Pig-tin dull, with Straits quoted at 31⅞c.,@32⅛c., and English at 31¾c.@31⅞c., gold; sales 300 slabs Straits at the quotations. Tin Plates have been in quite moderate demand with sales of 500 boxes Charcoal at $11 87½, gold: 500 boxes Terne at $10 50, and 250 boxes Coke, 10x14, at $12 12½. Charcoal Plates quoted here at $11 75@$12; Charcoal Terne, $10@$10 75. Coke, $9 75@$10 50; Coke Terne, $8 50@9 75, gold, per box. Zinc quiet; 10 casks Mussulman changed hands at 9c. gold.

The leading kinds of domestic produce have met with a somewhat freer sale, on a steadier basis as to values, in most instances, though Wheat, Corn, and oats closed weaker. Middling upland Cotton left off at 19¼c. per lb. The receipts at all the ports, since Sept. 1, have been 3,313,781 bales, against 2,592,147 bales same time in the preceding year; exports 2,227,611 bales against 1,794,881 bales in the previous year; stock at the ports at latest dates, 413,000 bales against 261,750 bales same date 1871.

Foreign goods have been rather more sought after. Grocery goods have been in particularly active request and quoted firmer. The week's imports amounted to $6,387,442 including $1,286,754 of dry goods.

Ocean freights have been moderately active and rates have been quoted stronger.

At the Live Stock Markets, Beeves have been in more request at from 9@13⅛ cts. Veals at 5@14 cts.; Sheep at from 5@8 cts.; Swine at 6⅛@6½ cts. per lb., all live weight. The week's receipts were 8,253 Beeves, 5,473 Veal Calves, 16,758 Sheep and Lambs, and 44,906 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Cincinnati and Chesapeake Railroad.

The report of the Cincinnati Board of Trade March 1st, 1873, alludes as follows to the railroad extensions bearing on the interests of that city:

"The voting of $10,000,000 with which to build a southern road seems to have been the inauguration of more liberal action on the part of our people toward railway enterprises, as evidenced in the recent vote of $1,250 000 in aid of the Cincinnati & Chesapeake Railroad, an important enterprise, which will materially assist in the more satisfactory development of our resources, as well as serving as a valuable outlet for our products. The aid to both roads is a desirable investment on which large dividends will accrue, in those results most desirable to a commercial city—increase of trade and cheapening of transportation. The completion of the Chesapeake and Ohio Railroad—with which Cincinnati will shortly be connected by rail—is a matter of special congratulation to our city as a means of communication to a country rich in agriculture, mineral and commercial wealth, naturally tributary to our market, but heretofore uncultivated for want of proper facilities to command it."

New Jersey Southern Railroad.

This company has applied to the committee on securities of the New York Stock Exchange to have its bonds put on the list and has furnished the following statement:

Consolidated 7 per cent. mortgage bonds, dated April 7, 1873. Mature April 1, 1903. Principal and interest payable in New York city, in currency. Interest payable April 1 and October 1. Denominations, $1,000. Numbered 1 to 7,000, inclusive. $7,000,000. Trustees: John R. Garland, Walter B. Palmer.

Statement of New Jersey Southern Railroad and branches covered by the above-described consolidated bonds—New Jersey Southern Railroad: Port Monmouth, via Eatontown Junction to Long Branch, 14¼ miles; Eatontown Junction to Manchester, 25 miles; Manchester to Toms River, 7¼ miles; Manchester to Atsion, 29¼ miles; Atsion to Atco, 9¼ miles. Total, 85¼ miles. First mortgage bonds, $2,120,000. Second mortgage bonds, $1,000,000. Long Branch and Sea Shore Railroad—Sandy Hook to Long Branch, stock owned by New Jersey Southern, 11 miles; first mortgage bonds, $200,000. Toms River and Waretown Railroad—Toms River to Barnegat Junction, 13 miles. Pemberton and New York Railroad—Whitings to Pemberton Junction, stock owned by New Jersey Southern, 18¼ miles; first mortgage bonds, $375,000. Vineland Railway—Atsion to Bayside, 46¼ miles. Maryland and Delaware Railroad—Clayton to Oxford, 54 miles; first mortgage bonds, $850,000; second mortgage bonds, $150,000. Kent County Railroad—Massey's Cross Roads to Chesapeake Bay, 27¼ miles; total constructed, 255¼ miles; being constructed, 10 miles; first mortgage bonds issued, $100,000; first mortgage bonds unissued, $300,000. Total, $4,795,000. New Egypt and Farmingdale Railroad—Long Branch to New Egypt, being constructed, 42 miles. Smyrna and Delaware Bay Railroad—Bombay Hook to Massey's Cross Roads, being constructed, 30 miles; total, 72 miles. Grand total, 827¼ miles.

Also, all bridges, rights of way, land, depots and buildings; all leases, ferries and ferry franchises, car shops, machine shops; all boats, vessels, locomotives, cars, etc., etc., now owned or hereafter to be acquired, as per terms of mortgage. This series of bonds represents the only and entire funded debt of the New Jersey Southern Railroad Company, after the bonds of all said consolidated railroad companies shall have been exchanged. The consolidated bonds for the conversion of outstanding bonds, amounting to $4,795,000, are held by the trustees, John R. Garland and Walter B. Palmer.

Illinois Central Railroad.

The statement of this Company for the month of April, 1873, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	3,614.39 for	$28,409 96
Acres Interest Fund Lands Sold	107.53 for	550 22
Acres Free Lands Sold	80.00 for	1,600 00
Total sales during the m'th of April, 1873	3,801.92 for	$30,560 18
To which add Town Lot Sales	for	
Total of all	2,801.92 for	$30,560 18
Cash collected in April, 1873		$53,736 84

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois. 707 Miles.	In Iowa. 402 Miles.	Total. 1,109 Miles.
Freight	$255,751 00	$59,193 00	$314,944 00
Passengers	109,829 55	43,161 75	152 991 30
Mails	6,375 00	3,059 32	9,434 32
Other sources	64,625 00	2,040 68	66,665 68
Tot'l Apl. '73	$436 5 0 55	$107,454 75	$544,035 30
Total actual earn'gs, Apl., 1872	$454,170 63	$105,700 55	$559,871 18

☞ At a meeting of the directors of the Wheeling, Pittsburg and Baltimore Railroad Company at Washington, Penn., on the 6th inst., J. B. Washington was elected Secretary, W. H. Ijams, Treasurer, and James L. Randolph, Chief Engineer. The officers were directed to prepare for the heavy work on the road, including the construction of a large bridge across the Monongahela at Bellevernon, Pa. Work has been going on at Brady's tunnel, two miles east of Washington, during all the past winter, under the direction of Col. Boyd, of Baltimore. The work on the whole road is to be pushed forward rapidly.

☞ The Union Pacific Railroad Company sold during the month of April, 1873, 11,471 36-100 acres of land, at an average price of $4 92 per acre, amounting to $56,446 70. Total sales to May 1, 1873, 714,908 86-100 acres, at an average price of $4 28 7-10 per acre, amounting to $3,064,877 01.

☞ A dispatch to the New York *Times* from St. Albans, Vermont, says the legislative committee commissioned with examining into the charges of misappropriation of funds and legislative bribery against the trustees of the Vermont Central Railroad, has closed its investigation, and that there is no evidence of fraud or speculation.

☞ The branch railroad from Greenville, R. I., to intersect the Providence and Springfield Railroad it is said will doubtless be built. Twenty-two thousand of the thirty thousand dollars required by the company have been subscribed.

BANKING HOUSE OF FISK & HATCH.

No. 5 NASSAU-ST., NEW YORK. May 11, 1873.

The CHESAPEAKE AND OHIO RAILROAD, now built and in operation as a through line of travel and traffic between the chief cities of the Ohio Valley and the East, (420 miles,) makes regular connections at Richmond with railroads leading to all points along the seaboard and with the Old Dominion line steamers for New York, and at Huntington on the Ohio River with fast packets for Cincinnati, Louisville, &c. In order to accommodate the large traffic in Western produce seeking outlet to market over this road, the company are extending the main line eastward to a deep water terminus on the Chesapeake Bay, where the largest European steamers can load and unload alongside its tracks, and are adding to the equipment of the road, and otherwise enlarging the carrying and transfer facilities to meet the great traffic which its short line, low grades and other operating advantages are attracting to it.

We offer for sale $3,000,000 of their Seven per cent. Gold Loan authorized for these purposes and amply secured by mortgage liens on the property. Bonds are of $1,000 each, principal and interest payable in gold coin in New York city, interest January 1 and July 1. Price 90 and accrued interest.

Full information concerning the bonds, the railroad and the resources of the country tributary thereto, furnished on application.

FISK & HATCH.

☞ The earnings of the Union Pacific Railroad for March, 1873, were $708,259 53, the expenses $330,700 10, and the net earnings $377,459 43. In March, 1872, the earnings were $565,861 44, the expenses, $366,668 67, and the net earnings $199,192 77—showing an increase in earnings of $142,398 09, with a decrease in expenses of $35,868 57, making the increase in net earnings $178,266 66. From January 1 to March 31, 1873, the earnings were $1,724,017 94, the expenses $971,395 72, and the net earnings $752,622 22—showing an increase in gross earnings compared with 1872 of $350,105 33, and an increase in net earnings of $517,474 09.

☞ At the close of March the total debt of the Commonwealth of Pennsylvania, as reported by the commissioners of the sinking fund, was $27,127,122. Of this amount $1,428,500 bears coin interest, $100,742 bears no interest at all, and interest has been stopped on $175,112. At the same date there was in the treasury a balance of $1,920,752, and there was redeemed last month of loans $30,874.

☞ The earnings of the Erie Railway Company for the week ending May 7, 1873, were $387,148, and since November 1, 1872, $9,187,780—an increase over the corresponding period of the previous year of $256,046.

☞ The estimated earnings of the Kansas Pacific Railway for the week ending April 30 are: freight, $55,679 08; passengers, $34,321 00—total, $90,000 08.

☞ The Little Rock, Pine Bluff and New Orleans Railroad is completed to within six miles of Pine Bluff.

Journal of Railroad Law.

COMMON CARRIERS—WHAT CONSTITUTES NEGLIGENCE IN GETTING FROM A FERRY-BOAT.

The facts in the recent case of The New Jersey Railroad Company *ads.* James J. Palmer, (33 New Jersey Law Reports, 90), are fully and clearly stated in the following opinion by—

VREDENBURG, J.—The plaintiff, on the 6th of November, 1865, about 10 o'clock P. M., was crossing in the defendants' ferry-boat from Cortlandt street, New York, to Jersey City, on his trip by way of the defendants' railroad to Newark, New Jersey.

The boat had come close up to the bridge, on the Jersey City side, the guard chains had been put down, and the plaintiff, in the immediate rear of the other passengers, was in the act of passing from the boat to the bridge, when, from some cause, his foot was caught between the boat and the bridge, injuring his foot, and so crushing three of his toes as to make amputation necessary.

There was a space of between eight and ten inches between the boat and the bridge.

There is no intimation that this space between the boat and the bridge might not have been avoided by due care on the part of the defendants.

The defendants, however, insist that the plaintiff, by his own want of care, contributed to the accident.

Before the plaintiff commenced to walk off the boat it had come up close to the bridge, the chains from the bridge to the boat had been fastened on, and the chains across the boat in front had been let down, and all the usual signals given to the passengers that the passage way was safe, and that the usual precautions had been taken for their safety. The plaintiff then moved and went off the boat in the rear of the other passengers; the others passed safely; his foot was caught between the boat and the bridge. The only proof from which any negligence on the part of the plaintiff is inferred is this remark in his own evidence, made on cross-examination, as follows, viz: "Up to the time my foot was hurt I did not take notice of anything; I paid no attention to anything; after that my foot was hurt, I was in such pain I took very little notice of anything." By this I do not understand the plaintiff to say that literally he took no notice of anything. For he does say that he noticed that the boat had come to the bridge, that the chains were fastened, that the chains in front had been let down, that the others passengers had passed off safely, and that he was passing off immediately in their rear, and that the defendant had given the usual signals to pass off. The expression is also to be taken with the last clause of the sentence; he says, after that my foot was hurt I was in such pain I took very little notice of anything. In the agony of the moment it is not likely that he would remember accurately what he was doing the moment before. Sudden and extreme pain drives from the memory what immediately preceded it, to a greater or less extent. He may, I think, fairly be deemed to say that he was passing off the boat as people usually pass off in such circumstances; that he was paying no particular attention to see if the boat was close up to the dock; that he was paying the usual instinctive care people take of themselves, and that he did not use the language in its strict literal sense. It is evident from what he does tell us he in fact did do, that he could not have use the expression in its strict literal sense, and that if he had so intended to say, that it was not in fact literally true. But suppose that to be so, was it, under the circumstances, want of due care on the part of the plaintiff? did the plaintiff not use the ordinary care which passengers use in passing off of this ferry-boat?

Did he not wait till the boat got close to the bridge? did he not wait till he heard the boat was fastened to the bridge by the ordinary chains? did he not wait till the guard chains in front of the boat were let down, and thus got the signal from the defendants' agents that there was no space through which he could be caught between the boat and the bridge? and did he not wait till he saw all the other passengers pass over safely, and then follow in their rear?

When the defendants took down the guard chains at night, was it not saying to the plaintiff, in most unmistakable language, "pass on," "the boat is close to the bridge," "there is no danger." What is the ordinary care taken by passengers under such circumstances?

We cannot ignore the crowds passing continually night and day over these ferries. After the guard chains are down do they not ordinarily pass in crowds of thousands and tens of thousands, with a rush, from the boat to the bridge without giving a thought as to the condition of the bridge and boat? if any cautious passenger should wish to stop to examine he probable would not be able to see his feet from the pressure of the crowd. Is every passenger, in thus passing from the boat to the bridge, to stop the hurrying and impatient crowd until, in the uncertain lamp light on the dim eye-sight of age, he can feel with his cane whether the boat has been carefully fastened to the bridge or not? that would be not ordinary, but extraordinary care. Such care as not one in ten thousand takes, of those who habitually cross these ferries. The plaintiff had a ticket from New York to Newark by the defendants' ferry boat and railroad, and the defendants were as much guilty of negligence in leaving a space between the boat and the bridge as they would have been in leaving a rail out in their railroad. The defendants were bound by their duty to their passengers to make the way from their boat to their railroad safe, as much as the corporation of New York has to make Broadway safe, and the plaintiff was no more bound to stop and feel and look to see if the space was closed between the boat and the bridge than a person in Broadway is to stop and feel with his cane as he passes up with the crowd at night, whether, in the uncertain light, he may not be stepping into a sewer. To assume under such circumstances, that there is no open sewer across the walk in Broadway, is not want of due care; nor was it any want of due care in this plaintiff on this occasion to assume that there was a yawning chasm ready to engulph him between the boat and the bridge. The plaintiff had a right to assume without being chargeable with the want of ordinary care, that the defendants had done what they had just assured him, by taking down the guard chains, that they had done, and that the boat and bridge were in their usual relation.

But the defendants contend that this injury was done, not by the plaintiff's foot getting between the boat and the bridge, but by his toes getting caught under the toggle. I do not think that such is the weight of the evidence.

But even if it was, it does not mend the matter. It was then a trap which could be guarded against only by the most extraordinary care.

Another point is that the damages were too high. The plaintiff lost three of his toes by the accident. The jury thought twenty-five hundred dollars not too high a price for them. Nor am I so satisfied that it was too much, that I would feel justified in interfering with the verdict. We all know that almost everything has risen in value very much with the last few years.

Judgment affirmed.

Baltimore, Towsontown and Swann Lake Narrow Gauge Steam Railways.

Everybody recognizes the utility of horse railroads and their immense importance in building up suburban districts, as is evidenced by the network of such lines extending in various directions around Baltimore. Narrow gauge steam railways form the next step in rapid transit progress. The construction of such a road to Catonsville has been agitated for some time, and in the opposite direction we have the Baltimore and Swann Lake Narrow gauge line, which is to connect with Towsontown and Swann Lake Narrow gauge road, about one and a half miles from Towsontown. Work upon the Baltimore and Swann Lake road was commenced some months since, but owing to the backwardness of spring the enterprise has not been pushed forward as rapidly as was desired by the directors. Recently, however, a large force of workmen has been placed upon the road, and it is confidently expected by the contractors that cars will be running between Baltimore and Towsontown by August. The road is being constructed under contract by Messrs. Crowley, Dickinson & Co., at a cost of $90,000. Mr. W. S. Shoemaker, engineer, has charge of the work, and gives it his personal supervision.

The Towsontown and Swann Lake Railroad is being graded in connection with the Maryland and Pennsylvania Railroad, the track to run alongside of the latter road. The Towsontown section is to be finished by the time the Baltimore and Swann Lake road is completed, and when finished it is to be leased to the latter road for a term of 99 years renewable forever. The lease, it is understood, is to be at a nominal price, the stockholders expecting to be paid by the increase in the value of their property. Messrs. Brown and Galise are the contractors for the Towsontown section. Judge Gilmore is the president of the Baltimore and Swann Lake road, and Dr. Bosley president of the Townsontown and Swann Lake road. The heaviest work of grading the former road it is expected will be completed in about two weeks. The contractors have about 120 hands employed. The road has light grades and easy curves. The track is only 3½ feet wide, which is an entirely new feature in railroads in this section of the country. It is intended to run both passenger and freight cars.—*Balt. Sun.*

☞ C. W. Reed, of Washington, Penn., has been re-elected President of the Wheeling, Pittsburg and Baltimore Railroad Company. This road is an extension of the old Hempfield road, running between Washington and Wheeling, West Virginia. It is to make connection with the Pittsburg and Connellsville road, near Layton's station, and is designed to form a part of a through route from Chicago to the seaboard.

☞ Parties are at work surveying routes for the proposed line of railroad to connect Doyer, N. H., with the Great Falls and Conway Railroad, and there is every prospect that this connecting link will be built, and that before a great while.

☞ Mr. P. P. Dickinson has been appointed General Manager of the Poughkeepsie and Eastern Railroad; Mr. J. A. Perkins, Superintendant; and Mr. A. W. Cable, General Freight and Passenger Agent.

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B, water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors, and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the **Steam Water Station Company,**

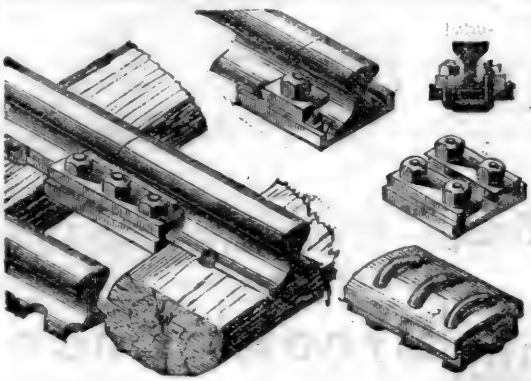
THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

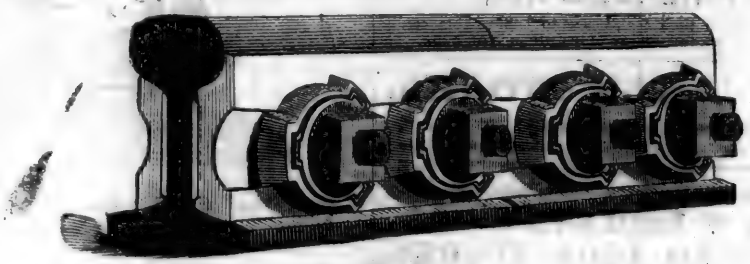
Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

New York, Saturday, May 24, 1873.

New Jersey Railway.

The Philadelphia *Ledger*, of 14th inst., says that the New Jersey Railway Company, created under the general law of the late session of the Legislature of that State, and supposed to be in the interest of the Pennsylvania Railroad Company, has been placed in the hands of two distinct corps of engineers, who are now engaged in selecting and surveying a route. These engineers, we see it stated, commencing at Waverly, are working south, and it is expected that at an early day they will have completed surveys of all the most available lines between Newark and the Delaware. It seems probable that the proposed road will cross the Pennsylvania Railroad tracks at Waverly, about half way between Elizabeth and Newark, connecting with the existing road in the vicinity of West End. The Delaware will be crossed near Yardleyville, the route running thence to Philadelphia in as direct a course as possible. So much of the track of the Mercer and Somerset Railroad as can be used without increasing the length of the line will be taken advantage of, but the object being to secure the shortest possible route, an entirely new road-bed will be probably laid for the whole distance. It will have a double track, steel rails, and iron bridges, with amplest provision for the safety of crossings. It is the intention to make it the safest and best road in the country. The object is such a road as that the distance between New York and Philadelphia will be made in two hours. The enterprise will be backed financially, so far as may be necessary, by the Pennsylvania Railroad, and when completed will be operated by that company.

INVESTMENT BONDS.

The NORTHERN PACIFIC RAILROAD 7.30 FIRST MORTGAGE GOLD BONDS, which we recommend as a profitable and well-secured investment, bear 7 3-10 per cent. gold interest, and have the following elements of security, viz.:

1. They are the obligation of a strong corporation.

2. They are a First Mortgage on the Road, its Equipments, Rights, and Franchises.

3. They are a first lien on its Net Earnings.

4. There is pledged, in addition, for the payment of principal and interest, a Land Grant of 12,800 acres per mile through the States, and 25,600 acres per mile through the Territories traversed. The Company is already entitled to nearly Ten Million acres of its Grant, and its Land Sales thus far have realized $5 66 per acre.

With nearly 500 miles of the road completed and in operation, the earnings for 1873 will be large.

All marketable stocks and bonds are received in exchange for Northern Pacifics on most favorable terms.

JAY COOKE & CO.,
No. 20 Wall Street, New York.

☞ Arrangements have been consummated between the directors of the Boston, Clinton and Fitchburg and Taunton Branch Railroads, by which the latter is to be operated under the joint management of Superintendents Blood and Swasey. This practically unites the roads from New Bedford to Fitchburg and Lowell in a consolidated line.

Central Railroad Extension Company of Long Island.

The Flushing and North Side Railroad commences at Hunter's Point, L. I., and runs thence, via Flushing and College Point, to Whitestone, a distance of about 12 miles. It leases also the North Shore Railroad extending from Flushing to Brookdale, about 6¼ miles in length.

At Flushing—about 8 miles from Hunter's point—commences the Central Railroad of Long Island (popularly known as Stewart's road) which, after touching Garden City and Creedmore, termenates at Bethpage Junction, in a distance of about 18 miles. It has also two branches—Bethpage Junction to Bethpage, 2 miles, and Garden City to Hempstead, 2 miles. The road is operated under lease by the Flushing and North Side Railroad Company.

The Central Railroad Extension commences at Bethpage Junction, the present terminus of the Central road, and runs thence to Farmingdale, thence to Breslau, and terminates on Fire Island Dock, at Babylon, whence the company will run

a Steam Ferry regularly to the hotel on Fire Island, for the accommodation of passengers. The entire length of the extension is 10 miles, and will be in actual operation by the 15th of July. The work is now being rapidly pushed forward, and all the materials, rails, crossties, etc., are on the ground, and the contractor is under heavy penalty to have it completed by that date. A glance at the map showing the connection of the Extension with the Main Stem, and through that with the Flushing and North Side Railroad will show howimportant this line is to them it—being their only outlet to the South Shore.

In order to construct this extension, $200,000 seven per cent First Mortgage Bonds have been issued, being at the rate of $20,000 per mile, and which constitute a first and only lien upon the road. They are in denominations of $500 and $1000, have 30 years to run from May 1, 1873, with interest payable semi-annually. The yearly interest will therefore be but $14,000; and as the road has no other expenses, according to the terms of the lease, this amount can easily be earned. For pamphlets and further information, application can be made to the financial agents of the company, Mess. KNOBLAUCH & LICHTENSTEIN, No. 37 Broad Street, New York.

Canadian Pacific Railway.

The following is Mr. Fleming's summary of the results of the surveys under his direction for the Canadian Pacific Railway:

A practicable, indeed a favorable route for the railway has been found from the prairies of the interior to Lake Superior and also to the valley of the Ottawa. The route referred to will necessitate the building of the main trunk line past the north side of Lake Nepigon, and a branch will be required to Lake Superior. The distance of the main line from the point where it will cross Red River to the eastern terminus, will be about 865 miles, and to Lake Nepigon Bay and Lake Superior the distance will be about 445 miles. A common point on the Red River in Manitoba is more than 300 miles nearer Toronto by the Canadian Pacific route than by the most direct existing railway, viz., by St. Paul, Chicago, Detroit, &c., and it is fully 100 miles less by the Canadian Pacific Railway route from the Red River to Toronto than by Duluth, and the shortest line that can be built along the south side of Lake Superior, Sault Ste. Marie and along the north and east side of the Georgian Bay. Red River is 570 miles nearer Ottawa and Montreal by the Canadian Pacific line than by the most direct existing railway route via St. Paul, Chicago, Detroit, &c. Red River is nearly 200 miles nearer Ottawa and Montreal by the Canadian route than by Duluth, and the shortest line that can be built along the south side of Lake Superior and the north side of Lake Huron, coursing at Sault St. Marie. Not only is the distance nearly 200 miles less by this Canadian Pacific route to Ottawa and Montreal than by the route last mentioned, but the length of railway yet to be built east of Duluth is about 1,020 miles, while the whole distance between Red River and Ottawa is under 1,150 miles by the Canadian Pacific route. The distance from Red River to Lake Superior at Nepigon Bay is about 445 miles, while to Duluth it is 477 miles.

Surveys have been vigorously prosecuted during the past year between the eastern slope of the Rocky Mountains and different points of the Pacific coast. A continuous chain of instrumental measurements has been completed from the Yellow Head Pass to tide-water on the Fraser River, as well as to Vancouver's Island via Bute Inlet. A practicable line across the Rocky Mountains and to the coast has been found, but the cost of some sections of it will be very heavy, and it would not be advisable to recommend its adoption until more exhaustive surveys have been made with the view of discovering a more favorable route.

Statistics of Commerce and Navigation.

The following is an abstract of the Report of the Bureau of Statistics, showing the Foreign Trade of the United States for the calendar year ending December 31, 1872, compared with the corresponding period of 1871:

	1871.	1872.
Imports	$589,915,514	$677,144,579
Domestic exports, (specie values)	510,994,601	544,438,789
Foreign exports	26,797,957	25,086,083

The total value of foreign commodities remaining in warehouse December 31, 1872 was $68,109,926, as compared with $68,963,932 at the close of December, 1871.

From the above it will be observed that during the year ended December 31, 1872, the imports exceeded the domestic and foreign exports combined, to the amount of $94,271,775, while for the corresponding period of 1871 the excess of imports over exports was $52,976,962.

The respective amounts of the imports and exports for the twelve months ending December 31, 1871 and 1872, which consisted of merchandise and of specie and bullion, were as follows:

1871.	Imports.	Domestic exports.	Foreign exports.
Mdze.	$573,111,099	$445,563,259	$14,788,829
Specie and bullion..	16,804,415	65,431,842	12,009,128
1872.	**Imports.**	**Domestic exports.**	**Foreign exports.**
Mdze.	$655,862,575	$452,143,553	$16,694,395
Specie and bullion..	21,182,004	92,295,236	8,391,688

Of the total imports and exports, the comparative values carried in American and foreign vessels, and in cars and other land vehicles, respectively, during the twelve months ending December 31, 1871 and 1872 were as follows:

1871.	Imports.	Domestic exports.	Foreign exports.
American..	$172,017,890	$172,044 860	$8,509,033
Foreign....	401,847,870	883,040,525	15,849,296
Land vehicles.....	16,049,754	6,723,396	2,439,628
1872.	**Imports.**	**Domestic exports.**	**Foreign exports.**
American .	$180,518,071	$168,679,265	$7,027,513
Foreign ...	475,642,367	422,093,783	14,406,090
Land vehicles.....	19,084,141	6,420,962	3,652,480

From the two preceding tables it appears that of the total amount of our foreign commerce carried by water, over sixty-eight per cent was in foreign vessels during the calendar year 1871, as compared with seventy-two per cent in 1872.

Vessels engaged in the foreign trade entered into and cleared from the United States during the twelve months ending December 31, 1871 and 1872:

	Entered.		Cleared.	
1871.	No.	Tons.	No.	Tons.
American..	11,058	3,798,361	10,864	3,770,278
Foreign ...	19,561	6,932,111	19,443	6,786,023
Total..	30,619	10,730,472	30,307	10,556,301
	Entered.		**Cleared.**	
1872.	No.	Tons.	No.	Tons.
American..	10,954	3,653,406	11,049	3,740,818
Foreign ...	19,190	7,510,381	19,298	7,493,725
Total..	30,144	11,163,787	30,347	11,234,543

The report contains several statements exhibiting the statistics of immigration into the United States during the quarter ending December 31, 1872, from which it appears that the total number arrived was 89,227, of whom 50,729 were males, and 38,498 females.

Connecticut River Railroad.

The earnings of this road for the years ending September 30, 1871 and 1872, were as follows:

	1871.	1872.
From passengers	$319,462 33	$323,247 06
" freight	376,701 51	375,536 08
" mails	6,076 50	6,059 56
" express	13,680 47	13,065 99
" rents, etc	10,071 02	15,459 78
	$725,391 83	$733,368 47
Expenses, viz:		
Repairs of road	$141,659 56	$128,390 95
" bridges	2,628 37	8,896 10
" buildings	19,677 26	34,201 85
" locomotives	24,128 17	26,780 79
" cars	65,373 08	44,536 78
" tools, etc	2,071 79	1,154 69
Running trains	128,156 34	132,880 28
Station expenses	53,852 08	58,499 45
General expenses	14,245 41	16,682 63
Stationery, etc	6,187 36	8 044 34
Gratuities and damages	5,144 16	4,256 31
Removing snow	1,238 77	1,074 54

Miscellaneous	9,847 92	11,918 60
	$477,498 87	$478,153 82
Net earnings	$247,901 96	$255,214 65
Surplus per last report	219,110 08	217,102 22
Total	$464,012 04	$472,316 87
Against which are charged—		
Interest paid	$20,165 26	$27,598 62
Payment to sinking f'd.	8,000 00	8,000 00
Taxes, etc	46,612 16	37,023 18
Insurance	2,132 40	2,709 95
Dividends January	85,000 00	85,000 00
" July	85,000 00	85,000 00
Surplus September 30.	217,102 22	226,985 12
Total, as above	$464,012 04	$472,316 87

The figures show a slight improvement on the business of the preceding year, notwithstanding a considerable reduction in both the passenger and freight tariffs. The difference in net result is $8,890 76.

Great attention has been given to perfecting the roadbed and track. Wherever the unusual depth of frost last winter developed the existence of imperfect material near the surface of the road, the same has been removed and replaced. The track has received 224 tons of new or re-rolled iron rails and 500 tons of steel rails, together with 265 kegs of spikes and 30,212 cross-ties.

The economy of using steel rails altogether in the main track is now well established, and it is the policy of the board to introduce them as fast as the iron rails become unserviceable.

In the running department a baggage and smoking car, two first class passenger cars and a new locomotive "Hatfield" have been added to the equipment and their cost carried to the account of operating expenses.

At the date of our last annual report a contract had been made with the Mt. Tom and Easthampton Railroad Company for a permanent lease of its road and franchise, and the road was then in course of construction. It was completed and opened for use on the first of December following. At the legislative session of 1872 authority was obtained to purchase the road at its first cost, not exceeding $120,000. In pursuance of votes adopted at a special meeting of the stockholders the purchase was effected, and the road now takes the name of "Easthampton Branch." Its earnings and expenses are merged in the general accounts.

The grading and masonry for the second track, about five miles in length, between Chicopee and Holyoke excepting the Connecticut River Bridge, is well advanced and before the close of the sea-

son will be in readiness for the bridge superstructures and track. These are not to be provided till the summer of 1873.

To provide funds for the purchase of the Easthampton Branch and for the extension of the second track, fifteen hundred additional shares of stock have been issued and sold for $195,885. The capital stock now amounts to $1,850,000.

The commissioners of the sinking fund report the present value of the fund at $132,907 68. It is largely invested in the bonds of the company.

The company have 18 locomotives, 22 passenger, 2 sleeping, 6 smoking and baggage, 5 smoking and Post-office, 2 baggage and express, 132 house freight, 121 platform freight and 32 stone (plat form) cars, and 1 steam car. Miles run with passenger trains, 168,599; with freight, etc., trains, 155,454—total 324,053. Number of passengers carried, 985,504; do., carried one mile, 10,986,048. Tons of freight carried, 383,770; do., carried one mile, 9,729,463. Earnings per mile of road $12,644 80. Earnings per mile run, $2 26.3; operating expenses per mile run, $1 47.5; net earnings per mile run, $0 78.8. Per centage of expenses to earnings, 62.5.

BALANCE SHEET, September 30.

President.—DANIEL L. HARRIS.

Directors.—Daniel L. Harris, Ignatius Sargent, I. M. Spelman, Edward A. Dana, Chester W. Chapin, Oscar Edwards, W. B. Washburn, Roland Mather, S. M. Waite.

Clerk and Treasurer.—SETH HUNT.

Auditor.—ELIPHALET WILLIAMS.

Superintendent.—JOHN MULLIGAN.

☞ The Crestline and Northwestern Railroad Company, with a capital stock of $50,000, filed a certificate of incorporation with the Secretary of State of Ohio on the 16th inst. The purpose is to build a railroad from Crestline to De Kalb—all in Crawford county. The corporators are A. E. Jenner, William Pope, Jonathan Martin, Henry Wentz and John Adam Thomann.

Texas and Pacific Railway.

The annual meeting of the stockholders of the Texas and Pacific Railway Company was held at 50 Exchange Place, N. Y., on the 19th inst. Mr. William S. McManus presided. The annual report of the President and Board of Directors was read and approved. The report states that the line has been extended from Longview west to Dallas, from Marshall via Jefferson to a point near Texarkana, and from that point west to Sherman. The grant of $6,000,000 of bonds by the State of Texas required them to complete the road from Marshall west, and Texarkana, to a point near Fort Worth, by January 1, 1874. Four hundred miles had already been graded. The route west of Fort Worth had been thoroughly developed, but not yet definitely located, except a portion of the San Diego division. A survey was made of the country between San Diego and the Colorado River, and the route entering San Diego from the direction of San Gorgonia River was adopted. Work has been commenced at San Diego. A contract had been concluded with a constructing company, and they saw no reason why the entire road should not be finished in five years.

The summits to be crossed on this line are about thirty-two per cent less than those on the present Pacific roads. No train will be delayed from snow or other obstruction. The entire rail transportation will be less than eighteen hundred miles. The lines approaching the road from St. Louis, Cairo and Memphis, via Little Rock and Fulton are fast approaching completion, and will form connection during the Fall. Arrangements are being perfected for the completion of the road from Monroe to Shreveport, and negotiations are also pending that will probably result favorably to the construction of the line from Shreveport to New Orleans, via Baton Rouge. An extract from the report of the Chief Engineer, General Dodge, was also read, setting forth the resources of the country and other interesting facts, and the meeting then adjourned.

Routes to the Seaboard.

At a recent meeting of Southern and Western business men at Augusta, Ga., an association was formed to be called "The Chicago, Knoxville, Augusta and South Atlantic Short Line Railroad Association." The following resolutions were adopted:

Resolved, That, as at present advised, we recommend the following general location as embracing the great object in view, viz: from Chicago to Indianapolis; thence to Lexington, Ky.; thence to Knoxville, Tenn., (with a branch from an eligible point, through Cumberland Gap in the direction of Asheville, N. C.,) from Knoxville over the line of the Blue Ridge Railroad to Clayton, Ga.; thence over the most practicable line to the city of Augusta and the south Atlantic coast, having proper regard to distance, cheapness of construction and general results of business.

Resolved, That to promote, and consummate, as far as possible, the great project before us, a committee of ten be appointed by the chairman, whose business it shall be to ascertain and embody in a report all such facts and suggestions as may be necessary to bring this enterprise to the attention and favorable notice of capitalists and the people at large, especially the distances from point to point, practicability of routes, approximate cost of each section, general and special resources, consolidation with or purchase of other roads, wholly or partially constructed, with such other matter as such committee shall deem advisable, which was unanimously adopted.

Resolved, That the gentlemen present in this meeting are requested to call meetings along the line of this contemplated road in order to memorialize Congress to give the route the support of the Federal government.

General Railroad Law of New Jersey.

AN ACT to authorize the formation of railroad corporations and regulate the same.

1. *Be it enacted by the Senate and General Assembly of the State of New Jersey*, That any number of persons, not less than thirteen, may form a company for the purpose of constructing, maintaining and operating a railroad for public use in the conveyance of persons and property, or for the purpose of maintaining and operating any unincorporated railroad already constructed for the like public use; and for that purpose may make and sign articles of association, in which shall be stated the name of the company; the number of years the same is to continue; the places from and to which the road is to be constructed, or maintained and operated; the length of such road as near as may be, and the name of each county in this state through or into which it is made or intended to be made; the amount of the capital stock of the company, which shall not be less than ten thousand dollars for every mile of road constructed or proposed to be constructed, and the number of shares of which said capital stock shall consist, and the names and places of residence of thirteen directors of the company, a majority of whom shall be residents of this State, who shall manage its affairs for the first year, and until others are chosen in their places; each subscriber to such articles of association shall subscribe thereto his name, place of residence, and the number of shares of stock he agrees to take in said company; on compliance with the provisions of the next section, such articles of association may be filed in the office of the secretary of state, who shall endorse thereon the day they are filed, and record the same in a book to be provided by him for that purpose; and upon tendering the said articles to the secretary of state to be filed, the persons who have so subscribed such articles of association, and all persons who shall become stockholders in such company, shall be a corporation by the name specified in such articles of association; every corporation formed under this act, in addition to the general powers set forth in an act entitled "An act concerning corporations," approved February fourteenth, eighteen hundred and forty six, and the several supplements thereto, shall have power:

I. To cause such examination and surveys for its proposed railroad to be made as may be necessary to the selection of the most advantageous route, and for such purpose by its officers and servants to enter upon the lands or waters of any person, but subject to responsibility for all damages which shall be done thereto;

II. To take and hold such voluntary grants of real estate and other property as shall be made to it, to aid in the construction, maintenance and received as a voluntary grant shall be held and used for the purpose of such grant only;

III. To purchase, hold and use all such real estate or other property as may be necessary for the construction and maintenance of its railroad, and the stations and other accommodations necommodation of its railroad, but the real estate necessary to accomplish the object of its incorporation;

IV. To lay out its road as hereby provided, and to construct the same, and for the purposes of cuttings and embankments, to take as much more land as may be necessary for the proper construction and security for the road;

V. To exercise all other powers hereby granted.

2. *And be it enacted*, That such articles of association shall not be filed and recorded in the office of the secretary of state until at least two thousand dollars of stock for every mile of railroad proposed to be made, is subscribed thereto, and ten per centum paid thereon in good faith,

and in cash, to the directors named in said articles of association, nor until there is endorsed thereon, or annexed thereto, an affidavit, made by at least five of the directors named in said articles, that the amount of stock required by this section has been in good faith subscribed, and ten per centum paid in cash thereon as aforesaid, and that it is intended in good faith to construct or to maintain and operate the road mentioned in such articles of association, which affidavit shall be recorded with the articles of association as aforesaid.

3. *And be it enacted*, That a copy of any articles of association filed and recorded in pursuance of this act, or of the record thereof, with a copy of the affidavit aforesaid indorsed thereon or annexed thereto, and certified to be a copy by the secretary of this State, shall be presumptive evidence of the incorporation of such company and of the facts therein stated.

4. *And be it enacted*, That when such articles of association and affidavit are filed and recorded in the office of the secretary of state, the directors named in said articles of association may, in case the whole of the capital stock is not before subscribed, continue to receive subscriptions until the whole capital stock is subscribed; at the time of subscribing every subscriber shall pay to the directors ten per centum on the amount subscribed by him, in money, and no subscriptions shall be received or taken without such payment.

5. *And be it enacted*, That there shall be a board of thirteen directors of every corporation formed under this act to manage its affairs; said directors shall be chosen annually by a majority of the votes of the stockholders voting at such election, in such manner as may be prescribed in the by-laws of the corporation, and they may and shall continue to be directors until others are elected in their places; in the election of directors, each stockholders shall be entitled to one vote for each share of stock held by him; vacancies in the board of directors shall be filled in such manner as shall be prescribed by the by-laws of the corporation; the inspectors of the first election of directors shall be appointed by the board of directors named in the articles of association; no person shall be a director unless he shall be a stockholder, owning stock absolutely in his own right and qualified to vote for directors at the election at which he shall be chosen; at every election of directors the books and papers of such company shall be exhibited to the meeting, provided a majority of the stockholders present shall require it.

6. *And be it enacted*, That the directors shall appoint one of their number president; they may also appoint a treasurer and secretary and such other officers and agents as shall be prescribed by the by-laws, and shall establish and fix such salaries to them and to the president as to said board of directors shall appear proper.

7. *And be it enacted*, That the directors may require the subscribers to the capital stock of the company to pay the amount by them respectively subscribed, in such manner and in such installments as they may deem proper; if any stockholder shall neglect to pay any installment as required by a resolution of the board of directors, the said board shall be authorized to declare his stock and all previous payments thereon, forfeited for the use of the company; but they shall not declare it so forfeited until they shall have caused a notice in writing, to be served on him personally, or by depositing the same in the post office, properly directed to him at the post office nearest his usual place of residence, stating that he is required to make such payments at the time and place specified in said notice; and that if he fails to make the same, his stock and all previous payments thereon will be forfeited for the use of the company; which notice shall be served as aforesaid at least thirty days previous to the day on which such payment is required to be made; *provided*, that if said company shall not declare such stock forfeited, then such neglecting stockholder shall be individually liable to said company for the amount unpaid upon the stock so held by him, until the whole amount of the capital stock so held by him shall have been paid to the company.

8. *And be it enacted*, That the stock of every company formed under this act shall be deemed personal estate, and be transferable in the manner prescribed by the by-laws of the company, but no shares shall be transferable until all previous calls thereon shall have been fully paid in.

9. *And be it enacted*, That in case the capital stock of any company formed under this act, is found to be insufficient for constructing and operating its road, such company may, with the concurrence of two-thirds in amount of all its stockholders, increase its capital stock from time to time, to any amount required for the purpose of constructing, maintaining and operating its railroad; such increase may be sanctioned by a vote, in person or by proxy, of two-thirds in amount of all the stockholders of the company at a meeting of such stockholders called by the directors of the company for that purpose, by a notice in writing to each stockholder, to be served on him personally, or by depositing the same, properly folded and directed to him, at the post office nearest his usual place of residence, in the post office, at least twenty days prior to such meeting; such notice must state the time and place of the meeting, and its object, and the amount to which it is proposed to increase the capital stock; the proceedings of such meeting must be entered on the minutes of the proceedings of the company, and thereupon the capital stock of the company may be increased to the amount sanctioned by a vote of two-thirds in amount of all the stockholders of the company as aforesaid.

10. *And be it enacted*, That as often as any contractor for the construction of any part of a railroad which is in progress of construction, shall be indebted to any laborer for thirty or any less number of days' labor performed in constructing said road, such laborer may give notice of such indebtedness to said company in the manner herein provided; the said company shall thereupon become liable to pay such laborer the amount so due him for such labor, and an action may be maintained against said company therefor; such notice shall be given by such laborer to said company within twenty days after the performance of the number of days' labor for which the claim is made; such notice shall be in writing, and shall state the amount and number of days' labor and the time when the same was performed for which the claim is made, and the name of the contractor from whom due, and shall be signed by such laborer or his attorney, and shall be served on an engineer, agent, or superintendent employed by such company having charge of the section of the road on which such labor was performed, personally, or by leaving the same at the office or usual place of business of such engineer, agent, or superintendent, with some person of suitable age; but no action shall be maintained against any company under the provisions of this section, unless the same is commenced within thirty days after notice is given to the company by such laborer as above provided; *provided*, that the liability of the company under this section shall not exceed its liability to the contractor; *and provided further*, that any payments made to such laborers shall be a full discharge to the company from such contractor for the amount so paid.

11. *And be it enacted*, That any railroad constructed under the provisions of this act shall not exceed a hundred feet in width, unless more land shall be required for the slopes of cuts and embankments, with as many sets of tracks and rails as such company incorporated under this act may deem necessary; and it shall be lawful for the said company, its agents, engineers, superintendents, or others in its employ, to enter at all times upon all lands or waters for the purpose of exploring, surveying, leveling, and laying out the route or routes of such railroad, and of locating the same, and to locate all necessary works, buildings, conveniences, appurtenances and appendages thereof, doing no unnecessary injury to private or other property; and when the route or routes of such railroad and the location or locations of other works, buildings, conveniences, appurtenances and appendages thereof shall have been determined upon and a survey of such route or routes, location or locations, deposited in the office of the secretary of state, then it shall be lawful for every corporation formed under this act, upon payment or tender of such compensation as is hereinafter provided, by its officers, agents, engineers, superintendents, workmen and other persons in their employ, to construct, maintain and operate a railroad with a single or double track, with such side tracks, turnouts, offices and depots as they may deem necessary between the points named in the articles of association, commencing at or within and extending to or into any town, city or village named as the place of the termini of such road, and construct, maintain and operate branches from the main line to other towns or places within the limits of any county through which said road may pass, lay rails, and for that purpose to enter upon, take possession of, hold, have, use, occupy, and excavate any lands, and to erect embankments, bridges and all other necessary works and to do all other things which may be suitable or necessary for the completion, repairs or management of said railroad, and for the conveyance of passengers and freight to and from the terminus thereof by steam or other motive power; *provided always*, that the payment or tender of the payment of all damages for the occupancy of all lands through, under or upon which the said railroad and its conveniences, appurtenances and appendages may be laid out or located be made before the said company, or any person under their direction or employ shall enter upon or break ground in the premises, except for the purpose of surveying and laying out said railroad and its conveniences, appurtenances and appendages, and of locating the same, unless the consent of the owner or owners of such lands be first had and obtained.

12. *And be it enacted*, That when any company incorporated under this act or its agents cannot agree with the owner or owners of such required lands for materials, or the use or purchase thereof, or when by the legal incapacity or absence of such owner or owners, no such agreement can be made, a particular description of the land or materials so required for the use of such company incorporated under this act in the construction of said road, shall be given in writing, under oath or affirmation of some engineer or proper agent of the company, and also the name or names of the occupant or occupants, if any there be, and of the owner or owners, if known, and their residence, if the same can be ascertained, to one of the justices of the supreme court of this state, who shall cause any company incorporated under this act to give notice thereof to the persons interested, if known and in this state, or if unknown and out of this state, to make publication thereof as he shall direct, for any term not less than ten days, and to assign a particular time and place for the appointment of the commissioners hereinafter named, at which time, upon satisfactory evidence to him of the service of publication of such notice aforesaid, he shall appoint under his hand and seal three disinterested, impartial and judicious freeholders, residents in the county in which the lands or materials in controversy lie or the owners reside, commissioners to examine and appraise the said land or materials and to assess the damages upon such notice to be given to the persons interested, as shall be directed by the justice making such appointment, to be expressed therein, not less than ten days; and it shall be the duty of said commissioners (having first taken and subscribed an oath or affirmation before some person duly authorized to administer an oath, faithfully and impartially to examine the matter in question and to make a true report according to the best of their skill and understanding), to meet at the time and place appointed and to proceed to view and and examine the said land or materials, and to make a just and equitable estimate or appraisement of the value of the same and an assessment of damages to be paid by the company for such lands or materials and damages aforesaid, which

report shall be made in writing under the hands and seals of the said commissioners, or any two of them, and filed within ten days thereafter together with the aforesaid description of the land or materials, and the appointment and oaths or affirmation aforesaid, in the clerk's office in the county in which the land or materials are situate, to remain of record therein and thereupon and on payment or tender of payment of the amount awarded as hereinafter provided, the said company is hereby empowered to enter upon and take possession of the said lands or materials for the purposes aforesaid, and the said report or a copy thereof certified by the clerk of said county and proof of payment or tender of the amount awarded shall at all times be considered as plenary evidence of the right of any company incorporated under this act, to have, hold, use, occupy, possess and enjoy the said land or materials, or of the said owner or owners to recover the amount of said valuation, with interest and costs in an action of debt in any court of competent jurisdiction, in a suit to be instituted against the company if they shall neglect or refuse to pay the same for twenty days after demand made of their treasurer, and shall from time to time constitute a lean upon the property of the company in the nature of a mortgage; and the said justice of the supreme court shall upon application of either party, and on reasonable notice to the others, tax and allow such costs, fees and expenses to the justice of the supreme court, commissioners, clerks and other persons performing any of the duties prescribed in this section as he shall think equitable and right, which shall be paid by the company; *provided, always*, that should any company incorporated under this act, or the owner or owners of any of the land or materials, feel aggrieved by the decision of the commissioners aforesaid, he, she or they may appeal to the next circuit court in the county wherein the said land or materials may be.

13. *And be it enacted*, That every appeal from the decision of the commissioners appointed under the proceding section shall be made in writing, and in the form of a petition to said court, and filed with the clerk of the said circuit court of the county wherein the lands or materials appraised by the said commissioners shall be, and notice in writing of such appeal shall be given to the opposite party within ten days after the filing thereof, which proceeding shall vest in the circuit court full right and power to hear and adjudge the same, and to direct a proper issue for the trial of said controversy to be formed between the said parties, and to order a jury to be struck and a view of the premises to be had, and the said issue to be tried at the next term of said court to be holden in the said county, upon the like notice and in the same manner as other issues in the said court are tried; and it shall be the duty of said jury to assess the value of the said land or materials and damages sustained, and if they shall find a greater sum than the said commissioners have awarded in favor of the said owner or owners, then judgment thereon, with costs, shall be entered against any company incorporated under this act, and execution awarded therefor; but if the said jury shall be applied for by said owner or owners and shall find a less sum than the company shall have offered or the said commissioners shall have awarded, then said costs shall be paid said applicant or applicants, and either deducted out of said sum found by the said jury or execution awarded therefor, as the said court shall direct; but such application shall not prevent the company from taking the said land, upon filing the aforesaid report; *provided*, that in no case whatever shall said company incorporated under this act enter upon or take possession of any land of any person or persons for the purpose of actually constructing said railroad, or of making any erections or improvements whatever, or otherwise appropriating said lands to the use of any company incorporated under this act, until they have paid to the party or parties entitled to receive the same amount assessed by the commissioners as the value of such land or damages, in case the report of commissioners is not appealed from, or if the same is appealed from then the amount which will be found by the jury by whom the issue shall be tried; but in case the party or parties entitled to receive the amount assessed by the commissioners, in case there shall be no appeal, and in case of appeal, the amount found by the jury, shall refuse upon tender thereof being made to receive the same, or shall be out of the state or under any legal disability, then the payment of the amount assessed or found as aforesaid, into the circuit court of the county wherein the said lands lie, shall be deemed a valid and legal payment; *and further*, that the party or parties entitled to receive the amount assessed by the commissioners, may upon tender thereof being made receive the same without being barred thereby from his or their appeal from the report of the commissioners; and on such tender or payment of the money into court, in case it be refused, as aforesaid, the said company shall be empowered to enter upon and take possession of said lands and proceeds with the work of constructing its road.

14. *And be it enacted*, That it shall be the duty of any company incorporated under this act to construct and keep in repair good and sufficient bridges and passages over, under and across the said railroad where any public or other road now or hereafter laid, shall cross the same, so that the passage of carriages, horses and cattle on the said road shall not be impeded thereby; and also where the road shall intersect any farm or lands of any individual, to provide and keep in repair suitable and convenient wagon ways over, under and across the said railroad, and shall also construct and maintain suitable and proper cattle guards at all road crossings; *provided*, that in case said railroad shall cross any street or highway in any city, it shall be either above or below the grade thereof, at such distance as shall not interfere with the free and unterrupted use of said streets or highways; *provided further*, that the common council of any city may grant permission to said company to cross such streets or highways at grade, if they shall deem it to be the best interest of said city.

(To be continued.)

☞ At an election for directors of the Delaware and Hudson Canal Company, held in this city on the 13th inst., the following gentlemen were duly elected for the ensuing year: Charles N. Talbot, Thomas Dickson, Abiel A. Low, John Jacob Astor, R. Lenox Kennedy, Thomas Cornell, James M. Halstead, W. J. Hoppin, Legrand B. Cannon, J. Pierpoint Morgan, James R. Taylor, Geo. Cabot Ward, Robt. M. Olyphant. And at a meeting of the board, held on the 14th inst., Thomas Dickson, Esq., was unanimously re-elected president.

☞ The Secretary of the Interior has been officially notified that the State of Texas, which never ceded her public lands to the General Government, has granted to the Texas and Pacific Railroad Company, a tract of land four hundred and fifty miles long by fifty miles wide, in which no State land warrants can be located and no settlers can claim a pre-emption. This munificent State land grant of thirty-six thousand square miles will make the Texas and Pacific Corporation the richest company in the world.

☞ The Privy Council of the Dominion of Canada has decided in effect that the grant by the city of Montreal to the Northern Colonization Railroad is legal. The decision is regarded as assuring the success of the enterprise. The company is required to construct the road to Aylmer by the 1st October, 1875—a condition with which it is said it will have no difficulty in complying.

New Jersey and Delaware Central Railroad.

A meeting of the corporators of the New Jersey and Delaware Central railway was held in Wilmington, Del., on the 12th inst. This road is designed as an "air line" from New York to Washington. It will commence at Jersey City, or some point opposite New York, and pass through Mt. Holley, Bordentown and Salem. At the latter place, it will cross the Delaware river, by large ferry boats, to Port Penn, Del., thence to Odessa, and through various towns to Washington. At this meeting one thousand shares were subscribed to at $100 per share. The following officers were elected: President, Benj. F. Smith, New York; vice president, Wm. Bell, New York; secretary, Samuel H. Robbins, Allentown, New Jersey; treasurer, Edward Howe, Princeton, N. J.; engineer, Robt. S. Van Rensselaer Bordentown, N. J.; directors, Benj. F. Smith, Wm. Bell, S. H. Robbins, John Jamison, Jos. D. Pancoast, H. H. Appleton, Richard Townsend, Samuel Townsend, and Henry Cleaver.

The North Pacific Railroad Survey.

The Secretary of War having decided to make a thorough scientific survey of the North Pacific Railroad to the Yellowstone, the expedition under the command of Colonel Stanley, which has been out two summers, will start again from Fort Rice on June 15, with an escort of 2,000 troops to protect them, and will be absent four months. The following-named scientific gentlemen have been invited, and will accompany the expedition: Prof. Leidy, paleontologist, Penn University; Prof. Leo, Lesquereux, geologist, Columbus, Ohio; Prof. Lionel R. Nettre, mineralogist, 230 West Twenty-fifth street, New York; Prof. Jas. A. Allen, zoologist, Cambridge, Mass.; Wm. R. Pywell, photographer, Washington, D. C.; Edward Kuopicky, artist, Cambridge, Mass.; Prof. Thos. C. Porter, botanist; Prof. Henry C. Chapman, volunteer assistant paleontologist; C. W. Bennett, general assistant to members of the scientific corps.—*Wash. Star.*

☞ T. B. Hall has been elected President, and John Noble Treasurer of the East Boston Company. From the annual report it appears that the sales for the past year had amounted to $48,717 16. A dividend of $1 per share was announced, payable on the 15th of July. The East Boston Company was new in 1833. The dividends in 1833 and 1835 were in cash for land sold. In 1836 a dividend of 3 shares in Eastern Railroad stock for every 10 of the East Boston was declared. In 1853 a dividend of 5 per cent was made payable in East Boston Ferry stock at par, when it was selling at about $80. Most of the remaining dividends of the East Boston Company have been made payable in land.

☞ The new rolling mill which the Phœnix Iron Company, of Phœnixville, Pa., are now building will be of iron, 240x900 feet. In it will be placed 30 steam engines and nine frames of rolls, for the making of large beams, angle iron, plates for ships, and iron for buildings. Its production will be about 50,000 tons per annum. The entire cost of the building and machinery will reach a million dollars. On its completion, the present mill, which is also very extensive, will be fitted up exclusively for puddling iron, and it is stated that its capacity will be over 60,000 tons a year.

☞ John M. Robinson has been re-elected president of the Seaboard and Roanoke Railroad.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "$."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, May 24, 1873.

Stock Exchange and Money Market.

Money has been quoted easier in price, for speculative as well as for mercantile purposes, on a more liberal supply of funds, and a less urgent inquiry for aid, especially from the Stock Exchange and Gold Board. Call loans closed comparatively steady within the modified range of 5@7; and prime to good commercial credits, at from 7@10 per cent per annum. The foreign cable advices toward the close were of a more encouraging tenor, and lenders were more disposed to accommodate their customers, to the full extent of their present requirements at the ruling figures. The city banks, as well az the U. S. Sub-Treasury, made further additions to their reserves during the week. The city banks reported an addition of over five millions to their deposit line, over 1⅛ millions to their legal tender, and nearly half a million to their specie reserves. They enlarged their loan and discount averages about 3⅜ millions, while again reducing their circulation slightly.

The city banks are gaining encouragingly on their obligatory reserve, the last statement showing that they had $4,970,275 more than the 25 per cent reserve which the national banks are required by law to keep on hand. The U.S. Sub-Treasury, last week, enlarged its coin balance about 1⅛th millions; and added nearly 1¼th of a million to its currency reserve. Its currency reserves at the close of the week were $21,581,502; and its coin hoard, $41,573,615.

The clearances of the banks averaged through the week 102½ millions a day, and amounted in the aggregate, for the whole week, to $615 076,093 as against $655,285,411 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance $238,635 and its coin reserve $1,143,470 as the result of the week's business.

The specie reserve of the city banks according to the latest return is $20,698,900, against $20,309,500 same time last year. The city bank deposits are now $207,834,100 against $219,267,600, week ending May 18, 1872. The legal tender reserve amounts to $43,102,200, against $48,805,800 same time last year. The circulation now stands at $27,489,200 against $27,638 400 same time last year. The loans are now $278,074,400 against $285,713,600 at this date last year.

The coin reserve of the city banks is now about 20⅜ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is nearly 43⅛ millions against about 55½ millions on the statement of June 15th; and the deposits are now about 207⅞ millions, against 247½ millions on the 20th of July.

The U. S. Sub-Treasury office last week received $3,363,594 of currency, and $4,143,197 of gold, the latter including $2,331,000 from customs; and disbursed $3,124,959 of currency and $3,099,727 of gold, the latter embracing $1,228,004 of coin interest.

Government revenues have been more prolific, through the week, especially in the excise form. The excises yielded within the week nearly five millions, and thus far in the current fiscal year beginning with July 1, 1872, $101,005,170. The customs at the port of New York, for the week, were $2,254,643, and at the outports, about $750,000 more, in coin or coin certificates.

The cash balances under the control of the Treasury Department on Wednesday were: Certificates, $26,800,000; Currency, $4,800,000; Coin, $74,500,000. The outstanding legal tenders were $356,478,000.

The Gold speculation has shown a fair degree of activity, on a steadier basis as the ruling prices, though the later dealings indicated a less buoyant market, in view of the comparatively light export movement in specie, due, in part, it is said, to the success of several very considerable negotiations in the London market, on American account, of which the public here had had no intimation before the accomplished facts were received from the other side. Messrs. Baring Brothers have taken charge of $5,000,000, or £1,000,000 Boston City Fire Loan, bearing 5 per cent interest, at 91½ per cent sterling; also, $2,500,000 or £500,000 Louisville and Nashville Railroad Company—Memphis and Clarksville branch; also, a pending loan of the same company—North and South Alabama branch, £1,000,000 sterling, or $5,000,000. The Paducah and Memphis Company have recently placed $5,000,000 in London and Amsterdam. These operations outside the usual calculation on the Exchanges with Europe, taken in connection with numerous small orders for various American Stocks through the Importing and Banking Houses, sufficiently account for the continued ruling of Bills on London below the points at which it would pay the Banker to ship American Gold coin to profit.

The past week's exports hence of specie were less than a million, while the produce exports, in currency value, reached nearly 5½ millions. The trade movements of the season seem to have taken an unexpected turn in favor of our Exports of Domestic Produce. The late Cotton Crop will turn out 4,000,000 bales in receipts, and from present appearances 2,750,000 exports to the foreign markets, of which 450,000 bales have yet to go forward between this and the 31st of August, the close of the crop year. These circumstances operate against a confident upward movement in the gold premium. The customs call has been up to a fair daily average for the season. The range of the price during the week has been from 117⅜@118⅜ and the closing quotation on Wednesday was 117½ against 117⅞ on Wednesday of the preceding week. The specie outflow last week, was $881,724. The Gold Exchange Bank clearances have averaged about 61⅜ millions per day during the week.

The customs demand for Gold last week, averaged $388 850 a day. The arrivals of specie from Europe, Havana and other foreign ports thus far in 1873, have been $1,653,682 against $639,612 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $119,715,763 against $142,096 515 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $70,659,196, against $72,306,268 during the same time in 1871-2.

The export drain of specie was $881,724 last week, against $3,268,085 same week preceding year. The shipments since July 1, 1872, have been $54,897,412 against $40,104,053 during the same portion of 1871.

Foreign Exchange has been somewhat variable as to price, on a fair offering of bills, and a moderate demand. Bankers' sixty day bills on London closed on Wednesday at 109@109½; sight bills on London, at 110@110½. The week's exports of Domestic Produce have been to the currency value of $5,452,894.

Under the Treasury programme for May, Government proposes to sell through the Sub-Treasury Gold as follows: Thursday, May 29, $1,000,000.

Government securities have been quite scarce in the open market, while the demand has been decidedly active, especially for the favorites with buyers for foreign investment account. The European orders for our public funds, recently received, have been unusually liberal in amount, and have been somewhat difficult to execute, because of the very meagre offerings of bonds. Government bought in on Wednesday $500,000 Five-Twenties from 115 94@115 99 net, out of an aggregate offering of $1,635,250.

U. S. sixes of 1881 closed on Wednesday of this week at 121¾@122; U. S. Five-Twenties of 1862, 116@116¼; U. S. Five-Twenties of 1864 at 116⅛@116¼; U. S. Five-Twenties of 1865 117 ¼

@118; U. S. Five-Twenties of 1865 consolidated, 118⅜@118⅞; U. S. Five Twenties of 1867, 120⅞@121; U. S. Five-Twenties of 1868, 118⅜@118⅞; U. S. Ten-forties at 114¼@114½; U. S. Fives of 1881 (Funding Loan) 114¼@115; Six per cent. currency Sixes from 115⅞@116.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 7.	May 14	May 21.
Consols	93⅜	93⅜	93¾
U. S. 5-20s, 1865	92	91⅞	91½
" 1867	93⅞	93⅝	94
" 10-40s	89¼	88¾	88¾
New Fives of 1881	89⅜	89½	89⅛
Erie	50⅜	46¾	49

State bonds have been in rather more demand, for investment purposes at somewhat steadier prices.

The Railway and Miscellaneous share speculation has been quite active, and, as a whole, indicative of reviving confidence on the part of operators for higher values, though on the later transactions, there was rather less buoyancy apparent.

Railway Mortgage Bonds have been in fair demand especially for home investment purposes. Considerable amounts of high priced Government securities have been exchanged for substantial Railway loans, at a handsome rate of profit, to the parties making the exchange. Central Pacific Sixes have been favorites with buyers, and have been in good demand, closing at from 102½@102¾. Chesapeake and Ohio Sixes have been also in fair request at 88 and interest. Western Pacific Sixes have been selling to a fair extent at 95. The Northern Pacific 7-30 Loan has been of readier sale at par and interest.

General business has shown less activity. The dry goods movement has been especially unsatisfactory, and rates have been unusually irregular. The Hardware trade has been on a moderate scale with values comparatively well supported. The dealings in the Metal trade have been limited, though buyers have had any existing advantages. Copper has been very quiet, though buyers have had the advantage as to prices; Lake quoted at 31½c. Sales, 50 tons English at 30c.@30½c. Pig Iron has been quite dull, and prices of Scotch product have been further reduced materially, on more urgent offerings. No important dealings transpired. Iron Rails have been in more request, especially old, of which 2,000 tons T and double-headed, at $49 and $50. We now quote Glengarnock Pig nominally at $46; Eglinton do. at $45@$46; No. 1 American Pig at $48@50; No. 2 do. at $46@$47; Wrought Scrap at $47@$49; English rails at $70@$71, gold; American Rails at Works, $80@$83; Pig lead has been very dull at 6¼c.@6¾c., gold, for ordinary foreign. Spelter selling in lots at 7⅛c.@7¾c., gold. Pig-tin has been dull and heavy, with Straits quoted at 31½c.@32c., and English at 30½c.@31c., Banca, 37c., gold. Sales, 300 slabs Straits on private terms. Tin Plates have been slow of sale and weak as to values. Sales have been reported of 350 boxes Charcoal Plates at $11 75; 250 boxes Terne at $10 50, gold, and 500 boxes Coke, Plates on private terms. Charcoal Plates quoted here at $11 62½@$12; Charcoal Terne, $10@$10 75. Coke, $9 50@$10; Coke Terne, $8 50@$9 50, gold, per box. Zinc inactive and nominal at 9c., gold.

In domestic produce there has been less activity, with less firmness in prices. Breadstuffs, Cotton, Provisions, Naval Stores, and Petroleum closed weak in price. Middling upland Cotton left off at 19¼c. per lb. The receipts at all the ports, since Sept. 1, have been 3,348,818 bales, against 2,604,761 bales same time in the preceding year; exports 2,283,871 bales against 1,812,501 bales in the previous year; stock at the ports at latest dates, 890,934 bales against 256,288 bales same date 1871.

Foreign goods have been moderately dealt in at irregular prices. The week's imports amounted to $7,938,263 including $1,340,255 of dry goods.

Ocean freights have been quite active and again quoted stronger, especially for Grain and Petroleum room, which has been in most request.

At the Live Stock Markets, Beeves have been in fair request at from 8½@13¼ cts. Veals at 5¼@10¾ cts.; Sheep at from 5@8 cts.; Swine at 5½@5⅞ cts. per lb., all live weight. The week's receipts were 9,411 Beeves, 4,213 Veal Calves, 18,243 Sheep and Lambs, and 36,521 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Boston, Hartford and Erie 1st mort., 36¼; do., guar., 50; Quincy and Toledo 1st mort., 91; Canada Southern 1st mort., 94; Louisville and Nashville 7s, consol., 1898, 93½; Delaware and Hudson Canal 7s, 1891, reg., 104¼; North Missouri 1st mort., 91; Toledo, Peoria and Warsaw 1st mort., E. R., 19@21; George's Creek Coal, 120@127.

☞ Messrs. A. DeGraffe & Co. have resumed work upon the western terminus of the Winona and St. Peter Railroad. It will be remembered that the work was suspended at the beginning of last winter, owing to the unusual severity of the weather, and that subsequently Congress extended the time agreed for the completion of the work until the 1st of September, 1873. The road has been completed and the iron laid to the state line, 119 miles west of New Ulm. The terminus of the toad is at Lake Campaska, in Dakota Territory, 45 miles beyond the boundary of Minnesota. Nearly all this distance is graded, ready for the iron, and the iron ready for laying.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending May 10, at 544,646 tons, and for the coal year at 6,742,640 tons, against 7,581,918 tons to corresponding time last year, being a decrease of 839,278 tons. The bituminous tonnage for the week is 57,997 tons, and for the year 550,651 tons, giving a total of all kinds for the week of 602,643 tons, and for the year 7,293,291, tons, a decrease as against production to same time last year of 744,407 tons.

☞ The estimated earnings of the Kansas Pacific Railway for the week ending May 8 are: freight, $42,866 33; passengers, $38,631 89—total, $81,498 22.

BANKING HOUSE OF FISK & HATCH.

No. 5 NASSAU-ST., NEW YORK, May 19, 1873.

The present high price of Government Securities is increasing the demand for first-class Railroad Bonds, and it is not reasonable to suppose that the present difference of from twenty to thirty per cent. can be obtained for any great length of time.

We are recommending for exchanges or for new investments—

The Chesapeake and Ohio seven per cent Mortgage Bonds, interest payable January and July; principal and interest payable in gold, in New York city.

Only $3,000,000 of these Bonds will be offered for sale at present. Price 90 and accrued interest.

They are amply secured, and a very desirable investment. The proceeds will be used in adding largely to the present equipment, and in extending the line from its present tide-water terminus at Richmond to deep water on the Chesapeake Bay, where the largest steamers in the world can load and unload alongside the cars.

Also the Chesapeake and Ohio six per cent Bonds, interest payable May and November. These Bonds are issued in denominations of $100, $500, and $1,000. Price 88 and accrued interest. The road, 420 miles in length, is now completed, and the business offering is very large and increasing daily.

We have just published a pamphlet giving a full description of the Chesapeake and Ohio Railroad and its advantages, and particular information concerning the agricultural, mineral and mechanical resources, the remarkable coal and iron deposits, and the opportunities for settlement, investment and the employment of capital and labor in various industries along its route, copies of which may be had free of charge, upon application in person or by mail.

Also the Western Pacific six per Cents at the market price, which is to-day 95, flat. These bonds are $1,000 each; interest payable January and July. This road having been consolidated with the great Central Pacific, the payment of its bonds, principal and interest, is assumed by them.

We continue to deal in Government and Central Pacific Bonds, receive deposits, on which we allow interest, make collections, execute orders at the Stock Exchange for cash, and conduct a general banking business.

FISK & HATCH.

☞ The branch of the Boston and Maine Railroad, recently built at a cost of $120,000, has proved a success, and an extension of this road to a connection with the Salisbury branch of the Eastern Railroad, at Salisbury Mills, is now talked of. A charter for this extension was granted three or four years ago.

☞ The work of surveying the proposed line of railroad to connect Dover with the Great Falls and Conway Railroad, is now being rapidly urged on, and there is every prospect that the connecting link will be built at an early date.

☞ Messrs. Clark, Reeves & Co., of Phœnixville, Pa., have received an order from the Chicago and Alton Railroad Company for seven spans of bridges of 160 feet each. They are also at work on the Girard Avenue Bridge, Philadelphia.

Knoblauch & Lichtenstein,

No. 37 Broad-st., New York.

OFFER FOR SALE

$200,000

7 Per Cent. First Mortgage Bonds,

30 YEARS TO RUN,

OF THE

CENTRAL R. R. EXTENSION COMPANY

OF LONG ISLAND,

At 90 and Accrued Interest in Currency.

The road runs from Farmingdale, the present terminus of the Central Railroad, to Babylon on the South Shore of the Island. According to contract, the road will be finished by July 15th, ready for this summer's travel.

These Bonds being a *home security*, and among the best ever offered in this market, we take special pleasure in recommending them.

Pamphlets or further particulars will be promptly furnished on application.

☞ Attorney General Williams has rendered his decision as to the right of the Cairo and Fulton Railroad Company, running from St. Louis to Texas, to build a bridge across the Arkansas River at Little Rock. He decides that the company has the right to build the bridge under the original act of Congress donating lands to aid in the construction of the road and the acts of the Arkansas Legislature, if it shall not obstruct the navigation of the river; that the company is not bound to file plans and specifications with the Secretary of War, as is required by the Citizens' Bridge Company, chartered by Congress in 1870, as the railroad company is building its bridge independently of the Bridge Company, and is not bound by the laws governing that corporation.

☞ The Supreme Court of Ohio has pronounced unconstitutional a law of that State empowering communities to levy taxes for the construction of railroads. The grounds of the decision, which was unanimous, are, that such taxation is not for public purposes, for which alone taxes can be constitutionally levied, and that the State Legislature is forbidden by the constitution to authorize any community to engage in this way in private enterprises, directly or indirectly.

☞ The following gentlemen have been elected directors of the Southern Pennsylvania Railway and Mining Company: T. B. Kennedy, Col. T. A. Scott, John Rice, Wistar Morris, Josiah Bacon, George B. Roberts and Strickland Kneass. T. B. Kennedy was elected president of the road.

☞ It is stated that the necessary amount of capital, 10,000 shares at $100 each, to organize the North and South Jersey Railroad, which is to run from the Delaware river, in Salem county, through Mount Holly to Bound Brook, in Somerset county, has been subscribed.

☞ The gauge of the West Jersey Railroad is to be changed so as to admit of the running of the Pennsylvania Company's cars to the Capes. The gauge will be an inch narrower than at present.

Commerce of New York.

The foreign imports at New York for the month of April, 1872 and 1873, are officially stated as follows:

	1872.	1873.
Entered for consumpt'n.	$22,863,493	$14,768,239

☞ During the past week locomotives to the value of $97,599 were shipped from Philadelphia o foreign countries.

Journal of Railroad Law.

RAILROAD COMPANIES—LAW OF NEGLIGENCE APPLICABLE TO PERSONS CROSSING TRACK.

The facts in the recent case of The New Jersey Railroad and Transportation Company *vs.* West, (33 N. J. Law Reports, 430), are as follows:

The plaintiff complained and set forth, in substance, that the defendants were owners of a certain railroad which was constructed and laid upon and along a certain public street of the city of Newark, known as the New Jersey Railroad Avenue, which street is intersected by a large number of other public streets of said city, and in and upon said street a large number of other streets open, and across which said avenue it is necessary for the inhabitants of this State constantly to pass for business or pleasure; that the said defendants owned and possessed a large number of cars and locomotives, which were propelled by steam upon and along the said railroad, and passing through said New Jersey Avenue; that the said cars and locomotives were negligently and badly managed and driven, and that for the want of good and sufficient care in the management thereof, they struck and run into the body of the said plaintiff, as he was in the act of passing over the said railroad and the track of the said railroad, as laid and constructed on the said public street known as the New Jersey Avenue, and while he was passing on foot that part of the said avenue designed and used for the passage of persons on foot, as he lawfully might, whereby he was greatly mutilated and injured, &c., and whereby he hath lost and been deprived of his eye sight, &c.

The defendants pleaded the general issue. The cause was tried at a Circuit Court held in the county of Essex, before his Honor Justice Haines and a jury.

The plaintiff examined a number of witnesses and then rested his case, and thereupon the counsel of the defendant moved the court to non-suit the plaintiff "for want of care on his part."

The motion having been refused the counsel of defendants excepted to the ruling of the court, and filed a bill of exceptions which were allowed and sealed.

The case having been removed into this court by writ of error, the following errors were assigned:

1st. Because the court below, after the plaintiff had rested his case, refused to grant the motion made by the defendant to non-suit the plaintiff.

2d. Because the justice, having refused to non-suit the plaintiff, refused to charged the jury that the plaintiff had failed to make out a cause of action against the said defendants, but left the matter in the jury's hands upon the evidence of the case, without such instructions.

3d. General errors. The following is the opinion of the court delivered by—

ELMER, J.—The only question presented in this case is, whether it was error in the judge at the circuit to refuse to non suit the plaintiff "for want of care on his part."

It was held by this court, in the case of The Central Railroad Company *vs.* Moore, 4 Zeb. 824, that a plaintiff suing for an injury caused by the negligence of the defendant, will not be entitled to recover if his own negligence contributed to the injury; and that when the facts are clear and undisputed and show a want of ordinary care on the part of the plaintiff, the question should be decided by the court; but if the evidence is doubtful, and the inferences to be drawn from it questionable, it is for the jury to determine. In my opinion, this was clearly a case for the jury. The plaintiff was in the act of crossing the railway in the city of Newark, at a place commonly used, and furnished with planking for that purpose. A train in plain sight was coming from the direction of New York, at a speed of twenty-five miles an hour, a rate exceeding that fixed by the ordinance of the city. He appears to have stood watching this train, on a track used for coal cars, there being another track between him and the track upon which the New York train was running. As soon as this train passed, he stepped upon the track next to him for the purpose of crossing, and was struck by a train coming from Elizabeth, which, it was stated rang no bell and blew no whistle. Under such circumstances, the inference to be drawn from the facts detailed by the witnesses, were promptly submitted to the jury. They were quite as doubtful as those in the case of Central Railroad *vs.* Moore. As I had occasion to remark then, it would be a plain case which would justify a court of errors in reversing a judgment because the judge declined to order a non-suit.

In my opinion the judgment should be affirmed.

Judgment affirmed.

Illinois, Missouri and Texas Railroad.

The initial branch or division of the road starts at Cape Girardeau and runs southwest to Poplar Bluff, Butler county, intersecting with the Iron Mountain Railroad at Allenville, and the Cairo and Fulton Railroad at Poplar Bluff. Forty-two miles of the road are graded, laid with ties and ready for the iron, westward from Cape Girardeau. Three and a half miles of the track are laid, and in thirty days more will be laid to Allenville, and sixty days afterwards will be completed for the forty-two miles now graded. By the first of next January the whole of the division to Poplar Bluff, a distance of sixty-three miles, will be completed and in running order. There are several locomotives and cars at St. Louis awaiting transportation to the road, and four thousand tons of rail en route from London via New Orleans. The road will ultimately connect with the Illinois Central at Jonesboro, Ill.

Preliminary surveys are now being made for another division from Allenville, Mo., westward for one hundred and fifty or sixty miles through the southern tier of counties of Missouri and thence southwest to Fort Smith, Ark.—*St. Louis Globe.*

☞ J. L. Birkey has been elected President, H. M. Wythe Treasurer, and Waldo Taylor Secretary of the Straitsville and Hocking Valley Railroad Company. The "Straitsville and Hocking Valley" is the contemplated route from Shawnee down the Snow Fork to Mineral City on the Cincinnati and Marietta, and is intended to give the Baltimore and Ohio direct railroad communication from the coal field both to Cincinnati and Sandusky City

☞ The Staunton (Va.) *Vindicator* says that President Huntington has announced that the terminus of the Chesapeake and Ohio Railroad will be at Yorktown, on the York river. The company some months ago purchased a large quantity of land there, and the route for the road is now being surveyed.

☞ The Salisbury *Gazette* says that the enterprise of building a railroad from Newton, Md. to Cherrystone, Va., has now assumed such proportions as to give rise to a belief that it will certainly succeed. According to the latest authentic advices the company is to be organized about the last of May, with a capital stock, subscribed by Pennsylvanians, of $100,000, one-tenth of which will be paid in immediately so that the work can be commenced at once if deemed advisable. An election will soon be held in Accomac and Northampton counties to decide whether or not the people will allow the company an untrammelled right of way from the Maryland line to Cherrystone. This being decided affirmatively, it is presumed that work will commence at an early day.

☞ We see it announced that the officers of the Texas and Pacific Railroad have finally decided upon the San Dragonia pass as the route from San Diego to Fort Yuma. It passes to the north of the direct route, and is 270 miles between the points named, but equating grades and curves it is commercially fifty miles shorter than the direct route, which is only 203 miles. The work upon the final location is now proceeding.

RAILROAD IRON.

THE undersigned, agents for the manufacturers are prepared to make CONTRACTS FOR RAILS delivered free on board at ports in England, or exship at ports in the United States.

LANSDELL'S
Patent Steam Railroad Water Station.

DISPENSES WITH Tanks, Tank Houses, Stationary Power, AND Attendance.

CAN NOT FREEZE IN ANY CLIMATE, UNDER ANY CIRCUMSTANCES.

COSTS LESS Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

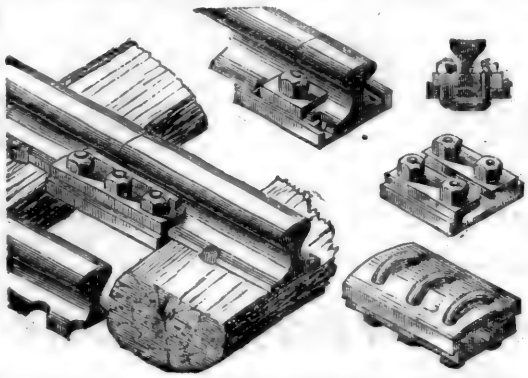
THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

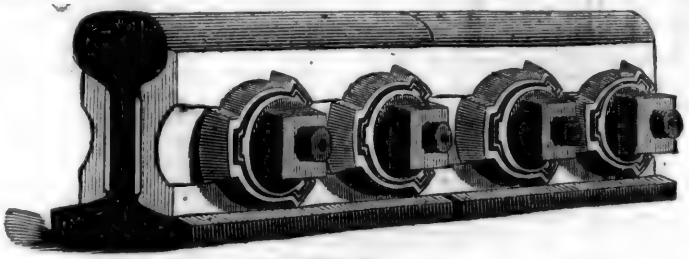
Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

New Depot of the Pennsylvania Railroad Company.

The market house at the N. E. corner of Sixteenth and Market streets, Philadelphia, but a short time ago frequented by the housekeepers of the neighborhood, has been transformed into a freight depot, which, in connection with the adjoining depot, thrown, as it has been, into one vast freight room, makes it the largest and handsomest in the city. The extension was greatly needed to accommodate the great quantity of merchandise for shipment over the Pennsylvania Railroad. The arrangements for receiving and shipping freights are most complete, each platform having its offices with their scales for weighing the freight. The scales of the new depot have just been put in, and are of RIEHLE BROS.' make, which possess peculiar advantages, and appear to be the favorite scale for this and other purposes, as they are daily becoming more generally used. We find, from investigation, that there are nearly one hundred scales in use at the present time along the line of the Pennsylvania Railroad, varying in value from $150 to $2,500, made at the Philadelphia Scale Works (about forty of them are in the various depots in Philadelphia.) There is said to be more general merchandize weighed upon this make of scales in Pennsylvania than all others combined. This indicates the high esteem in which the patented scales of this firm are held, and a proof of the superiority of Philadelphia mechanics.

BANKING HOUSE

—OF—

JAY COOKE & CO.

No 20 WALL STREET, New York.

The Northern Pacific Railroad Company having determined to close its 7-30 First Mortgage Gold Loan at an aggregate not exceeding thirty million dollars, and thereafter to pay no higher rate of interest than 6 per cent. on further issues of its bonds, *the limited remainder of the* **7 3-10** *loan is now being disposed of* through the usual agencies.

As the bonds of this issue are made receivable in payment for the Company's lands at **1.10**, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.

The Company has more than 500 miles of its road built and in operation, has earned title to nearly ten million acres of its land grant, and sales of lands have thus far averaged $5 66 per acre.

All marketable securities are received in exchange for Northern Pacifics at current rates.

JAY COOKE & CO.

Southern Central Railroad.

The Southern Central Railroad Company is authorized, by an act of the Legislature passed on the 27th of March last, to charge a fare not exceeding four cents per mile, and four cents for any fractional distance less than a mile, on their road, provided they shall furnish commutation or mileage tickets in amount not less than ten dollars, not transferable, at the rate of two cents per mile and two cents for any fractional distance less than a mile; and provided further, that for single passenger tickets sold at said company's ticket offices they shall not charge more than three cents per mile and three cents for any fractional distance less than a mile, except so far as may be necessary in any case to make the amount of fare a multiple of five, and said company shall keep its offices open for the sale of tickets at least fifteen minutes before the starting of trains.

The Siberian Pacific Railroad.

It is announced that the construction of the Russian Trans-Continental Railroad, to connect the Baltic with the Pacific through Siberia, will be commenced as soon as arrangements can be made, and probably before the end of this year. It will commence at Nijni-Novgorod, in the Volga—in the basin of the Caspian—600 miles from St. Petersburg, in latitude 56 degrees, and run in an eastward direction 600 miles to the summit of the Ural chain, and 250 more in the same direction to Novolosk; thence east southward through Tomsk and Krasnogarsk 1,500 miles to Iskoutsh, on the shores of Lake Baikal in latitude 53 degrees; and thence the route to the Pacific, a distance of 1,500 miles, will be determined by a survey yet to be made. Such is the general project, but no working surveys between Novgorod and Iskoutsh have yet been made, and the plans may be altered. The total distance to be built is about 4,200 miles, and of this distance more than 3,000 will be north of latitude 50, and much of the distance in the basin of the Arctic Ocean, north of the Altai Mountains, and at a considerable elevation above the sea, so that it is

almost certain the road will be closed to travel for five months of the year in some parts of its route by snow and ice. The Pacific terminus will probably be at Alexandreffsky, on the Japanese Sea, in latitude 42, that being the chief port of Manchooria since the transfer of the Government offices from Nicolaieffsk, on the Amoor river. Nothing is said of the time when the road is to be finished, and a long time will elapse, as the work will advance only from the west. Its completion, however, when it does come, will be a great benefit to the coasts and commerce of the North Pacific.—*Alta California.*

Northern Central Railway.

The committee of five of the stockholders of the Northern Central Railway Company, appointed at the annual meeting in Baltimore, February 27th, 1873, to negotiate with the Pennsylvania Railroad Company for the permanent lease of the Northern Central Railway and its leased roads, have prepared and printed their report, to be submitted to the stockholders in advance of their next meeting, to take action on the same. The committee, it will be remembered, comprised Messrs. Thos. C. Jenkins, A. Loudoun Snowden, Henry Webster, Jno. S. Irich and H. G. Mosher. A very complete review of the condition of the road, its finances and resources, is made by the committee, including many of the statements fully reported at the annual meeting in February. The conclusions arrived at are as follows:

That the management of our road has been honest and as vigorous and effective as was possible under all its surroundings. If the company owned or controlled lines leading to all the important trade centres of the west, its policy might, at times have been different. But being largely dependent upon the Pennsylvania Railroad, and the Philadelphia and Erie, (one of its leased roads,) for business, the management of the Northern Central road could not always possess that freedom of action which an independent road owning or controlling its own feeders would have had. A great difficulty to the road as a coal road is in its high grades towards the Baltimore terminus, practically making the expense of movement three times as great between Baltimore and Harrisburg as between Sunbury and Harrisburg; another drawback is the fact that return freight falls far below paying for the actual expense in returning cars to the source of freight supply. The terminal facilities at Baltimore are inadequate to the economical and expeditious handling of the freight centreing here. The Elmira division requires a large expenditure to place it in proper condition for the traffic that should come over it. How the means for these large and necessary expenditures are to be raised in the present condition of the company, and in view of the financial condition of the country the committee is not prepared to indicate. The floating debt is now as large as prudence would permit. The committee says:

The next and the great obstacle our road has encountered within the last nine years is competition. In 1864 we could charge almost local rates between Harrisburg and Baltimore. Now all freight from and to Baltimore passing over our road from or to the West has vigorous competition in other railroads which have completed through connections, whilst the Baltimore bard coal traffic, which was exclusively ours, is now divided with the Reading road, which is of course a strong rival for this traffic at a number of important points on our road.

Indeed, all along our road, from Baltimore to its terminus, wherever there is a traffic worth cultivating, competition has sprung up, and carrying rates consequently reduced to figures scarcely remunerative.

After making full allowance for all the unavoidable causes that it is claimed interfered with our last year's business, your committee cannot perceive how the company as at present situated, and with its present low rates, can carry on its business, maintain its credit, and pay to its stockholders any reasonable dividends, unless we largely increase our equipment and facilities for carrying freight, very largely increase our terminal facilities at Baltimore, and by a liberal expenditure upon the Elmira division place it in condition to do a largely increased business.

To obtain the means absolutely necessary to accomplish these important results would seem very difficult with our present credit, and in our present situation.

One method by which it might be accomplished, without resorting to a lease, is by appropriating for years to come all the earnings of the company to meet these expenses and take care of the floating debt.

Besides the delay occasioned in the prolongation of the work, it may perhaps be doubtful if the stockholders would be willing to do without dividends for so long a period. It would be an especial hardship upon those holders of our stock who depend largely for a subsistence upon the dividends of our road. To announce this as the policy of the company would result in the immediate decline in the market price of our stock to very low figures. Those who would be forced to sell to invest in some other security yielding a return upon which they could depend for a living would be seriously injured by this action, in the depreciated value of our stock.

Are we prepared as stockholders, to meet this phase of the case? No array of figures drawn from fictitious or unreliable sources, or deductions made from unfair, incomplete or illogical premises should be permitted to delude us into the belief that as at present situated our company can, without a lease, pay next year and the years following dividends to its stockholders bearing any proportion to the ordinary rate of interest allowed for the capital invested, unless we raise a very large sum of money at once.

In view of all these facts and of the urgent necessity of a policy that will continue dividends to the stockholders, your committee is forced to the conclusion that it is the interest not only of all our stockholders, but of the Pennsylvania Railroad, that the latter should lease our road upon a fair rental, and take the management within its own hands.

Under the control of this wealthy and powerful corporation many of the expenses incident to an independent road would be dispensed with, the separate organization for the management of the road would cease, and many other expenses now incurred by the company would be largely reduced.

In all this there would a large saving, but the principal advantage would be in the immediately increased facilities for doing business, by a large expenditure of money necessary to make our road a paying corporation.

Your committee after determining the wisdom of this policy, had a meeting with the officers of the Pennsylvania Railroad Company, and long discussions followed as to the value of the road and the terms upon which a lease could be effected. The officers of the Pennsylvania Railroad did not give us to understand that they were anxious to obtain a lease of the road, and have made no proposition to that effect, although they admitted that in some respects it would be an advantage to their road.

They also stated that a large expenditure of money was absolutely necessary to place the road in proper condition, which they would expend if the lease was tendered them on terms they could accept. Your committee feel satisfied that on a tender from us a lease could be effected with the Pennsylvania Railroad upon an annual rental equivalent to six per cent per annum upon the stock, and the assumption by that company of all the indebtedness of our corporation. Without authority to make the tender, and without coming to any definite conclusion, your committee decide to report the facts, and learn from you, as the responsible parties in interest, upon what terms you would be willing to lease the road, &c.

Northern (N. H.) Railroad.

The earnings of this road for the years ending March 31, 1872 and 1873 were as follows:

Dividend June 1, 1873, $4 per share	119,924 00	
		251,146 92
Balance of income account		$56,578 74

The unusually severe weather and great fall of snow during the past winter have been unfavorable to the road, in increasing the expenses of operation and diminishing the business.

The contingent fund is increased to $97,997.

During the year 1,548 tons of new rails and 48,863 new sleepers have been placed in the track; and 2,465 tons of rails have been taken up, repaired, and relaid.

We have built one new freight locomotive, and one passenger and four merchandise cars, which are an addition to the equipment of the road. We have also built twenty merchandise cars to replace old ones; and the road and furniture are in good condition.

The Sugar River Railroad has been constructed to its junction with the Sullivan County Railroad in Claremont, as intended, and it has been in operation to that place since last September. An early completion of the road has been desirable in order to secure the benefit of the business on its line; and the large interests of this company in the road have rendered it desirable that it should extend what aid it properly could for that purpose. Delay in the collection of some of the subscriptions made to aid the construction of its road has prevented the Sugar River Railroad from making the expected payments to this company for supplies furnished for the road; and hence it has been necessary for this company to supply the place of the moneys not paid by that road, by temporary loans, which ultimately will be provided for by the Sugar River Railroad. This, together with the large increase of stock on hand, and the accounts in the agent's department, will explain the item of bills payable in the accompanying trial balance of the treasurer.

The contracts referred to in the Annual Report for 1872, relative to a line for Western business, have been attended with large charges against this company during the past year, arising from the operations of preceding years in connection with last year. It is not expected that so large charges will be incurred in future; and modifications of those contracts have been suggested,

which, if effected, will render them more favorable in that respect. Under the circumstances, we have deemed it proper to provide for those charges from other sources, instead of taking them from the income of the past year.

The equipment of the road March 31, 1873, was as follows: 11 passenger and 16 freight locomotives, 412 long and 108 short merchandise cars, 16 passenger, 6 baggage and 20 gravel cars. Number of miles run by passenger trains, 181,179; by freight trains, 319,098; by other trains 6,571—total, 506,848. Number of passengers carried 195,406; do., carried one mile, 8,060,748. Tons of merchandise carried, 411,888; do., carried one mile, 25,057,849.

Canadian Railways.

We hear reports of satisfactory progress from several lines now under construction. The Canada Air Line was formally opened for traffic on the 26th inst. This undertaking has been pushed through with great energy. On the 20th inst. the running of regular trains on the western section of the Canada Southern Railway was commenced, so that these rival lines have about an even start. Together they give the southern counties of Canada all the railway facilities they could wish in an easterly direction; and when two or three proposed lines running northerly are constructed this district will be in easy reach of several markets. It is believed by the officers of the company that the Toronto, Grey and Bruce will be completed to Owen Sound in August, as the work is now making satisfactory progress. The construction of the Credit Valley Railway from Toronto to Campbellville, 35 miles, and from Streetsville to Alton, 30 miles, is secured. The line is located to Campbellville and portions are being graded. A sectional bye-law will be submitted in Wellington county in June for a bonus of $150,000 to aid in extending the line from Bell Fountain to Fergus, Elora and Salem, and from Alton to Orangeville. An agitation is going on to raise bonuses to extend the line ultimately to St. Thomas on the Canada Southern, and a good deal of interest is manifested by various municipalities in securing that object. We observe that the management of the Whitby and Port Perry line has been changed: Mr. James Austin of Toronto has been elected President, Mr. James Michie Vice-President, and Mr. James Holden of Whitby, Managing Director. A change has been made in the North Shore Company of Quebec. A new and strong board has been elected composed of the following gentlemen: Jas. G. Ross, E. Beaudet, J. B. Renaud, Willis Russell, Col. Rhodes, Hon. T. H. McGreevy, John Burstall, A. Thomson. The first named gentleman, a wealthy and respected citizen of Quebec will have the Presidency. It is expected that the enterprise will now be pressed forward with energy. At the annual meeting of the Hamilton and Lake Erie Railway, held on the 21st, it was stated, that the road to Jarvis would be ready for the rails in four weeks. A letter was read from Mr. C. J. Brydges, in which he stated, that as soon as the road between Hamilton and Caledonia was in running order, he was prepared to run a daily train between these points. Hamilton has granted a bonus of $100,000 to the projected Hamilton and Northwestern Railway.—*Monetary Times.*

Trial of the Westinghouse Air Brake.

A number of experiments were made yesterday to test the new Westinghouse air brake, in presence of a committee of the Franklin Institute and a large gathering of railway officials. A train, consisting of a locomotive and tender and seven cars, to which the new brake had been fitted, left the Pennsylvania Railroad depot yesterday afternoon. The brake is so constructed that it may be instantly applied from any part of the train, and, by an automatic action, in the event of any car being thrown from the track or becoming detached from the rest, the disruption causes an immediate application of the brake both in the detached cars and in those still coupled to the locomotive, bringing the whole to a standstill.

The first experiment was the application of the brake by the engineer in answer to a signal given by the conductor. The train was going at the rate of thirty-five miles an hour, and was brought to a standstill in sixteen seconds and 503 feet—a trifle over its length—from the point at which it was when the signal was given. The second trial was by applying the brake from the interior of one of the cars. The rate was thirty-five miles an hour, and the stoppage took place in fifteen seconds and 506 feet. The third experiment was by uncoupling five cars while going thirty miles an hour. The five cars suddenly uncoupled stopped in 11 8-10 seconds and in 367 feet; the locomotive and the rest of the cars stopping in about the same time.

Two experiments were then made by severing the locomotive from the train. In the first, the rate was 40 miles, time 10½ seconds, and distance 265 feet, and in the second trial, the rate was 45 miles, time 10½ seconds, and distance 265 feet. A trial was then made to stop the train by suddenly applying the brake in one of the cars, the engine remaining open and working ahead. The train was then travelling at about 36 miles an hour, and was still 15 8-10 seconds after the brake was applied, having gone 502 feet in that time. Two full stops were then made in succession to test the time required to get the train in motion from a state of rest. In the first trial the time was 4⅕ seconds, and in the second, 2 8-10 seconds.

Attached to the brake, and under each car, an iron arm projects downwards, its lower end being about six inches from the level of the rails. In the event of the car running off the track, the wheels would naturally sink, and the bottom of the arm coming in contact with the ground, immediately causes the brake to operate. This was tested by placing an obstruction on the track, high enough to catch the arm, which, when it was reached, brought the train to a halt in a few seconds. The brake acts uniformly and simultaneously throughout the train, a pressure being brought to bear on each wheel. It acts without causing the slightest jolt, and passengers, unprepared for the event, would not be conscious of its application but for the quickly diminished speed.—*Philadelphia Ledger, May 21.*

Chesapeake and Ohio Railroad.

Pertinent to the subject of cheaper transportation of Western field produce to the seaboard markets, and also to the expansion of American iron-manufacturing and mining interests, are the facts contained in a recently published pamphlet of Messrs FISK & HATCH, bankers, of this city, descriptive of the lately-opened Chesapeake and Ohio Railroad, and of the country and resources along its route. To all of the above industries and interests, as well as to agriculture, this great road is closely allied. Instead of trusting wholly to the short season of lake and canal routes, or to the more costly all rail transportation over long distances, or to the risks and delays of the circuitous route through the tropical Gulf of Mexico, Western products may be better accommodated by using the Ohio River from its mouth to its confluence with the Guyandotte, 650 miles, where (swollen by its great southern affluents) it begins its general westerly course. At this point, and again at the head of navigation on the Kanawha, the internal river system of cheap transportation is connected with that of the sea by means of the Chesapeake and Ohio Road, making the shortest and easiest portage between the two water-ways, having by far the lightest grades and most favorable working conditions, and scarcely ever interrupted by Winter rigors. By the use of tow-boats, barges, and elevators, such as are now in use on the Mississippi and its tributaries, it is claimed that breadstuffs and provisions can be carried to Atlantic markets at the minimum of expense. All our existing facilities are overtaxed, and the probabilities are that the new route, like the old one, will have all it can carry of the available surplus grown at the West. The route of this road is also known to be bordered with massive iron ore deposits, and at another part it cuts through probably the richest coal fields in the world. New mining, manufacturing, and mechanical sites are springing up, and ultimately Virginia must become another Pennsylvania, dotted with busy shops and forges. The pamphlet we allude to (which may be had gratis on application to the bankers) also contains valuable information concerning the agricultural, timber, and mineral values of the country, together with an account of its natural scenery, medicinal springs, and other objects of interest, which will draw travelers over the line for pleasure, profit, or health, while the material attractions will also doubtless draw many for residence.

☞ The Bethlehem Iron Company, of Bethlehem, Penn., own three blast furnaces, and are erecting two additional ones. The present capacity of the furnaces is 30,000 tons of pig iron per year, which will be doubled when the new works are in operation. Of ore, 70,000 tons, and coal, 75,000 tons a year are used in the manufacture of the iron. In the rolling mill of the company 20,000 tons of rails are turned out annually. They are also erecting extensive works for the manufacture and rolling of Bessemer steel, which will be completed some time during the year.

☞ The directors of the Concord (N. H.) Railroad, elected on the 27th inst., are: Wm A. Tower, John E. Lyons, Onslow Stearns, James W. Johnson, Frederick Smyth, Joseph P. Pitman, John A. Spalding.

General Railroad Law of New Jersey.

AN ACT to authorize the formation of railroad corporations and regulate the same.

(Continued from page 649.)

15. *And be it enacted*, That the president and directors of any company incorporated under this act, shall have power to have constructed, or to purchase with the funds of the company, all machinery, engines, wagons, carriages or cars for transportation of persons or any species of property on the said railroad, and any such company shall have power and be authorized to demand and receive such sums of money for the transportation of persons and property on said railways and their connections, and for any other services connected with the business of transportation on or over said railways or to and from the same as it from time to time shall think reasonable and proper; *provided*, that said company shall not charge more than three cents per mile for carrying each passenger, and tickets for passengers shall be good until used, but no charge shall be required in the aggregate to be less than ten cents, nor shall said company charge more than ten cents per mile per ton for the transportation of any description of property; *provided*, that any company formed under the provisions of this act shall not be entitled to charge or receive any greater sum of money for freights upon goods, wares or merchandise transported between way stations, or between a terminal station and a way station than they charge and receive for freight upon such goods, wares, and merchandise between the terminal stations of such railroad, and the said railroad with its appendages, and the lands over which the same shall pass, and all the work and improvements, and all other property whatsoever belonging to the company shall be and are hereby declared to be vested in the said company, and its successors, for and during the continuance of its charter.

16. *And be it enacted*, That the president and directors of any company incorporated under this act shall declare and make such dividends as they may deem prudent and proper from time to time, out of the net profits of the said railroad.

17. *And be it enacted*, That any company incorporated under this act may purchase, have and hold real estate at or near the commencement and termination of said road, or at any other point on the line of the said road where the directors may think proper to establish a depot, not exceeding ten acres at each place, and may also erect and build thereon houses, warehouses, workshops and such other buildings and improvements as they may deem expedient for the safety of their property and for other necessary uses appertaining to their business, and receive the rents and emoluments thereof, and may build and maintain over such streams as the road may cross, such piers and bridges as they may deem expedient; and that all lands, tenements, hereditaments and real estate acquired by any such company not used by it for the immediate use and occupancy of its rails, tracks, depot and freight buildings shall be subject to the same tax as the property of individuals, and said tax shall be assessed, levied and collected by the authorities where the same may lie, in the same manner as other taxes are levied, assessed and collected; any law, custom or usage to the contrary notwithstanding; and that it shall be lawful for any corporation incorporated under this act at any time during the continuance of its charter to lease its road, or any part thereof, to any other corporation or corporations, of this or any other state, or to unite or consolidate as well as merge its stock, property, franchises and road with those of any other company or companies, of this or any other state, or to do both; and such other company and companies are hereby authorized to take such lease, or to unite, consolidate as well as merge its stock, property, franchises, and road with said company, or to do both, and after such lease or consolidation the company or companies so acquiring said stock, property, franchises and road, may use and operate such road and their own roads, or all or any of them and transport freights and passengers over the same, and take compensation therefor, according to the provisions and restrictions contained in this act, notwithstanding any special privilege heretofore granted, or hereafter to be granted to another corporation for the transportation of freights and passengers between any points on the lines of said roads or any other points within or without this state; *provided, however*, that nothing in this act shall authorize any railroad companies incorporated under a special act of legislature to charge for transportation of freight or passengers over the roads constructed under said special act more than they may be authorized to charge by the provisions of their respective acts of incorporation.

18. *And be it enacted*, That if any person shall willfully impair, injure, destroy or obstruct the use of the railroad enjoyed under the provisions of this act or of any of their necessary works, wharves, bridges, carriages, or machines, such person or persons so offending shall forfeit and pay to such company incorporated under this act, the sum of fifty dollars, to be by them recovered in any court having competent jurisdiction, in an action of debt; and further shall be liable for all damages sustained.

19. *And be it enacted*, That as soon as any railroad or any part thereof, is in operation, the president of the said company shall file, under oath, or affirmation, a statement of the amount of the cost of the said railroad, including equipment, appendages and all expenses, in the office of the comptroller of the state, and annually thereafter on the first Monday of January of each year, he shall, under oath or affirmation, make a statement to the comptroller of the state, of the cost, equipment, appendages and expenses of said road, including the cost of road bed; and after the said railroad or any part thereof shall be in operation, the said corporation shall pay to the treasurer of this state a tax of one-half of one per centum on the cost, equipments and appendages of said road, including the cost of road-bed, to be paid annually thereafter on the first Monday of January of each year, and such other taxes as may be assessed from time to time by a general law, applicable to all railroads over which the legislature shall have power for that purpose, at the time of the passage of such law or laws and the said corporation shall be regularly assessed and pay tax for the value of its real estate (excepting the road-bed one hundred feet in width), improvements thereon, and personal property as now taxed in the city or cities, township or townships, wherein it lies, at the same time and rate, and in the same manner, for the same purposes, and by the same person or persons, as the other taxes assessed, in said city or cities, township or townships.

20. *And be it enacted*, That any company incorporated under this act, shall have power to borrow such sum or sums of money, from time to time, not to exceed in the whole its paid up capital stock, as shall be necessary to build, construct or repair the road, and furnish all necessary engines and other equipments for the uses and objects of said company, and to secure the repayment thereof by the execution, negotiation and sale of any bond or bonds, and secured by mortgage on said lands, privileges, franchises and appurtenances of and belonging to the said company; *provided*, that said company shall not plead any statute or statutes against usury in any court of law or equity in any suit instituted to enforce the payment of any bond or mortgage executed under the provisions of this section; *and provided further*, that said bonds shall constitute a first lien on the railroad, its cars, real estate and franchises, and the proceeds of said bonds shall be used for the purpose of aiding in the construction of said railroad.

21. *And be it enacted*, That whenever the track of a railroad constructed by a company formed under this act shall cross a railroad, a highway, turnpike, or plank road, such highway, turnpike or plank road may be carried under or over the track, as may be found most expedient; and in cases where an embankment or cutting shall make a change in the line of such highway, turnpike, or plank road desirable, with a view to a more easy ascent or descent, the said company may take such additional lands for the construction of such road, highway, turnpike, or plank road, on such new line as may be deemed requisite by the directors, unless the lands so taken shall be purchased for the purposes aforesaid, compensation therefor shall be ascertained in the manner prescribed in this act for acquiring title to real estate, and duly made by said corporation to the owners and persons interested in such lands, the same, when so taken, shall become a part of such intersecting highway, turnpike, or plank road, in such manner and by such tenure as the adjacent parts of the same highway turnpike, or plank road may be held for highway purposes.

22. *And be it enacted*, That every conductor, baggage master, engineer, brakeman, or other servant of any railroad corporation employed in a passenger train or at stations for passengers, shall wear upon his hat or cap a badge which will indicate his office, and the initial letters of the style of the corporation by which he is employed; no conductor or collector without such badge shall be entitled to demand or receive from any passenger any fare or ticket, or to exercise any of the powers of his office, and no officer or servant without such badge shall have authority to meddle or interfere with any passenger, his baggage or property.

23. *And be it enacted*, That companies whose roads shall be constructed under the provisions of this act shall have the right to connect their roads with any railroads within this or any other state upon such terms as may be agreed upon by those who have the management of said roads, and in case of a failure of an agreement on the part of those having the management of said roads within this state, then and in that case either of said parties may apply to the supreme court within the jurisdiction in which said connection is proposed to be made, whose duty it shall be to appoint three disinterested citizens as herein provided for the condemnation of land, who shall determine and fix said terms, which, when approved by said court, shall be conclusive, and thereupon said companies shall be required to carry said terms into effect; and all companies whose railroads are or shall hereafter be crossed, intersected, or joined, shall receive from each other and forward to their destination all goods, merchandise, and other property intended for points on the respective roads, with the same despatch and at a rate of freight not exceeding the local tariff rate charged for similar goods, merchandise, and other property received at and forwarded from the same point for individuals and other corporations.

24. *And be it enacted*, That any such corporation shall, when applied to by the postmaster general, convey the mails of the United States on their road or roads respectively; and in case such corporations shall not agree as to the rate of transportation therefor, and as to the time, rate of speed, manner and condition of carrying the same, it shall be lawful for the governor of this state to appoint three commissioners, who, or a majority of them, after 15 days' notice in writing of the time and place of meeting to the corporation, shall determine and fix the prices, terms, and conditions aforesaid; but such price shall not be less for carrying said mails in the regular passenger trains than the amount which said corporation would receive as freight on a like weight of merchandise trains, and a fair compensation for the post office car; and in case the postmaster general shall require the mail to be carried at other hours, or at a higher speed than the passenger trains are run, the corporation shall furnish an extra train for the mail, and be allowed an extra compensation for the expenses and wear and tear thereof for the service, to be fixed as aforesaid.

25. *And be it enacted*, That if any passenger shall refuse to pay his fare, it shall be lawful for the conductor of the train and the servants of the corporation to put him and his baggage out of the cars, using no unnecessary force, at any usual stopping place, or near any dwelling house, as the

conductor shall elect on stopping the train: *provided*, that no passenger shall be put off on any bridge or in any dangerous place.

26. *And be it enacted*, That every such corporation shall start and run their cars for the transportation of passengers and property, at regular times, to be fixed by public notice; and shall furnish sufficient accommodations for the transportation of all such passengers and property as shall within a reasonable time previous thereto be offered for transportation at the place of starting, and the junctions of other railroads, and at usual stopping places established for receiving and discharging way passengers and freights for that train; and shall take, transport and discharge such passengers and property at, from and to such places, on the due payment of the freight or fare legally authorized therefor; and shall be liable to the party aggrieved in an action for damages for any neglect or refusal in the premises.

(To be continued.)

Valley (Virginia) Railroad.

(From the Baltimore Sun, May 22.)

All causes of delay heretofore existing in regard to the Valley Railroad have been happily removed, and yesterday the finance commissioners of the city of Baltimore ordered the payment of 80 per cent, the first installment, on the city's subscription of $1,000,000 to the capital stock of the company. The state of facts, under which this result was arrived at is shown by the connected account of proceedings here in the past two or three days, as follows:

At a session of the president and directors of the Valley Railroad, on Monday, in this city, 80 per cent of bonds of the counties of Rockbridge, Botetourt and Roanoke and of the city of Staunton and town of Lexington being presented by their representatives as ready for delivery, a resolution was passed by the board authorizing the president to let the road from Staunton to Salem to contract, which was done on Tuesday. On the same day the president of the Valley Railroad, Mr. Robert Garrett, addressed the following letter to the Hon. Joshua Vansant, chairman of the commissioners of finance:

Baltimore, May 21st, 1873—Hon. Joshua Vansant, Chairman Commissioners of Finance—Sir: I herewith inclose to you a copy of the resolutions of the board of directors of this company, passed at their meeting in this city on May 19th, 1873, in relation to the letting of the entire road of this company, from Staunton to Salem, and also a copy of the contract entered into on May 20th, 1873, to do the work therein specified. I have also to report to you that the counties of Rockbridge, Botetourt and Roanoke, and the city of Staunton and the town of Lexington, have accepted this action, and endorsed such acceptance by the delivery of bonds to the amount of thirty per cent of their respective subscriptions to the stock of this company. Very respectfully, yours,

ROBT. GARRETT,
President of Valley Railroad Company.

The commissioners of finance held a meeting at the mayor's office yesterday, and after due consideration of the statements of Mr. Garrett's letter, and recognizing that the exhibit of resources was satisfactory, and that the putting the road under contract bound all the parties in interest, took action authorizing the register of the city of Baltimore to issue its bonds for the payment of the first installment of 80 per cent on the city's subscription by passing the following preamble and resolutions:

Whereas the commissioners of finance have duly considered the papers this day submitted to them by the Valley Railroad Company of Virginia, together with the various communications and papers heretofore made, submitted and delivered to them by said company, and have arrived at the conclusion that satisfactory provision has been made for the completion of the road, and that payment of the city's subscription may now properly be made from to time as directed by the ordinance No. 59 of the year 1869, being "An ordinance to authorize a subscription of one million of dollars to the stock of the Valley Railroad Company, in the State of Virginia, and a loan to pay such subscription;" therefore be it

Resolved by the Commissioners of Finance, That provision satisfactory to the commissioners has been made by the Valley Railroad Company for the means to construct and complete the said railroad throughout its entire length, from Harrisonburg, in the county of Rockingham, to Salem, in the county of Roanoke, in the State of Virginia, as required by the proviso of the first section of the ordinance of the mayor and city council of Baltimore, No. 59, approved September 14, 1869.

Resolved, That a certified copy of this resolution be transmitted to the register of the city of Baltimore, in order that he may proceed to issue bonds of the city, and pay the city's subscription to said Valley Railroad Company, out of the proceeds of the sale of said bonds, as directed by said ordinance.

The contract for building the road is upon the engineer's estimate of 20th September, 1872, which amounted to $5,650,000, reduced now, however, by the substitution of wooden for iron bridges, and a reduction in the price of iron from $90 to $82 per ton, which, it is supposed, will make the aggregate cost $5,196,890. Of this total cost the grading and masonry are estimated at $3,439,400, and the superstructure, &c., at $1,757,490. The resources are as follows:

Cash resources:	
Subscription of the city of Baltimore	$1,000,000
Subscription of the Baltimore and Ohio Railroad Company	1,000,000
First mortgage, three million, 7 per cent bonds, at 90 cents	2,700,000
Private subscriptions	95,000
Total	$4,795,000
County and Town Bonds:	
Subscription of Rockbridge county	$525,000
Subscription of Botetourt county	200,000
Subscription of Roanoke county	200,000
Subscription of the city of Staunton	150,000
Subscription of the city of Lexington	80 000
	$1,105,000
At 80 cents on the dollar	$884,000

The mortgage bonds of the road are guaranteed at 90 cents on the dollar by capitalists in Baltimore, and the Virginia county and town bonds at 80 cents by Johns Hopkins and others. Some $200,000 of the mortgage bonds have already been subscribed for.

The total resources, therefore, stand thus:

Cash subscriptions and mortgage	$4,795,000
Proceeds of county and town bonds	884,000
Total	$5,679,000
Estimated cost of the road	5,196,890
Balance for contingencies	$482,110

The above estimates are on the basis of a maximum grade of 75 feet at the most elevated points, but generally the grade will not exceed 50 feet. Under the contract the total estimated cost of masonry and grading from Harrisonburg to Salem, the whole length of the road, is $3,459,400, but the road let to contract on Monday is only from Staunton to Salem, the other part having been heretofore contracted for at an estimated cost for grading and masonry of $800,000. Upon the entire estimated cost of the work the contractors agree to take 10 per cent of the county and town bonds at 80 cents on the dollars. The portion now in course of construction between Harrisonburg and Staunton is about 25 miles, and altogether the road will be some 100 miles in length.

☞ The New York *World* says it is a matter of certainty that the Pennsylvania Railroad Company is building its round-house and car-shops on the Newark Meadows, with a view to make them the nucleus of a system for the distribution of the immense freights that arrive on the west side of the Hudson by the different railroads now converging opposite New York. There is little doubt that within a year or two a railroad will be built by that company the entire length of the Meadows, tapping the Erie, Midland, Newark and Hudson, Delaware, Lackawanna and Western, New Jersey Central, and the West line, to accomplish the above result. The enormous expenses now attending the transhipment of freight in New York have led to this movement.

☞ Germany is no longer to be dependent on England for the iron plates required for her navy. Krupp's manufactory is now preparing to make iron plates on a large scale, and has ordered four ships, two of which will be finished next year, of the North German Ship-building Society, at Gaasder, near Kiel. These ships are to bring iron ore to Germany from some large iron mines belonging to Krupp, in Spain. The total number of vessels to be employed in the service is twelve.

☞ The Mahoning and State Line Railroad Company, with a capital stock of $600,000, has filed a certificate of incorporation with the Secretary of State of Ohio. The design is to build a railroad from the Pennsylvania and Ohio line, through Youngstown to Niles, Trumbull county. The corporators are Chauncey H. Andrews, Richard Brown, A. B. Cornell, W. C. Andrews and Robert McCurdy.

☞ Articles of consolidation of the North American, New York, Western, Fort Wayne and Pacific Railway Companies, agreed to in 1870, have been filed with the Secretary of State of Indiana, under the new name of the New York and Western. This line is contemplated to run from Council Bluffs, Iowa, to New York city, and will have a capital stock of $50,000,000.

☞ The Valley (Virginia) Railroad Company have contracted with Messrs. McMahon, Mason & Company to construct the entire road from Staunton to Salem. The names of the persons composing the firm are: C. R. Mason, Edward McMahon, J. C. Green, Thos. K. Menefee, Dennis Flannahan, and A. W. Harmon.

☞ A telegram from Marshall, Texas, states that the Texas and Pacific Railway have commenced track-laying from Jefferson toward Marshall, on the southern division, the track being laid at the rate of two miles per day. They expect to have the line completed to Dallas by the 1st of July.

☞ Henry L. Leach has been elected President, and Geo. F. Child Clerk and Treasurer of the Albany Street Freight Railroad Company, Boston.

American Railroad Journal.

Saturday, May 31, 1873.

Stock Exchange and Money Market.

There has been a much easier Money market noted, with call loans quoted off to 5@7, chiefly at 5@6, and very choice to prime discounts at 6¼@8 per cent per annum, on more liberal offerings of funds, and a less urgent inquiry from all sources for accommodation. The speculative demand has been on a less extensive scale, for Stock Exchange, and Gold Board purposes. The mercantile call has been fair, but not active, and has met with a prompt response from lenders at the current quotations. The city banks were relatively weaker in their reserves; while the U. S. Sub-Treasury reported a handsome addition to its specie balance, with a moderate loss of currency.

The city banks reported an addition of nearly two millions to their deposit line, with a loss of about ⅝ths of a million of their legal tender, and a small amount of their specie reserves. They enlarged their loan and discount averages nearly 1¾ millions, while enlarging their circulation slightly.

The city banks are yet ahead on their obligatory reserve, the last statement showing that they had $4,046,475 more than the 25 per cent reserve which the national banks are required by law to keep on hand. The U.S. Sub-Treasury, last week, reduced its coin balance about ⅝ths of a million; and added nearly 1⅝th millions to its currency reserve. Its currency reserves at the close of the week were $23,285,864; and its coin board, $40,966,668.

The clearances of the banks averaged through the week 96⅛ millions a day, and amounted in the aggregate, for the whole week, to $578,673,926 as against $615,076,038 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance $1,704,362 and reduced its coin reserve $607,048 as the result of the week's business.

The specie reserve of the city banks according to the latest return is $20,632,600, against $20,708,600 same time last year. The city bank deposits are now $209,762,800 against $222,454,800, week ending May 25, 1872. The legal tender reserve amounts to $42,752,900, against $51,607,100 same time last year. The circulation now stands at $27,493,800 against $27,545,300 same time last year. The loans are now $279,846,300 against $283,601,100 at this date last year.

The coin reserve of the city banks is now about 20⅝ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is 43¾ millions against about 55⅛ millions on the statement of June 15th; and the deposits are now about 209¾ millions, against 247½ millions on the 20th of July.

The U. S. Sub-Treasury office last week received $4,328,043 of currency, and $3,540,829 of gold, the latter including $2,297,000 from customs; and disbursed $2,623,681 of currency and $4,147,746 of gold, the latter embracing $932,020 of coin interest.

Government revenues have been on a moderate scale, since our last. The excises yielded within the week about 2½ millions, and thus far in the current fiscal year beginning with July 1, 1872, $103,595,335. The customs at the port of New York, for the week, were $2,259,380, and at the outports, about $750,000 more, in coin or coin certificates.

The cash balances under the control of the Treasury Department on Wednesday were: Currency, $4,428,814; special deposits of legal-tenders for the redemption of certificates of deposits, $29,095,000; coin, $74,537,251, including, $26,560,200 in coin certificates; outstanding legal tenders, $356,539,800.

Gold has been moderately active, through the week. The speculative business has been the chief support of the market. Operators for a rise have been working energetically, though without very encouraging success, notwithstanding the exciting political reports from France, which were deemed unfavorable to the maintenance of confidence. The customs demand was about equal to the average call, on this account, at this season of the year. The specie export drain was comparatively limited. The produce shipments were quite liberal. The range of the price during the week has been from 117⅛@118⅝ and the closing quotation on Wednesday was 118¼@118⅜ against 117⅛ on Wednesday of the preceding week. The specie outflow last week, was $659,018. The Gold Exchange Bank clearances have averaged about 69 millions per day during the week.

The customs demand for Gold last week, averaged $888,000 a day. The arrivals of specie from Europe, Havana and other foreign ports thus far in 1873, have been $1,653,682 against $689,612 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $122,015,975 against $144,670,479 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $71,591,216, against $74,668,343 during the same time in 1871-2.

The export drain of specie was $659,018 last week, against $4,378,679 same week preceding year. The shipments since July 1, 1872, have been $55,556,430 against $45,482,782 during the same portion of 1871.

Foreign Exchange has been in more liberal supply and quoted easier in price, on a less confident inquiry. Bankers' sixty day bills on London closed on Wednesday at 108⅝@108¾; sight bills on London, at 109⅝@109¾. The week's exports of Domestic Produce have been to the currency value of $5,205,204.

An active inquiry has been noted for Government securities, since our last, at a further improvement in price, on unusually limited offerings of the favorite issues, especially the six per cents of 1881, and the Five Twenties of 1867.

U. S. sixes of 1881 closed on Wednesday of this week at 122@122¼; U. S. Five-Twenties of 1862, 116¾@116⅞; U.S. Five-Twenties of 1864 at 116¾@116⅞; U. S. Five-Twenties of 1865 118@118¼; U. S. Five-Twenties of 1865 consolidated 118⅞@119; U. S. Five-Twenties of 1867, 121¼@121⅜; U. S. Five-Twenties of 1868, 119⅞@120⅛; U. S. Ten-forties at 114⅛@114¾; U. S. Fives of 1881 (Funding Loan) 116@116¼; Six per cent. currency Sixes from 116⅛@116⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 14.	May 21.	May 28.
Consols	93⅛	93¾	93¾
U. S. 5-20s, 1865	91⅞	91½	91¾
" 1867	93⅜	94	94⅛
" 10-40s	88¼	88¾	88¾
New Fives of 1881	89½	89⅛	89⅛
Erie	46¾	49	49

State bonds have been in fair, though not active request, at about steady prices on the more popular issues.

The Railway and Miscellaneous share speculation has been quite moderately active, and values have been generally very well supported. Union Pacific Shares, and Pacific Mail were the main exceptions, having been seriously depressed in price toward the close, by heavy offerings.

Railway Mortgage Bonds have been more sought after especially for home investment purposes, at firmer rates. Central Pacific Sixes have been in good demand and have been quoted higher closing at from 103¼@103¾. Chesapeake and Ohio Sixes have been also in more request and quoted up to 88½ and interest. Western Pacific Sixes have been selling more freely at 95. The Northern Pacific 7-30 Loan has been in more demand at par and interest, especially in view of the official limitation of the amount of this loan to be issued, determining the aggregate at thirty millions, of which sum more than two-thirds have already been successfully marketed. The bonds of the Central Railroad Extension Company of Long

Island have nearly all been disposed of at 90 and accrued interest.

There has been a moderate movement noted in n the line of general business. The Hardware and Earthenware trades have been dull. The Metal trade has also been inactive as, a rule In Copper the dealings have been light, though prices have favored buyers; sales 80 tons English at 30c.@30½c. and 40,000 lbs. Lake at 31c.@31½c. Pig Iron has been very dull, throughout, and prices have been somewhat nominal; 200 tons Glengarnock sold at $47. In old Rails further sales have been made of 2,000 tons double headed and T, at $50 and $49, respectively, four months' time and interest added, and rumored, 2,000 tons at Philadelphia, without particulars. Other kinds of Iron inactive. We quote Glengarnock Pig nominally at $47@$49; Eglinton do. at $46@$48; Coltness, $58@$60; No. 1 American Pig at $49@50; do. 2 do. at $46@$48; Wrought Scrap at $45@$48; English rails at $70@$71, gold; American Rails at Works, $80@$82 50. Pig Lead in slack demand at 6¾c.@6⅞c., gold, for ordinary foreign. Spelter has been slow of sale at 7⅝c.@7¾c., gold; sales, 10 tons, in lots, at the latter rate. Pig-tin has been comparatively dull with Straits quoted at 31c., and English at 30½c.; Banca, 36½c., gold; sales, 5 tons English at 30½c., gold. Tin Plates have been in moderate demand, with prices favoring purchasers; sales 1,000 boxes Charcoal at $11 37½; 500 boxes low quality Coke, on private terms; 500 boxes Charcoal Terne at $10 25; 250 boxes Coke at $9 87½, gold. Charcoal Plates quoted here at $11 25 @$11 75@$12; Charcoal Terne, at $9 75@$10 50; Coke, $8 75@$9 50; Coke Terne, $8@$9, gold, per box. Zinc in limited request at about former figures.

Domestic produce has been less active, and the leading articles have been quoted less firm in price. Middling upland Cotton left off at 19¼c. per lb. The receipts at all the ports, since Sept. 1, have been 3,384,355 bales, against 2,615,913 bales same time in the preceding year, exports 2,326,513 bales against 1,841,321 bales in the previous year; stock at the ports at latest dates, 855,980 bales against 230,100 bales same date 1871.

At the auction sale of Scranton Coal on Wednesday, 80,000 tons were disposed at from $4 80 @$5 22½, as against $4 27½@$5 12⅝ at the April sale.

Foreign goods have been in less request and less buoyant as to prices. The week's imports amounted to $8,585,218 including $1,479,407 of dry goods.

Ocean freights have been quoted firm, on a fairly active market especially for Grain and Petroleum room, which has been most sought after.

At the Live Stock Markets, Beeves have been in more request at from 9@13⅛ cts. Veals at 6@11 cts.; Sheep at from 4@7½ cts.; Swine at 5⅛@5⅞ cts. per lb., all live weight. The week's receipts were 8,000 Beeves, 4,735 Veal Calves, 17,040 Sheep and Lambs, and 35,363 Swine.

Pennsylvania and Sodus Bay Railroad.

By an act passed by the New York Legislature on the 27th of March, 1873, the Pennsylvania and Sodus Bay Railroad Company is authorized to construct its road upon the most direct and feasible route northward from where the said road shall cross the New York Central and Hudson River Railroad, in the town of Seneca Falls, via Clyde and Rose Valley, to its place of termination at or near Nicholas Point, on Sodus Bay, in the county of Wayne, in the State of New York, and to maintain and operate its said railroad on said route the same in all respects as if said route had been named and specified in its original articles of association. But if the route of the road shall be changed, and built upon a route not running into or through the town of Waterloo, then the town shall be relieved from its liability to subscribe to the capital stock of the company, and the commissioners appointed to create and issue the bonds of the town of Waterloo in aid of the construction of the said Pennsylvania and Sodus Bay Railroad, shall not create and issue such bonds.

☞ Thomas D. Messler, of Pittsburg, Pa., has been elected President, and F. M. Hutchinson Secretary and Treasurer of the Lawrence Railroad Company. The directors are: Thomas D. Messler, J. N. McCullough, G. W. Cass, John B. Jackson, A. L. Crawford, R. W. Cunningham and Caleb B. Wick. This road was recently consolidated with the Youngstown and Canfield.

☞ The directors of the United Railroad and Canal Companies of New Jersey, recently elected, are: John J. Astor, Wm. G. Cook, A. L. Dennis, Benjamin Fish, Hamilton Fish, Cambridge Livingston, Nehemiah Perry, Isaac W. Scudder, John G. Stevens, R. F. Stockton, Ashbel Welch, Samuel Welch.

☞ Coupons of the First Mortgage Bonds of the Wilmington, Columbus and Augusta Railroad Company, maturing June 1st, will be paid at the office of the Safe Deposit Company, South street, Baltimore.

☞ Cars have commenced running from Red Bank to New Bethlehem, on the Eastern Extension of the Allegheny Valley road. Meanwhile work on the rest of the way is being pushed with energy.

☞ The Davenport and St. Paul Railway has been finished to Fayette, Iowa, ninety miles from Rochester.

BANKING HOUSE OF FISK & HATCH,
No. 5 NASSAU-ST.,
NEW YORK, May 26, 1873.

☞ We recommend to our friends and customers for investment of surplus Capital, or in exchange for Government Bonds, which can now be sold at unusually high prices, the following Securities of well-known character and established reputation, viz:

THE CHESAPEAKE AND OHIO SIX PER CENT. BONDS—Principal and Interest payable in Gold Coin in New York City; Interest payable May 1 and Nov. 1; issued in denominations of $100, $500 and $1,000, either Coupon or Registered. Price 88 1-2 and accrued interest. Secured by a First Mortgage on the main line of this great East and West Trunk Road, from Richmond to the Ohio River, 420 miles in length, now completed and doing a large and rapidly-increasing business.

Also, THE CHESAPEAKE AND OHIO SEVEN PER CENT. BONDS—Principal and Interest payable in Gold Coin in New York City; Interest payable January 1 and July 1. Bonds of $1,000 each, Coupon or Registered—price 90 and accrued interest—secured by a First Mortgage on the Peninsula Division, from the Richmond Depot to the James River Docks and to Deep Water on the Chesapeake Bay, now in progress; the proposed Kanawha River Branch, and the Bridge to be built across the Ohio River at Huntington; in addition to which they are a lien upon the entire Road and equipment already completed at a cost of over $35,000,000, with a First Mortgage Debt of only $15,000,000. The rapid development of the business of the Road indicates that the earnings for the ensuing twelve months will not be less than $3,000,000, and for the succeeding year not less than $5,000,000.

The Chesapeake and Ohio Securities should, and must in time, take rank in the markets of the world with those of the Central Pacific.

We also buy and sell, at current market prices:

The WESTERN PACIFIC SIX PER CENT. BONDS—Principal and Interest payable in Gold in New York City; Interest payable January 1 and July 1; Coupon Bonds of $1,000 each; assumed by the Central Pacific Railroad Company by consolidation.

Also, the CENTRAL PACIFIC GOLD BONDS, as well known in all the principal money markets of the world as the Bonds of the United States Government.

We also deal in Government Bonds and other first-class Securities; receive deposits, on which we allow four per cent interest; make collections, and do a general Banking business.

FISK & HATCH.

☞ The attention of Railroad Companies, Locomotive Manufacturers, Car Builders, etc., is invited to the Advertisement of Messrs. PHELPS, DODGE & Co., in another column of this week's issue.

☞ The earnings of the Erie Railway Company for the week ending May 15, 1873, were $451,026, and since November 1, 1872, $9,638,756—an increase over the corresponding period of the previous year of $247,620.

Knoblauch & Lichtenstein,

No. 37 Broad-st., New York.

OFFER FOR SALE

$200,000

7 Per Cent. First Mortgage Bonds,

30 YEARS TO RUN,

OF THE

CENTRAL R. R. EXTENSION COMPANY

OF LONG ISLAND,

At 90 and Accrued Interest in Currency.

The road runs from Farmingdale, the present terminus of the Central Railroad, to Babylon on the South Shore of the Island. According to contract, the road will be finished by July 15th, ready for this summer's travel.

These Bonds being a *home security*, and among the best ever offered in this market, we take special pleasure in recommending them.

Pamphlets or further particulars will be promptly furnished on application.

Central Vermont Railroad.

The Central Vermont Railroad Company (successor to the Vermont Central) was organized at St. Albans, Vt., on the 21st inst. The meeting was called by the commissioners named in the charter, all three of whom were present. The whole number of ballots cast for directors was 18,045, and the following board was unanimously elected: J. Gregory Smith, Worthington C. Smith, St. Albans; Joseph Clark, Milton; B. P. Cheney, Boston, present trustees. William Butler Duncan, S. L. M. Barlow, J. Q. Hoyt, G. H. Brown, J. S. Schultz of New York; Trenor W. Park and J. G. McCullough of Bennington; J. B. Page of Rutland; J. R. Langdon of Montpelier. At a meeting of the directors, held on the 27th inst., Hon. John Gregory Smith was elected president and Hon. Worthington C. Smith was elected vice-president. The election of the other officers was postponed until the next meeting.

☞ Peter B. Brigham has been chosen President, E. H. Spalding Vice President, John B. Goodrich Clerk, and C. A. Putnam Treasurer of the Nashua, Acton and Boston Railroad Company. The business prospects of the road are said to be very encouraging. It will be opened to the public early in June.

☞ It is stated that all the work on the Massachusetts Central Railroad, between Amherst and Northampton bridge, can be done in sixty days, and the whole road through from Belchertown to the bridge in four months.

☞ The lease of the Bangor and Piscataquis Railroad to the European and North American Railway Company will probably go into effect about the first of June.

☞ The Bucksport and Bangor (Me.) Railroad is to be graded from Bucksport to Brewer by the 1st of August, and completed by December.

☞ General Echols of Virginia, has resigned the presidency of the Louisville, Cincinnati and Lexington Short-line Railroad Company.

Journal of Railroad Law.

RAILROAD COMPANIES—SUCCESSIVE ACTIONS CANNOT BE MAINTAINED FOR INJURIES FOR A SINGLE WRONGFUL ACT; BUT IS ENTITLED TO RECOVER COMPENSATION FOR PROSPECTIVE INJURY IN ONE ACTION.

The recent case of Filer *vs.* The New York Central Railroad Company, (49 N. Y., 42), was an action brought to recover damages to plaintiff in consequence of injuries sustained by his wife, Mrs. Helen M. Filer, while a passenger of defendant at Fort Plain on the night of the 4th of Nov., 1864.

Mrs. Filer left Rochester for Fort Plain on the evening of the 4th of Nov., on a train which was to arrive at Fort Plain between 3 and 4 o'clock the following morning. As the cars approached the station they went very slow, but did not stop.

As Mrs. Filer, pursuant to the direction of the brakeman, attempted to get off, her clothes caught in the steps; she was thrown down and dragged a considerable distance.

The shock rendered her insensible for a short time. Her back was bruised and she was lame and suffered pain in her back and hip which has continued. The lameness and pain at length in the early winter of 1866–'67 resulted in *Osoas* abscess.

The jury rendered a verdict for the plaintiff. The following is the opinion of the court deliver-by—

ALLEN, J.—Successive actions cannot be brought by the plaintiff for the recovery of damages, as they may accrue from time to time, resulting from the injury complained of, as would be the case for a continuous wrong or a continued trespass. The action is for a single wrong, the injury resulting from a single act, and the plaintiff was entitled to recover not only the damages which had been actually sustained up to the time of the trial, but also compensation for future damages; that is compensation for all the damages resulting from the injury whether present or prospective. The limit in respect to future damages is that they must be such as it is reasonably certain will inevitably and necessarily result from the injury. To exclude damages of that character, in actions for injuries to the person, would necessarily, in many cases, deprive the injured party of the greater part of the compensation to which he is entitled. (Curtis *vs.* R. and S. R. R. Co., 18 N. Y., 534; Drew *vs.* Sixth Av. R. R. Co., 26 N. Y., 49.) Any evidence, therefore, tending to show the character and extent of the injury and its probable results, as well as the probability of a return of the disease induced by the injury, in the ordinary course of nature, and without any extrinsic superinducing cause, was competent to enable the jury to determine the compensation to which the plaintiff was entitled. In the case of a fractured limb, it was thought that the present and probable future condition of it were proper matters of inquiry. (Lincoln *vs.* Sar. and Sch. R. R. Co., 23., W. R., 425.) The consequences of a hypothetical second fracture were deemed too remote. The question of Dr. Faling as to the probability, from his experience and medical knowledge, of a recurrence of an inflammation of the injured muscle, and his answer that he could not say the probabilities were very strong, but that he should feel, speaking from experience, that there was danger of the return of the inflammation and accumulation of the fluid, was competent. The evidence was that of a medical expert, as to the ordinary or probable course of disease in the injured muscle, which had resulted directly from the injury complained of, and related to the future condition of the person injured, so far as that condition could be ascertained from medical learning and experience. So, too, the opinion of the same physician, that he should expect, if there was no return of inflammation, that the general health of Mrs. Filer would improve, but would always be somewhat impaired, was proper and competent, to enable the jury to ascertain the actual extent of the injury to the plaintiff.

There is no evidence other than of experts by which courts and juries can determine whether a disease or an injury has been or can be permanently cured, or what its effect will be upon the health and capability of the injured person in the future. The hypothetical opinion of Dr. Hillman as to the cause of the abscess was competent, and the answer cautiously given that if they could find no other cause they would naturally attribute it to the injury complained of, and that such injury received in 1864 was competent to produce the condition he saw in 1867 were properly allowed.

Some latitude must necessarily be given in the examination of medical experts, and in the propounding of hypothetical questions for their opinions, the better to enable the jury to pass upon the questions submitted to them. The opinion is the opinion of the expert, and if the facts are found by the jury as the counsel by his questions assumes them to be, the opinion may have some weight, otherwise not. It is the privilege of the counsel in such cases to assume, within the limits of the evidence, any state of facts which he claims the evidence justifies, and have the opinion of experts upon the facts thus assumed. The facts are assumed for the purposes of the question, and for no other purpose.

There was no error in the refusal to charge as requested. The question submitted was whether the abscess and consequent illness was caused by the injury received in November, 1864, and if that was found in the affirmative, the plaintiff, if the other facts were found in his favor, was entitled to recover. There was no evidence authorizing the submission of the question whether the abscess might not have been in part caused by the injury spoken of, and in part by some other means. The other questions made by this appeal are considered and disposed of in the action of the suit of Helen M. Filer.

There was no error upon the trial, and the judgment must be affirmed.

Judgment affirmed.

☞ The Fincastle (Va.) *Herald* learns that Rebecca Furnace, situated near Dagger's Springs, in Botetourt county, will shortly be put in operation, and that Glenwood Furnace in Arnold's Valley, in that county, has been rented by a New Jersey firm, who will soon set it to blowing again. The new railroads about reaching into the valley revives the mineral region enterprises.

☞ The New York Central and Hudson River Railroad Company assumed control on the 26th inst. of the New York and Harlem Railroad, which they have leased. Mr. C. M. Bissell is Superintendent of the road.

☞ The Managers of the Northern Pacific Railroad have resolved to limit their 7.30 per cent. Gold Loan to $30,000,000, of which $21,000,000 have been sold. With the sales already made more than 500 miles of the Road have been opened and the title to nearly ten millions acres of Land have been earned. These lands, as far as they have been marketed, average $5 66 per acre, chiefly to actual settlers of European immigration. The Company, after disposing of $9,000,000 additional Bonds bearing 7.30 per cent. Gold Interest, (which is now being disposed of through the usual agencies) have resolved to prosecute the work with Money borrowed at no higher Gold Interest than 6 per cent.

☞ Within the last year the Allegheny Valley Railroad Company has leased the Oil Creek and Allegheny River and the Buffalo, Corry and and Pittsburg Railroads, and now extends its direct line to Lake Erie, feeding it with important branches. This company has control of three hundred miles of track, and within the present year will control fully five hundred miles. The company is now building a very important extension, of one hundred and ten miles, from Red Bank, on its present line, to Driftwood, in Cameron county, and will thus get what is claimed to be the best route across the Alleghenies.

☞ The contracts for the graduation and masonry of the Berks County Railroad, between Lenhartsville and Slatington—the balance of the road—have been awarded as follows: Section No. 20, Cyrus Diller; 21, P. Conry; 22 and 23, Wm. Call; 24, M. F. Huy; 25, F. Grosh; 26 and 27, Wannemacher & Beard; 28, S. J. Schaeffer; 29, Crane & Thompson; 30 and 31, J. W. Bradley & Co.; 32, Daniel German; 33, J. A. Breen & Co.; 34, 35 and 36 Britton & Doane. Several of the contractors have already commenced work, while the rest are making preparations to do so.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending May 17, at 443,528 tons, and for the coal year at 6,035,815 tons, against 5,954,402 tons to corresponding time last year, being an increase of 81,413 tons. The bituminous tonnage for the week is 57,562 tons, and for the year 768,063 tons, giving a total of all kinds for the week of 501,090 tons, and for the year 6,703,878, tons, an increase as against production to same time last year of 88,516 tons.

☞ The estimated earnings of the Kansas Pacific Railway for the week ending May 15 are: freight, $45,407 81; passengers, $30,494 56—total, $75,897 37.

☞ The Danville (Va.) *Times* says that they have commenced again to lay the track of the Lynchburg and Danville Railroad.

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B, water is drawn through the orifices D-D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors, and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the Steam Water Station Company,

LENG & OGDEN,

IRON AND STEEL DEALERS & IMPORTERS,

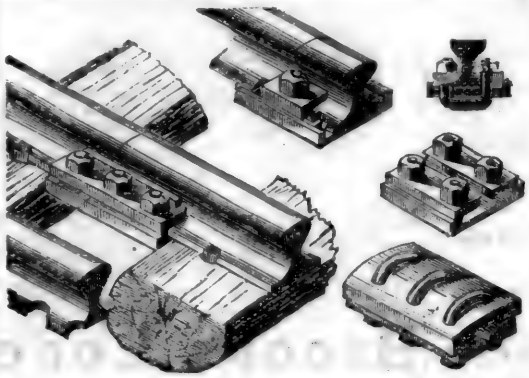
THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

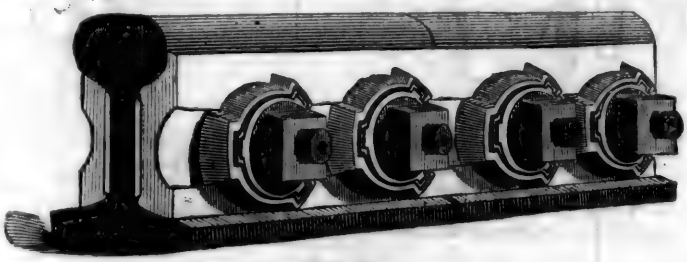
Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York, Saturday, June 7, 1873.

☞ The earnings of the Union Pacific Railroad for April, 1873, were $881,266 88, the expenses (including $91,000 for renewal of rails) $474,078 84, and the net earnings $407,187 54. In April, 1872, the earnings were $741,802 56, the expenses, $385,997 74, and the net earnings $355,804 82—showing an increase in earnings of $139,463 82, with an increase in expenses of $88,081 10, making the increase in net earnings $51,382 72. From January 1 to April 30, 1873, the earnings were $2,605,281 32, the expenses $1,445,474 56, and the net earnings $1,159,806 76—showing an increase in gross earnings compared with 1872 of $489,566 15, and an increase in net earnings of $568,854 81.

☞ The Dyersburg (Tenn.) *Progress* says: "We understand that it is the intention of the St. Louis and Iron Mountain Company to extend its road South, crossing the Mississippi at Point Pleasant, Mo., thence to this place, and on to Jackson, Tenn. We think this highly plausable from the fact that the Mississippi Central road is being extended from Jackson to Cairo, and that the Mobile and Ohio intends making Cairo its terminus, thereby cutting off all connection South for the Iron Mountain road. The latter road must have a connecting link South in order to compete with the Illinois Central, which will have two Southern outlets at Cairo."

BANKING HOUSE

—OF—

JAY COOKE & CO.

No 20 WALL STREET, New York.

The Northern Pacific Railroad Company having determined to close its 7-30 First Mortgage Gold Loan at an aggregate not exceeding thirty million dollars, and thereafter to pay no higher rate of interest than 6 per cent. on further issues of its bonds, *the limited remainder of the* 7 3-10 *loan is now being disposed of* through the usual agencies.

As the bonds of this issue are made receivable in payment for the Company's lands at 1.10, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.

The Company has more than 500 miles of its road built and in operation, has earned title to nearly ten million acres of its land grant, and sales of lands have thus far averaged $5 66 per acre.

All marketable securities are received in exchange for Northern Pacifics at current rates.

JAY COOKE & CO.

☞ The Staunton *Spectator* says that President Huntington, of the Chesapeake and Ohio Railroad, has informed one of the contractors on the Big Sandy Railroad that the money was on hand to go to work on the road within thirty days. The proposed Big Sandy Railroad is to run from Mount Sterling, Kentucky, to the mouth of the Big Sandy, which is only nine miles below Huntington, the terminus of the Chesapeake and Ohio Railroad. It is eighty-six miles from the mouth of the Big Sandy to Mount Sterling. The contractors for this road are composed very largely of the same men who have taken the contract for the Valley Railroad from Staunton to Salem.

☞ The Lynchburg *News* says material trains are running on the Lynchburg and Danville road as far as Fishing creek, a mile below the city, and it hopes to be able to announce the completion of the road to the Staunton river by the first of July.

☞ The Ohio *State Journal* learns that the Columbus and Ferrara, Railroad Company is about consummating an arrangement by which it will be able not only to construct its road from Columbus to Ferrara, but also secure the construction of a road from Columbus to Lima by way of Marysville, to be called, in connection with an extension of the line from Lima to Coldwater, Michigan, the Columbus and Northwestern Railroad.

New York and New England Railroad.

The re-organization of this company has now been ratified by the four States in which the road is located. As soon as the preliminary arrangements are made to relieve the Trustees of the bondholders from the charge of the property, a conveyance will be made to the new company. The lines owned and leased by the New York and New England Railroad Company will be, from Boston to Willimantic, 86 miles; Brookline to Woonsocket, 33 miles; Southbridge Branch, 18 miles; Dedham Branch, 2 miles; Providence to Waterbury, 123 miles; total now in operation, 262 miles. Unfinished—Waterbury to Hudson River,

75 miles; land line Norwich and Worcester, 67 miles; total when completed, 404 miles.

The new company starts with a debt of but about $3,000,000 on the whole property. It will immediately create a new mortgage for $10,000,000, with which to pay this debt and finish and equip the line. The new mortgage will thus be for about $33,000 per mile of completed road.

Housatonic Railroad.

The receipts from operations of this road for the nine months ending September 30, 1872, were as follows:

From passengers		$162,012 08
" freight		353,358 09
" milk		45,799 29

In order to comply with an act of the legislature regarding railroad returns, the time of closing the fiscal year of the company has been changed from December 31 to September 30—hence the report shows the business of the road for nine months only. The earnings for the whole year were $768,926 50, against $780,280 84, for the year ending December 31, 1871.

There have been added to the equipment three new engines at a cost of $33,988 84, and three have been sold for $21,000; and 94 new freight cars have been built at the company's works at a cost of about $75,000. The company now have 15 engines, 15 passenger, 9 baggage and 423 freight cars. The number of miles run by engines for the nine months has been 259,541. There have been laid in the track 1000 tons of new rails at a cost of $75,083,85, and one mile of new sidings built at a cost of $20,000.

Railroads of the State of Ohio.

We are in receipt, through the courtesy of the Hon. O. L. WOLCOTT, "Commissioner of Railroads and Telegraphs," of the Sixth Annual Report in relation to the Railroads of the State of Ohio. We have always valued these reports as among the most conveniently arranged and the most elaborate in detail of any like reports issued under State authority; and have consequently hailed their appearance with that satisfaction which springs from perfection in the handiwork presented for our appreciation. It is, however, a fault that we cannot receive them until from 9 to 10 months after the close of the official year they represent. A year's delay in these progressive times is a fatal error, and one that ought to be remedied at once and forever. As a series, nevertheless, they must become more and more valuable, by increase of years, to the economist and statesman, and in this light we especially appreciate them. The official year referred to on the present occasion ended June 30, 1872.

The reports of the several companies indicate an unusual energy in railroad extension, and a large increase of expenditures for construction, equipment and general improvements. They show the aggregate length of the railroads at the close of the official year to have been 3,787 miles—an increase for the year of 270 miles; the cost thereof, including equipments, $206,352,805—an increase of $18,200,400; and the earnings per mile, on 3,551 miles, $9,647, with a net of $2,997.

The increase of main line and branches reported in 1869, '70 and '71 aggregated only 201 miles of new roads constructed; while for 1871-'72, additional railroad was opened to the extent as above stated of 270 miles, or 69 miles more than the aggregate for the three previous years; and within the years 1871-'72 there was laid on old roads—new iron 479, re-rolled iron 614, spliced and mended iron 315, and new steel 323 miles, or in the aggregate 1,731 miles. Of course this amount of iron was largely used in laying second tracks and sidings, of which there were in the State on June 30, 1872—2d tracks 121 miles, and sidings, &c., 682 miles. Including these the total equivalent single track in use within the State at the above date was 4,590 miles. In the same year one-sixth of all railroad bridges in the State have been built or re-built.

That the commercial prosperity of the State in consequence of these new works and improvements has been materially advantaged is evident from the facts revealed by the traffic and financial results of operating them. There was carried over the aggregate system of roads 12,068,832 passengers or 68,832 more than in the previous year; and there was transported 20,988,068 tons of freight, or an increase of 5,518,728 tons.

The gross earnings were respectively $34,257,800 and $30,384,518, showing an increase of $3,873,282; the operating expenses averaged 68.32 and 68.33 per cent, and left the net earnings at $10,755,060 and $9,608,295, showing an increase of $1,146,765, or about 12 per cent.

The amount of construction funds furnished during the year was—capital stock, $7,289,488; bonds, $27,008,597; and floating debt, $2,414,282; or a total of $37,612,280. This large amount, however, was not all expended on the reported increase of 270 miles, but was used in great part on extensions outside the State and in improvements, additional equippage, &c. A portion has no doubt been expended on works then in different stages of progress. Between July 1 and December 31, 1872, the length of new road opened for business was 322 miles, distributed to the following seven companies:

Ashtabula, Youngstown and Pittsburg	57 miles.
Cleveland, Mount Vernon and Delaware	23 "
Lake Erie and Louisville	46 "
Lake Shore and Tuscarawas Valley	63 "
Marietta and Pittsburg	45 "
Mahoning Coal	40 "
Mansfield, Coldwater and Lake Michigan	48 "

—and still the good work goes on, and probably not less than 200 or 300 miles additional will have been brought into use by the close of the current official year, and at that estimate leave 1,000 miles under construction for completion within two years.

The influences which have conspired to bring about this unprecedented development in railroad construction in the State are multifarious. Many of these lines were projected and had money expended on them years ago; others more recently; and others are the legitimate outgrowth of the consolidations of old lines requiring connecting links or new feeders. The pressing demand of western commerce increasing year by year, must also have had paramount influence in urging to new constructions—such as the line in progress from Pittsburg and Chicago, in the interest of Baltimore. But the majority of the new lines are the result of many years' effort now culminating in success.

Nor does the increased facilities for railroad

conveyance prove beneficial only to the commercial and social interests. The extension of railroads has become a politico-financial agency, which by increasing the value of all real property favors the State Treasury, while the tax-payers experience less difficulty in paying the increased aggregate demands of the State. The total tax collected in 1868 was $20,489,148 and in 1872 $28,248,980, the increase in the years intervening having been $2,759,822. This shows conclusively that in railroad extension both the State and the people are equally interested.

In the table which follows we give a summary of the principal statistical elements drawn from the annual reports for the last five consecutive years:

PROPERTION FOR THE STATE OF OHIO.

Fiscal Years ended June 30.	Capital Stock.	Bonded Debt.	Total stock bonds and debt.	Miles of Main and Branch Lines. M.	Miles of 2d and side tracks. M.	Cost of road and equipment.	Gross earnings.	Net Earnings.	Interest paid.	Dividends paid.
1872...	122,721,527	120,222,072	248,889,300	3,787	890	206,852,806	34,257,799	10,755,060	.....	.....

1868...	171,960,942	138,111,294	313,566,602	5,391	....	302,669,874	47,118,722	14,198,688	.....	3,801,291

On another page of our current issue will be found an elaborate table giving in detail the material and financial status of each railroad company in the State for 1871–'72.

☞ The following gentlemen have been elected directors of the Pacific Mail Steamship Company: George H. Bradbury, T. W. Park, James D. Smith, John M. Burke, Charles J. Osborn, Russel Sage, George S. Scott, George H. Palmer and Rufus Hatch.

Journal of Railroad Law.

RAILROAD COMPANIES—A FOG NO EXCUSE FOR A PERSON NOT BEEING AN APPROACHING TRAIN.

The facts in the recent case of The Morris and Essex Railroad Company *ads.* Harlan, &c., (33 N. J. Law Reports, 147), are fully and clearly stated in the following opinion by—

ELMER, J.—This was an action brought by the administrators of Richard Paxton, deceased, in pursuance of the statute, to recover damages for causing his death by striking him with one of the defendants' engines at the crossing of their railroad over the Newark and New York turnpike road in October, 1865. Their right to recover depended upon two questions which were submitted to the jury, and determined by them in favor of the plaintiffs. The first was whether the death was occasioned by the negligence of the defendants' agents; and the second, whether the negligence of the deceased contributed to produce the result. If the jury in deciding either of these questions were so clearly wrong as to make it the duty of the court to interfere the defendants are entitled to a new trial.

I am by no means satisfied that the verdict was right upon the first question; but, however that may be, I am so entirely satisfied that the culpable negligence of the deceased contributed to produce the unfortunate result that I think we are bound to set aside the verdict for that reason, and do not think it necessary to examine the facts detailed in evidence to show the negligence of the defendants.

It appears that the deceased drove a three horse team, attached to a truck loaded with paper, and on his way to New York, by the usual turnpike road, had occasion to cross the railroad of defendants, on the morning of a very foggy day. According to the testimony of a Mr. Farnsworth, who drove a light carriage with, as he says, a very lively team, both teams stopped near the place where the railroad crosses the turnpike at a very acute angle. No engine or cars could be seen, but they were distinctly heard by Farnsworth and others, and were accustomed to pass at that time. Farnsworth sent a man who was riding with him to the crossing, who reported that he could not see anything. Farnsworth says he spoke to deceased, and asked him if he thought he could get across; he said yes we'll take the risk. Farnsworth whipped his horse across the track, and got over the track safely. The deceased attempted to follow, but was struck and killed with two of his horses.

There seems to be no good reason for doubting the veracity or the accuracy of Farnsworth; but the case does not turn on his unsupported testimony. It is evident from all the testimony on both sides, that the deceased was accustomed to travel over the road, knew the time the train usually passed, and must have heard one approaching, as others did. If as suggested in argument, he could not certainly determine whether the train he heard was on the road he was about to cross, or on another not far off, he was sufficiently apprised of probable danger to require him to wait until he could be more sure that he did not endanger his life and the lives of others. A very short delay would have avoided the catastrophe. Instead of pausing, as under the circumstances it was his duty to do, incited, probable by the example of Farnsworth, or for other reasons, needlessly impatient, he rashly drove his loaded wagon, at a necessarily slow gait upon the track, and lost his life. Farnsworth was criminally rash; but the deceased was far more so.

While it is important for courts and juries to be scrupulously careful to exact of the officers and agents of the railroad companies, the greatest care to avoid danger to the lives or property of our citizens, it is equally important to require of citizens the same care to avoid, by their acts, endangering the lives of those traveling in the cars. As is well remarked by Justice Potts in the case of Runyon *vs.* The Central Railroad Company, 1 Dutcher, 556, "the necessities of railroad travel demand a speed at which it is impossible to stop in time to prevent a collision, if persons traveling on the highways, rush carelessly or recklessly on a crossing ahead of an approaching train; and every collision of the kind places not only the party driving on the track but the passengers in a train of cars in imminent peril, many times occasions great loss of life. Persons approaching a crossing in vehicles of their own, must use their eyes and ears, and exercise common care and prudence to avoid a collision, commensurate with the danger." These principles were applied by this court to the case of, Telfair *vs.* Northern Railroad Company, 1 Vroom, 189, and are quite as applicable to this.

The verdict must be set aside, and a new trial ordered.

Texas and Pacific Railway.

To the Stockholders of the Texas and Pacific Railway Company:

GENTLEMEN: In submitting this report, your board have to congratulate you upon the improved condition of the enterprise under our charge.

Under the energetic supervision of General G. M. Dodge, as Chief Engineer, the Construction Company hereinafter referred to have pushed the work of constructing the line with great rapidity from Longview west to Dallas, from Marshall via Jefferson to a point near Texarkana, and from that point west to Sherman.

It will be remembered that the grant of six millions of dollars of bonds made by the State of Texas was coupled with the condition that the roads from Marshall west, and Texarkana west, should be completed to a point of junction near Forth Worth by January 1, 1874.

As the summer of 1872 was necessarily consumed by the preliminary surveys, it was not until October last that work was actually begun upon the line. Most of the contractors had to be brought from distant points, the low stage of water in Red River, the absence of railway communication, and in fact, of any reliable facilities for reaching the line, threw serious obstacles in the way of transporting material, and compelled us for several months to haul from the termini of the North Louisiana and Texas and the International Railroads, a distance of from sixty to ninety miles.

Nothing but untiring energy and a liberal expenditure of money enabled the company to accomplish what has been done, and your board feel sure that a knowledge of these facts will induce the people of Texas to extend cheerful and willing aid in the further progress and completion of the road.

Notwithstanding the difficulties and disadvantages under which we have labored, nearly four hundred miles have been graded, and the bridging so far advanced as not to retard the laying of the iron. The greater portion of the ties needed have been distributed along the line, and the rails and fastenings for three hundred miles have been purchased, and are being delivered at New Orleans,

Galveston, St. Louis, and other points, to be forwarded as rapidly as required for construction purposes.

The completion within a short time of the International Railroad to Longview, and of the Houston and Texas Central, and the Missouri, Kansas and Texas Railroads, to a connection with your railway, gives us the needed facilities for the movement of supplies at all seasons, and we are availing ourselves largely of them.

The cities and counties, and the people along the line, have in general acted in a fair and liberal spirit, and with a just appreciation of the advantages its completion will confer upon them. Their interests and those of the road are so interwoven that we may confidently rely upon a continuance of the same kindly feeling.

The route west of Fort Worth has been thoroughly developed, but not yet definitely located, except a portion of the San Diego division; but it may be said in general terms that the alignment has proved to be unexpectedly favorable, and that in grade, curvature, and the low summits at which it crosses the continent, your road will possess great advantages over the existing lines to the Pacific Ocean. The preliminary surveys are entirely completed, and sufficient data obtained to show that the proceeds of your bonds and the donations from Texas, San Diego, and other localities, will be ample to build and thoroughly equip the road up to the standard required by the laws of Texas and the United States Government.

An exhaustive survey was made of the country between San Diego and the Colorado River, with the view of adopting the best possible route East from the former city. It was found after a most careful examination of all the data that the line designated by the engineers as Number 4, and entering San Diego from the direction of San Gorgonia Pass, was decidedly the best, both in point of construction and economy of operation. While it is about sixty miles longer than the direct route over the mountains would be, its advantages for working, making reasonable allowance for curvature and grades, to say nothing of difference in cost prove it to be commercially fifty miles the shorter line, and therefore the more valuable to the city and port of San Diego, as well as to the interest of the company itself. While this can be said of the traffic between San Diego and the Territories of Arizona and New Mexico and Mexico, and all other points East, it also has the advantage of giving the people of San Diego communication with the country between that city and San Francisco, so that from all the data before spoken of, and the view personally expressed by Mr. Evans, the engineer in charge of San Diego division, and by General Dodge, chief engineer, the board were decided in their opinion as to the value of the line for all the purposes for which the road is to be constructed. Work has been commenced at San Diego, and we trust to so complete our negotiations as to be able to prosecute it with great vigor.

In order to facilitate and insure the speedy building of the road, a construction company with a large capital offered to contract for the building and equipment of the line on terms that would fully meet all the requirements of the Government charter and the laws of the State of Texas.

This company has been diligent in the performance of their agreements, and we are now fast getting into a condition where, with a large amount of completed and equipped road, the securities of our company can be offered with great assurance of success, and a proper value be obtained for them. With a reasonable result in completing our negotiation, the board see no reason why the entire line shall not be finished within a period of five years, in quality fully up to the standard required by the charter of the company, and, therefore, much within the time granted for completion.

The data obtained from the surveys for the entire line across the continent show some remarkable features. Among them: that the summits to be crossed are about thirty-two per cent less than the summits on the existing Pacific roads; that the grades and curvature will be about sixty-two per cent less; that the climate through which the road is located is so favorable for its maintenance and operation that no train need ever be delayed from snow or the other obstructions, now sources of expense and delay on the more Northern route; that an abundance of excellent coal for fuel is accessible at a number of points along the road; that the entire rail transportation between the waters of the Pacific and New Orleans will be less than 1,800 miles, and with accessible ports in Texas less than 1,500 miles, thus forming a route across the continent for international transportation a great deal shorter than now exists, or, perhaps, can ever exist by any other line.

When we take in connection with all this the fact that you will have from the Pacific at San Diego a line to New York four hundred miles shorter than the existing line from San Francisco to New York, and that upon the completion of connections to San Francisco, which will certainly be made before our line is finished, you will have a route between that city and New York quite as short as the existing road, and that on this route will be situated the cities of Philadelphia, Baltimore, Washington, Richmond, Atlanta, Montgomery, Vicksburg, with short connections to New Orleans, Galveston, Savannah and Charleston, while on other connecting routes will be Pittsburg, Cincinnati, Louisville, Indianapolis, Cairo, St. Louis, Little Rock, Kansas City, and the intervening country, with its immense population and products, you can at once perceive that your line should undoubtedly command a fair share of the transportation across the continent.

Add to these sources of traffic the States of Mexico bordering upon our road, with their immense mineral wealth and their present population of two and a half millions of people, and the great resources of Texas, California, New Mexico and Arizona, and it certainly seems that the traffic to be developed and naturally directed to your line must be large and profitable.

As the First Mortgage Construction Bonds of the company are limited to $40,000 per mile, bearing 6 per cent gold interest, there is no reason, in the opinion of your board, why these securities are not in every respect of the highest character, and most reliable as an interest-paying investment. In addition to a lien upon the franchises, the railways, and revenues of the company, these bonds have also the additional security of the entire land grant from the United States Government, embracing about fifteen millions of acres, the net proceeds of which, after providing, if necessary, for the interest, are added to the sinking fund of one per cent gold of the amount of the bonds outstanding, which is to be paid annually to the trustees for the redemption of the same. With reasonable management this sinking fund will pay off the entire loan, or provide for its redemption within twenty-five years.

The lines approaching your road from St. Louis, Cairo, and Memphis via Little Rock and Fulton are fast approaching completion, and we expect will form connections with our road during the coming fall. Arrangements are about being perfected for the completion of the road from Monroe to Shreveport, thus perfecting the line via Vicksburg, except the river bridge at Vicksburg. Negotiations are now pending that will, we think, result favorably to the construction of the line from Shreveport to New Orleans via Baton Rouge.

With these outlets provided, as they will be long before your main line is through, and the connections now made by the Missouri, Kansas, and Texas to Chicago and the Northwest by Kansas City and St. Louis, and by the Houston and Texas Central and International and Great Northern to the waters of the coast of Houston and Galveston, with each and all of these your road will undoubtedly interchange large amounts of traffic.

It is the intention of the board to prosecute the work as rapidly as the circumstances of the company will permit, and always within the requirements of the laws of the United States and the State of Texas. Before closing this report to the stockholders the board desire to submit some extracts from the report of General G. M. Dodge, the Chief Engineer, as follows:

"I gave instructions to our engineers to note carefully the agricultural and other resources of the country, with the view of ascertaining as nearly as possible the relative value of the Government grants to the company, and I am prepared to report, that as a whole the lands donated by the United States are superior to anything I had expected, and in my judgment superior to those on any line across the continent. Already we have reports that lands along the entire line far in advance of our work are being taken up and settled.

"Most of the land is available for agricultural and grazing purposes, and where water can be used for irrigation its powers for production are remarkable. What land may be lost for lack of water is more than made up by the great mineral wealth underlying its surface. Large quantities of valuable timber are found in the mountain ranges along the line, and there have been many developments of coal veins found from three to six feet in thickness. Analysis shows it to contain from 45 to 65 per cent of fixed carbon, and to be superior to the coal found on the same longitude further north, from the fact that it does not disintegrate from exposure to the atmosphere.

"Gold, silver, and copper are developed along the line in Texas, New Mexico, Arizona, and California, and have demonstrated their value and that they exist in inexhaustible quantities. The only present mode of reaching them is by wagon. Some of the richest mines are opened on the line of the survey. On each division a practical geologist has accompanied the surveying parties, with instructions to look carefully after the precious metals, but more especially to the development of coal, iron and copper. Their reports indicate the presence of these metals and minerals in large quantities.

"The remarkable features of this line are, first, its uniformity of grades and altitudes in crossing the continent. After reaching the general altitude of the mesa through Western Texas and New Mexico of about 3,000 feet, it holds that elevation until it descends to the level of the sea at the Colorado.

"This line overcomes every mountain range west of the Guadaloupe to the Pacific with comparatively light grades, easy curvature, and remarkably light work. It is the shortest line from the commercial centres to the Pacific, and only equals in length the Union Pacific from New York to San Francisco.

"From ocean to ocean it is 1,450 miles by our surveys, as against 3,300 on any completed or contemplated route. Along its entire length the country is susceptible of maintaining a heavy population. A large one exists now, and it will develop a larger extent of mineral and agricultural country that is susceptible of production than any other line that can be obtained."

From the foregoing extracts of the report of the chief engineer it will be readily perceived by the stockholders that a moderate average price for the lands donated to the company, and much less than has been received by the existing lines, will in time provide for the extinction of its entire bonded debt. The unprecedented large immigration now pouring into Texas from various quarters is advancing the price of lands rapidly along all lines constructed or in course of construction. The board have no doubt that as the line is completed in sections, they will find ample and remunertive employment for all their equipment, and be required to largely increase their transportation facilities from time to time to meet the demands of the public.

The thanks of the company are due to your officers and employes for the fidelity with which they have performed their duties.

Respectfully submitted,

THOMAS A. SCOTT, President.

New York, May 19, 1873.

Railroads of the State of Ohio.

A tabular statement of their Capital, Length, Equipment, Cost, Earnings, Expenses, Interest, Dividends, &c., for the official year ended June 30, 1872.

Compiled from the Annual Reports of Railroad Companies made to the Hon. O. L. Wolcott, State Commissioner of Railroads and Telegraphs.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Roman*." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, June 7, 1873.

Stock Exchange and Money Market.

Money has been in quite liberal supply all through the week; while the demand for accommodation from all sources has been much less active, and rates have favored borrowers in good standing, with call loans quoted at from 4@7, generally at 5@6; and choice to very good mercantile credits at from 6½@8@9 per cent per annum. The speculative inquiry, for use at the Stock and Gold Boards, has been comparatively moderate, especially in view of the restricted volume of dealings in both lines. In the way of discounts, there was not much activity, and the wants of the more prominent and responsible borrowers were quite promptly met at the ruling figures. The city banks indicated a gain in their legal tender hoard, with a falling off in other averages. The promise is that on the next exhibit, the specie reserve will show a handsome increase. The Treasury offices on Saturday issued $6,500,000 Gold Notes in redemption of Principal and in payment of accrued Interest of the Bonds of 1862, called in for the 1st of June, and nearly the whole of this will come out at the New York office; and in the absence of an export demand for the Gold itself, the Gold Notes will pass into the Banks and private Banking Houses. The Syndicate paid into the hands of Mr. Cattell, Special Treasury Agent, in London, on Saturday, $3,000,000 March and May Coupons on the Public Stocks, which were bought up abroad, and which accounts in good part for the smaller Gold Interest payments in New York this Spring. The difference here in March, April and May is $3,211,100 from September, October, and November. The Syndicate will make further reimbursements in Gold on account of whatever sum the Treasury may be called upon to advance in redemption of the Called Bonds.

The city banks reported a decrease of nearly 1⅝ millions in their deposit line, with an increase of over 1⅝ millions in their legal tender, and a reduction of 1⅛ millions in their specie reserves. They contracted their loan and discount averages nearly 1⅞ millions, and their circulation slightly.

The city banks are again handsomely ahead on their obligatory reserve, the last statement showing that they had $4,918,400 more than the 25 per cent reserve which the national banks are required by law to keep on hand. The U.S. Sub-Treasury, last week, enlarged its coin balance 1⅛th of a million; while losing about 1⅛th millions of its currency reserve. Its currency reserves at the close of the week were $22,155,181; and its coin hoard, $44,267,099.

The clearances of the banks averaged through the week 91 millions a day, and amounted in the aggregate, for the whole week, to $454,272,030 as against $578,678,926 the preceding week. The U. S. Sub-Treasury at this point diminished its currency balance $1,130,683 and augmented its coin reserve $3,800,432 as the result of the week's business.

The specie reserve of the city banks according to the latest return is $19,482,000, against $21,268,800 same time last year. The city bank deposits are now $208,136,500 against $226,070,900, week ending June 1, 1872. The legal tender reserve amounts to $44,332,300, against $53,870,500 same time last year. The circulation now stands at $27,447,100 against $27,522,000 same time last year. The loans are now $277,958,800 against $284,674,800 at this date last year.

The coin reserve of the city banks is now about 19⅛ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is 44⅜ millions against about 55⅛ millions on the statement of June 15th; and the deposits are now about 208⅛ millions, against 247½ millions on the 20th of July.

The U. S. Sub-Treasury office last week received $2,849,008 of currency, and $5,796,634 of gold, the latter including $1,574,000 from customs; and disbursed $3,979,691 of currency and $2,496,202 of gold, the latter embracing $714,694 of coin interest. The receipts of the office from all sources, in May, were $55,513,980, including $9,321,801 from customs; payments, on all accounts, $52,359,035, including $9,126,966 of coin interest on the public debt.

Government revenues have been yielding rather less satisfactory, since our last. The excises yielded within the week about 2¾ millions, and thus far in the current fiscal year beginning with July 1, 1872, $106,016,222. The customs at the port of New York, for the week, were $1,444,868, and at the outports, about half a million more, in coin or coin certificates.

The Gold speculation has shown much less spirit and buoyancy, since our last, though the operators for a rise have been resisting the adverse influences, especially of the liberal Treasury Disbursements, with remarkable energy and determination, favored, in part, by the cheaper terms for Monetary accommodation. The customs demand has been light, and the export drain comparatively limited. The range of the price during the week has been from 117⅜@118½ and the closing quotation on Wednesday was 117⅞ against 118¼ on Wednesday of the preceding week. The specie outflow last week, was $526,922. The Gold Exchange Bank clearances have averaged about 88¾ millions per day during the week.

The Treasury disbursements for May, exclusive of principal and interest of public debt, amount to $16,900,000.

The customs demand for Gold last week, averaged $314 800 a day. The arrivals of specie from Europe, Havana and other foreign ports during the week were $13,504; and thus far in 1873, have been $1,783,164, against $706,126 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $123,595,314 against $146,414,424 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $72,305,910, against $74,638,455 during the same time in 1871-2.

The export drain of specie was $526,992 last week, against $4,243,064 same week preceding year. The shipments since July 1, 1872, have been $56,083,422 against $49,725,796 during the same portion of 1871.

Wednesday's specie exports were $763,235.

Foreign Exchange has been in moderate demand and somewhat irregular in price, since our last, closing weak. Bankers' sixty day bills on London closed on Wednesday at 108⅝@108⅞; sight bills on London, at 109¼@101. The week's exports of Domestic Produce have been to the currency value of $5,326,442.

Under the official programme of the Treasury Department for June, Government proposes to sell during the month at least seven millions of Gold as follows: Thursday, June 5, $2,000,000. Thursday, June 12, $1,500,000. Thursday, June 19, $2,000,000. Thursday, June 26, $1,500,000. And to buy in a million of Five Twenties as follows: Wednesday, June 4, $500,000. Wednesday, June 18, $500,000.

Government securities have met with a ready sale, as offered, at remarkably well supported prices, on unusually light offerings of most issues. The last public debt statement indicated a further liquidation of $3,525,283, in May, according to the Treasury mode of computation.

Government bought in on Wednesday $500,000 U. S. Five-Twenties from 116 20@116 44, out of aggregate offering of $947,600.

U. S. sixes of 1881 closed on Wednesday of this week at 122½@122¾; U. S. Five-Twenties of 1862, 116½@116¾; U.S. Five-Twenties of 1864 at 116⅝@116⅞; U. S. Five-Twenties of 1865 118½

@118⅝; U. S. Five-Twenties of 1865 consolidated 119⅜@119⅝; U. S. Five-Twenties of 1867, 121¾@122; U. S. Five-Twenties of 1868, 120@120⅜; U. S. Ten-forties at 114½@114¾; U. S. Fives of 1881 (Funding Loan) 115⅜@115⅝; Six per cent. currency Sixes from 116¼@116½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 21.	May 28.	June 4.
Consols	93¾	93¾	92⅛
U. S. 5-20s, 1865	91½	91¾	91¾
" 1867	94	94⅛	94⅜
" 10-40s	88¾	88¾	88⅝
New Fives of 1881	89⅛	89⅛	89⅜
Erie	49	49	48⅝

State bonds have been moderately active but at variable prices on even the more popular issues.

The Railway and Miscellaneous share speculation has been less active, and less confident as to values, closing somewhat irregularly.

Railway Mortgage Bonds have been in good demand for investment purposes, at well supported figures. Central Pacific Sixes have been selling readily, closing strong at from 103¼@103½. Chesapeake and Ohio Sixes have been also in fair request at 88½ and interest. Western Pacific Sixes have been in moderate demand at 95. The Northern Pacific 7-30 Loan has been of ready sale at par and interest.

General business has been comparatively tame. Hardware, Earthenware, Dry Goods and Groceries, quiet, as a rule. In the Metal line Copper has further declined, under more liberal offerings and a restricted inquiry, with sales reported of 100,000 lbs. Lake at 30c., and 50 tons English at 29¼c. The first receipts of Lake this season have been reported, embracing about 800,000 lbs. Trade in Iron has been generally quite tame, though buyers have had the advantage as to values. Sales have been reported of only small lots of Scotch Pig at the quotations; 400 tons No. 1 and No. 2 American Pig at $48 and $46; 60 tons Wrought Scrap on private terms; and 250 tons do., deliverable at Providence, at $45. We quote Glengarnock Pig at $46 50@$49; Eglinton do. $46@$48; Coltness, $58@$60; No. 1 American Pig at $48@49; do. 2 do. at $46@$47; Wrought Scrap at $45@$48; English rails at $70, gold; American Rails at Works, $80@$82 50; old Double-head and T Rails at $52. Pig Lead has been very dull at 3¾c.@6⅞c., gold, for ordinary foreign. Spelter has been quite sparingly sought after at 7⅝c.@7¾c., gold. Pig-tin has been in slack demand with Straits quoted at 31c., and English at 30c.; Banca, 36c.@36½c., gold. Tin Plates have been in limited request and quoted easier in price, with sales reported of 1,250 boxes Coke, part at $9 25; 150 boxes Coke Terne at $8 75; 500 boxes Charcoal at $11 25, and 300 boxes Charcoal Terne at $10 gold. Charcoal Plates quoted here at $11@$11 50; Charcoal Terne, at $9 50@$10; Coke, $8 50@$9 25; Coke Terne, $7 75@$8 75, gold, per box. Zinc inactive and wholly nominal.

In the leading kinds of domestic produce, the dealings have been moderate as a rule, though Wheat, Corn, and Oats have been active, having been offered much more freely and at lower figures. Middling upland Cotton left off at 19¼c. per lb. The receipts at all the ports, since Sept. 1, have been 3,412,367 bales, against 2,625,745 bales same time in the preceding year; exports 2,400,356 bales against 1,871,585 bales in the previous year; stock at the ports at latest dates, 809,176 bales against 204,524 bales same date 1871.

Foreign goods have attracted less attention, closing heavily. The week's imports amounted to $6,615,921 including $1,057,804 of dry goods.

Ocean freights have been more active and quoted firmer especially for Grain and Petroleum room, which has been most sought after.

At the Live Stock Markets, Beeves have been in moderate request at from 9@13½ cts. Veals at 6@11 cts.; Sheep at from 4@7½ cts.; Swine at 5½@5⅞ cts. per lb., all live weight. The week's receipts were 9,204 Beeves, 4,778 Veal Calves, 18,807 Sheep and Lambs, and 28,822 Swine.

Illinois Central Railroad.

The annual meeting of the stockholders of this company was held in Chicago on the 28th ult. There were present in person or by proxy, 167,087 shares. On motion, Mr. Lucien Tilton was appointed Chairman, and Mr. W. K. Ackerman Secretary. The minutes of the last meeting of shareholders were read and approved. The minutes of the meetings of the directors, held since the last annual meeting of shareholders, were also submitted, and the following resolution adopted.

Resolved, That the acts and doings, resolutions and votes of the board of directors, all and singular, are hereby ratified, approved and confirmed.

The president's report for 1872, to the shareholders, approved by the executive committee, was presented with the accompanying statements, and, on motion, approved.

A communication, in relation to the engagement with the railways to New Orleans, was read, and in conformity with the request and instructions of shareholders represented therein, the following resolution was proposed and unanimously adopted:

Resolved, That the agreements made by the directors of the Illinois Central Railroad Company with the New Orleans, Jackson and Great Northern and the Mississippi Central Railroad Companies, and the engagements made to secure the completion of the latter railway, connecting Cairo with New Orleans, be and are hereby confirmed, adopted and approved: and

Whereas, The early completion of this line to New Orleans is a work of great necessity; and

Whereas, It is believed to be the best means for an outlet for the surplus products controlled by the Illinois Central lines, therefore this meeting recommends even more decided measures to secure all the funds necessary for its early completion, and this meeting believes that this purpose will be best attained by extending to thirty years the present agreement on the part of the Illinois Central Railroad Company, to purchase at a price, not exceeding par, from the six millions of bonds issued by the above named two companies to an extent not less than $200,000 for each year, which substitution is recommended by this meeting.

The president called the attention of the shareholders to the act of the board of directors of April 16, 1873, providing for the increase of the capital stock of the company from $25,500,000, by a further issue of shares to the extent of twenty per cent upon subscriptions by shareholders, upon the stock registered in their names on the fifteenth day of June next, and suggested that the time for making the subscriptions was fixed at a day subsequent to the annual meeting, in order that the shareholders should have an opportunity to act thereon, and it was unanimously

Resolved, That the act of the board of directors is approved, and that the shareholders especially approve the plan adopted by the board in submitting it to the annual meeting. And the meeting desires and instructs the board to pursue a similar course, in case it should at any time hereafter deem it expedient to make any further increase of share capital.

Resolved that the board of directors be authorized, whenever it may deem it advisable, to call a special meeting of the shareholders upon a notice of ninety days, to be published in a daily commercial paper, in each of the cities of Chicago, New York, London and Amsterdam, to be designated by it, to consider any matter upon which it desires their action.

Resolved, That the meeting do now proceed to elect three directors to fill the vacancies occurring by the expiration of the term of office of George Bliss, Lucien Tilton and W. K. Ackerman, at this date, and also to fill vacancy occurring by the resignation of A. S. Hewitt.

J. N. Jewitt and J. F. Tucker, were appointed tellers to receive and count the votes.

The tellers reported that the whole number of votes represented were 167,087 presented and voted by the following persons as proxies, Richard H. Glyn 42,226, Lucien Tilton 405, John Newell 73,202, J. N. Jewitt 830, W. K. Ackerman, 50,424, all of which were cast for George Bliss, Lucien Tilton, and W. K. Ackerman, to serve until the last Wednesday in May, 1877; and L. V. F. Randolph, to serve until the last Wednesday in May, 1876. Thereupon the chairman declared that all the votes cast were for the above named gentlemen, who were declared duly elected. No other business being presented the meeting, on motion, adjourned.

☞ The Clark (Va.) *Courier* says that the work of placing the ties and laying the rails of the Shenandoah Valley Railroad will be commenced about the first of next September, and the track will be in running order about the first of October. The line of the road between Luray and Staunton will soon be let for graduation and masonry, and everything promises an early completion of the road.

☞ The following gentlemen have been elected directors of the New York and Harlem Railroad Company: William H. Vanderbilt, Horace F. Clark, Cornelius Vanderbilt, William C. Wetmore, Augustus Schell, Abraham B. Baylis, James H. Banker, Joseph Harker, John B. Dutcher, Robert J. Niven, Cornelius Vanderbilt, Jr., Cornelius M. Meserole and Harry Allen.

☞ Messrs. S. C. Mills & Co. have taken the contract to complete the grading and masonry of the Somerset (Me.) Railroad to Madison Bridge. The force will be augmented from day to day and the work pushed rapidly to its completion.

☞ The Manchester and North Weare (N. H.) Railroad Company have elected Phinehas Adams of Manchester, President, Josiah Carpenter of Pittsfield, Treasurer, and George A. Fowler of Concord, Clerk.

☞ The engineers have begun the survey of the extension of the Duxbury and Cohasset (Mass.) Railroad to Kingston.

BANKING HOUSE OF FISK & HATCH, }
No. 5 NASSAU-ST., NEW YORK, June 2, 1873. }

We recommend to our friends and customers for investment of surplus Capital, or in exchange for Government Bonds, which can now be sold at unusually high prices, the following Securities of well-known character and established reputation, viz:

THE CHESAPEAKE AND OHIO SIX PER CENT. BONDS—Principal and Interest payable in Gold Coin in New York city; Interest payable May 1 and Nov. 1; issued in denominations of $100, $500 and $1,000, either Coupon or Registered; price **88 1-2** and accrued interest.

Also, THE CHESAPEAKE AND OHIO SEVEN PER CENT. BONDS—Principal and Interest payable in Gold Coin in New York city; Interest payable January 1 and July 1. Bonds of $1,000 each, Coupon or Registered—price 90 and accrued interest.

THE CHESAPEAKE AND OHIO RAILROAD is completed and in operation from Richmond to the Ohio River, a distance of 420 miles, at a cost with the equipment of over $35,000,000, and the rapid development, of its business indicates that the earnings for the ensuing twelve months will not be less than $3,000,000, and for the succeeding year not less than $5,000,000.

Pamphlets, containing full information concerning the Road and the country it traverses, will be furnished upon application.

We also deal in GOVERNMENT BONDS, CENTRAL and WESTERN PACIFIC, and other first-class Securities; receive deposits, on which we allow four per cent interest, make collections, and do a general Banking business.

FISK & HATCH.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending May 24, at 429,279 tons, and for the coal year at 6,471,654 tons, against 5,428,751 tons to corresponding time last year, being an increase of 42,903 tons. The bituminous tonnage for the week is 59,025 tons, and for the year 826,573 tons, giving a total of all kinds for the week of 488,304 tons, and for the year 7,298,227, tons, an increase as against production to same time last year of 149,952 tons.

☞ The export of iron rails from Great Britain to the United States for the four months of the present calendar year to April 30, amounted to 81,595 tons, against 180,192 tons in corresponding time last year. The exports of rails from Great Britain for the four months of the year to all countries were 188,820 tons, against 279,261 tons in the same time in 1872.

☞ The earnings of the Erie Railway Company for the week ending May 23, 1873, were $455,664, and since November 1, 1872, $10,094,400—an increase over the corresponding period of the previous year of $251,280.

☞ The estimated earnings of the Kansas Pacific Railway for the week ending May 22 are: freight, $45,961 92; passengers, $31,603 06—total, $77,564 98.

☞ J. E. Bartlett has been elected President, and Amos Stowe Secretary and Treasurer, of the Mystic River Railroad Co.

General Railroad Law of New Jersey.

AN ACT to authorize the formation of railroad corporations and regulate the same.

(Continued from page 681.)

27. *And be it enacted*, That a check shall be affixed to every parcel of baggage when taken for transportation, by the agent or servant of such corporation, if there is a handle, loop, or fixture, so that the same can be attached upon the parcel or baggage so offered for transportation, and a duplicate thereof given to the passenger or person delivering the same on his behalf; and if such check be refused on demand the corporation shall pay to such passenger the sum of ten dollars, to be recovered in a civil action; *and further*, no fare or toll shall be collected or received from such passenger, and if such passenger shall have paid his fare, the same shall be refunded by the conductor in charge of the train, and on producing said check, if his baggage shall not be delivered to him, he may himself be a witness in any suit brought by him to prove the contents and value of said baggage.

28. *And be it enacted*, That in forming a passenger train, baggage, freight, merchandise, or lumber cars shall not be placed in rear of the passenger cars; and if they or any of them shall be so placed, the officer or agent who so directed or knowingly suffered such arrangement, and the conductor of the train, shall be deemed guilty of a misdemeanor and be punished accordingly.

29. *And be it enacted*, That a bell shall be placed on each locomotive engine and rung at the distance of at least eighty roads from the place where the railroad shall cross any traveled public road or street, and be kept ringing until it shall have crossed such road or street; or a steam whistle shall be attached to each locomotive engine and be sounded at least eighty rods from the place where the railroad shall cross any such road or street, except in cities, and be sounded at intervals until it shall have crossed such road or street, under a penalty of twenty dollars for every neglect of the provisions of this section, to be paid by the corporation owning the railroad, to be sued for by any informer within ten days after such penalty was incurred; one-half thereof to go to the informer and the other half to go to the county; and said corporation shall also be liable for all damages which shall be sustained by any person by reason of such neglect.

30. *And be it enacted*, That every such corporation shall cause boards to be placed, well supported by posts or otherwise, and constantly maintained across each traveled public road or street, where the same is crossed by the railroad on the same level; said boards shall be elevated so as not to obstruct the travel and to be easily seen by travelers; and on each side of said boards shall be painted in capital letters, of at least the size of nine inches each, the words, "look out for the locomotive;" but this section shall not apply to streets in cities or villages, unless the corporation shall be required to put up such boards by the officers having charge of such streets.

31. *And be it enacted*, That if any person shall, while in charge of a locomotive engine running upon the railroad of any such corporation, or while acting as the conductor of a car or train of cars on any such railroad, be intoxicated, he shall be deemed guilty of a misdemeanor.

32. *And be it enacted*, That every corporation formed under this act shall erect and maintain fences on the sides of their road, of the height and strength of a division fence required by law with openings or gates or bars therein, and farm crossings of the road for the use of proprietors of land adjoining such railroad; and also construct and maintain cattle-guards at all road crossings suitable and sufficient to prevent cattle and animals from getting on to the railroad; until such fences and cattle guards shall be duly made, the corporation and its agents shall be liable for all damages which shall be done by their agent or engines to cattle, horses or other animals thereon; and after such fences and guards shall be duly made and maintained, the corporation shall not be liable for any such damages, unless negligently or willfully done; and if any person shall ride, lead or drive any horse or other animal upon such road, and within such fences and guards other than at farm crossings, without the consent of the corporation, he shall, for every such offense, forfeit a sum not exceeding ten dollars, and shall also pay all damages which shall be sustained thereby to the party aggrieved; it shall not be lawful for any person other than those connected with or employed upon the railroad, to walk along the track or tracks of any railroad, except where the same shall be laid along public roads or streets.

33. *And be it enacted*, That in case any passenger or any railroad shall be injured while on the platform of a car, or on any baggage, wood or freight car, in violation of the printed regulations of the company, posted up at the time in a conspicuous place inside of its passenger cars then on the train, such company shall not be liable for the injury; *provided*, said company at the time furnished seats inside its passenger cars sufficient for the proper accommodation of the passengers.

34. *And be it enacted*, That the said company shall commence the proposed road within six months from the date of their organization, and if the said proposed road be not more than fifty miles in length, the said company shall open and complete at least one track of said road, within two years from the date of commencement, as aforesaid; and if the said road shall exceed fifty miles in length, the said company shall have an additional six months to complete their road for each twenty miles more than the fifty miles aforesaid; *provided*, the road shall be opened for public use in all cases when fifty miles of the track are laid; *provided, further*, that any company organized under this act and failing to comply with the provisions of this section, shall thereby forfeit the franchises given it by this act.

35. *And be it enacted*, That any company, association, person or persons, violating or neglecting to comply with any of the provisions of the first or second sections of this act, shall be liable to a penalty of two hundred and fifty dollars for each and every offence, to be sued for and recovered in the name of the State of New Jersey; one-half of which fines when recovered, shall be paid to the informer, and the other half into the county treasury, where the action shall be tried or the conviction had.

36. *And be it enacted*, That it shall be lawful for any company incorporated under this act, in addition to the power hereinbefore given, to build viaducts over any navigable or other rivers, streams or bay of water which said railroad may cross, putting in such viaduct a pivot draw with two openings, each of no less width than the widest opening in any viaduct or bridge now built over any such river, stream or bay of water at right angles to the main channel, located at a point convenient for navigation, and such company shall at all times, when such river, stream or bay is navigable, for the safety of persons navigating the same, cause to be kept a red light at each outer side of said draws, and a white light on each inner side of said draws, which shall be lighted every evening at or before sunset and be kept lighted till daylight, and shall also keep or cause to be kept, a suitable person or suitable persons at each of said bridges, to open the draws for the free passage of all vessels with standing masts or pipes; and for each and every neglect to keep such light, and to open the draws when necessary, the said company shall forfeit and pay the sum of one hundred dollars, to be recovered with costs, in any court having jurisdiction thereof, by any persons who shall sue for the same, within six months after the time of such neglect; *provided*, that corporations formed under this act shall not take any land under water belonging to this state until the consent of the riparian commissioners shall first be had and obtained, who are hereby authorized to convey the same on receiving such compensation as they may fix; *provided further*, that no corporation organized under this act shall be authorized to take, use or occupy by condemnation any lands belonging to the State of New Jersey, or any franchises, lands, or located route of any bridge, railroad, canal, turnpike, or other corporation chartered for the purpose of facilitating transportation, except for the purpose of crossing said lands or route of said corporation, and except the lands of such other corporations not necessary for the purposes of their franchises; *and provided further*, that a railroad may be located or constructed under this act on the surveyed route or location of any other railroad, with the consent of such corporation, and not otherwise; *and provided further*, that no railroad under this act shall cross another railroad at a less angle than forty-five degrees.

37. *And be it enacted*, That the governor, the chancellor, vice-chancellor, the justices of the supreme court and the judges of the court of errors of this state, secretary of state, state treasurer, comptroller of the treasury, clerk in chancery, clerk of the supreme court, adjutant general quarter-master general, state librarian, state prison keeper and superintendent of public schools of New Jersey, while traveling for the purpose of discharging the duties of their offices, and the members and officers of both houses of the legislature of this state shall pass and repass, free of charge on the railroad of any company incorporated under this act.

38. *And be it enacted*, That no franchise heretofore granted to construct a railroad, or to build or establish bridges or ferries, or operate any line of travel, and take tolls or fares therefor, shall hereafter continue to be or be construed to remain exclusive, and that no like franchise hereafter granted shall be or be construed to be exclusive, unless in such grant heretofore made or hereafter to be made it be so expressly provided, and the provisions of the second section of the act entitled "An act to prevent accidents on railways," approved March thirtieth, one thousand eight hundred and sixty-nine, shall not be considered to extend to or affect in any way or manner corporations which may be formed under this act; all corporations organized under this act shall be subject to all general laws, now or hereafter to be passed, regulating railroads and their operations.

39. *And be it enacted*, That this act shall be deemed a public act and shall take effect immediately, and the legislature may alter, amend or repeal the same, but such repeal or alteration shall not affect any corporations heretofore organized, unless the act making such repeal or alteration shall so expressly declare.

Approved April 2, 1873.

A SUPPLEMENT.

A Supplement to an act entitled "An Act to Authorize the Formation of Railroad Corporations, and regulate the same," approved April second, one thousand eight hundred and seventy-three.

1. *Be it enacted by the Senate and General Assembly of the State of New Jersey*, That railroad corporations, formed under the provisions of the act to which this is a Supplement, may establish and operate Ferries where the terminus or termini of the railroads of said corporations may be on the shores of any rivers or navigable waters of this state, for the transportation of persons and property on or across the same, subject to the rates of fare for passengers, and tolls for freight, as provided in said act on railroads, and may buy or build all vessels and boats, and do all things necessary or convenient to carry on such ferry or ferries, or the said corporations may make contracts or engagements with other ferry companies for the transportation of the passengers and freight of such corporation.

2. *And be it enacted*, That this act shall be deemed a public act, and take effect immediately.

Approved April 4, 1873.

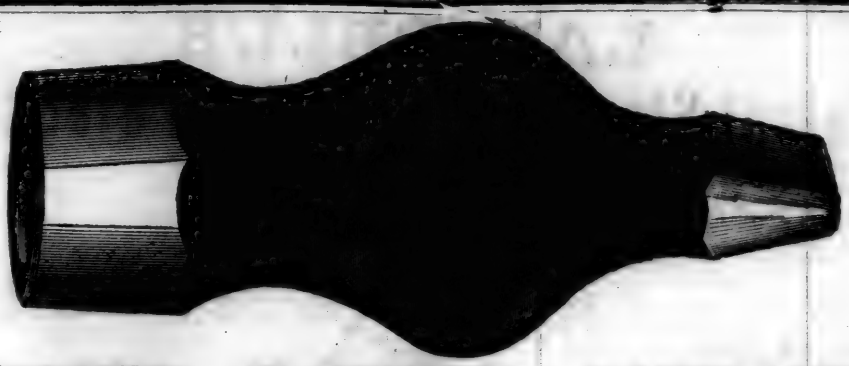
☞ The Springfield *Republican* says that Hawkins & Burrall, of that city, have contracted to build a wrought iron lattice bridge over the river at the west end of the Boston and Albany Railroad at East Albany.

☞ The grading and masonry of the first ten sections of the New Castle and Franklin Railroad are completed, and track laying will soon be commenced at New Castle. It is expected that the road will be in operation to Mercer, twenty miles, by July. The line from Mercer to Stoneboro, twelve miles, is to be put under contract at once.

☞ John. E. Lyon of Boston, Alex. H. Tilton of Tilton, Joseph P. Pitman of Laconia, Peter Butler of Boston, John L. Rix of Milford, John A. Parks of Boston and Joseph W. Lang of Meredith, were elected directors of the Boston, Concord and Montreal Railroad Company on the 26th inst.

☞ The officers of the Union Bridge Company, recently organized at Pittsburg for the construction of a bridge over the Allegheny River at the Point, are: President, Joshua Rhodes; Secretary, R. W. MacConnell; Treasurer, John E. Kidall.

☞ The St. Clair Street Railway of Toledo, Ohio, has been incorporated. The capital is $250,000; shares $2,500. The incorporators are: John S. Casement, Geo. Stebbins, J. R. Strong, and five others.



☞ The Bangor and Piscataquis Railroad Company has voted—4,381 to 1,334 shares—to execute a perpetual lease of its road to the consolidated European and North American Railway Company.

LANSDELL'S
Patent Steam Railroad Water Station.

DISPENSES WITH Tanks, Tank Houses, Stationary Power, AND Attendance.

CAN NOT FREEZE IN ANY CLIMATE, UNDER ANY CIRCUMSTANCES.

COSTS LESS Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

THE WHARTON

Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

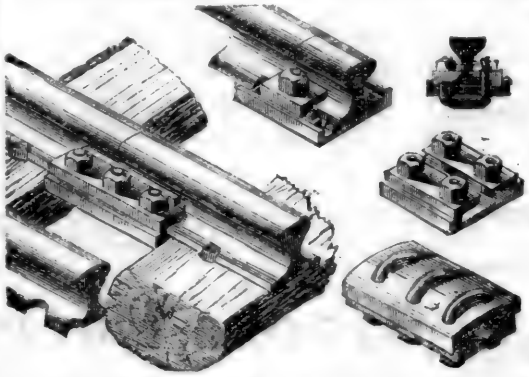
THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Interest on the Virginia Debt.

In connection with the payment of interest on the Virginia debt for July 1st, at the office of Asa Rogers, second auditor, in Richmond, Virginia, it is announced that the unpaid balances of interest for January and July, 1872, as provided by the act of March 19, 1872, will also be paid. The Richmond *Dispatch* says:

"It is well for the holders of stock which has not been funded to know that the old bonds or certificates must be presented to the second auditor, that the interest paid them may be stamped upon such stock.

"It is estimated that after paying the July 1873 interest and the arrearages of interest of 1872 there will be money enough in the treasury on the 1st of January, 1874, to pay four per cent interest which will then have accrued, and leave a balance of over $500,000 for the current expenses of the State government. Allowance is made in this estimate for the payment in 'tax-receivable coupons' of one-half of the public revenue due in December next, while the fact is that up to the present time a much smaller proportion of the revenue has been thus paid, the holders of large amounts of the bonds of the State believing it to be better to take the four per cent now tendered and the obligation of the State for the remainder payable hereafter."

INVESTMENT BONDS.

The Northern Pacific Railroad Company having determined to close its 7-30 First Mortgage Gold Loan at an aggregate not exceeding thirty million dollars, and thereafter to pay no higher rate of interest than 6 per cent. on further issues of its bonds, THE LIMITED REMAINDER OF THE **7 3-10** LOAN IS NOW BEING DISPOSED OF through the usual agencies.

As the bonds of this issue are made receivable in payment for the Company's lands at **1-10**, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.

The company now has more than 500 miles of its road built and in operation, including the entire Eastern Division connecting Lake Superior and the navigation of the Missouri river; it has earned title to nearly ten million acres of its land grant, and sales of lands have thus far averaged $5 66 per acre.

All marketable securities are received in exchange for Northern Pacifics.

JAY COOKE & CO.
No. 20 Wall Street, New York.

New York, West Shore and Chicago R. R.

The New York, West Shore and Chicago Railroad is engaged in Greene county in serving notices upon property owners, notifying them that a map and profile of the route intended to be adopted, and certified by the President and Engineer in Chief of the company, was filed in the office of the Clerk of the county. The line adopted at Catskill crosses the creek at an elevation of about sixty feet, just below the iron bridge, and passes northward through lands of Messrs. Cole, Hadden, Van Orden, Waltz, Rushmore and others. At Athens it just passes through the upper end of the village, and thence runs northerly to the upper village of Coxsackie. It crosses the "White Elephant" road twice and leaves it in Albany county, where it takes an air line to Chicago, saving over thirty miles.—*Hudson Register, June 4.*

Cairo and Fulton Railroad.

The Little Rock *Gazette*, of June 3d, gives an interesting account of a "pioneer trip" made over the completed portion of the Southern division of the Cairo and Fulton Railroad on the 29th ult., by the officers of the road and a few citizens. In its description of the road, and the excursion the *Gazette* says:

The first eight miles includes some of the heaviest work on the whole line, and is in almost perfect order. Three miles out the road strikes the bottoms of Fourche bayou, crossing the stream on a substantial bridge, and the bottoms by a high embankment. The first station is known as Linda, and the second one as Appleton, five miles and a half distant. The third station, Maplevale, is nine and a half miles from this city. The fourth station, thirteen miles, is Alexander. The next is Bryant's, sixteen and a half miles. The next is Benton, twenty-three miles. After stopping at Benton a few moments, the train passed on down to the Saline river a mile further on, and crossed on the new bridge, the work of the Baltimore Bridge Company. The train remained here some time and then passed on to the head of the work, where the track is being laid at the rate of a mile and three-fourths per day, which is accomplished with the aid of eighty experienced track-layers. After in-

specting the work, the manner of laying the rails etc., the party resumed the cars, and the train returned to Benton, when, after partaking of a bountiful repast and the passage of a series of complementary resolutions, the train started on its return to Little Rock, which it reached in safety.

Kansas Pacific Railway.

The earnings of this road for the years ending December 31, 1871 and 1872, were as follows:

	1871.	1872.
From freight	$1 980,289 57	$2,294,299 11
" passengers	1,082,645 94	1,100,197 51
" U. S. troops	73,938 35	72,426 82
" U. S. mails	63,163 80	82,935 84
" express	66,000 00	84,000 00
" rents	5,983 87	84,904 85
" individuals and companies	30,051 52	39,234 95
" sundry sources	10,444 78	15,714 10
	$3,312,517 83	$3,723,713 18
Expenses, viz:		
Conducting transp	$625,209 68	$615,865 64
Motive power	721,361 99	719,534 66
Maintenance of cars	200,545 06	176 322 70
Maintenance of way	601,979 45	604,261 83
General expenses	153,493 78	113,280 94
	$2,302,589 96	$2,229,265 77
Net earnings	$1,009,927 87	$1,494,447 41
To which add—		
Net receipts from Land Department		206,598 43
Joint traffic		6,777 44

Profit and loss—recovered property previously charged up		11,240 81
Total		$1,721,646 73
From which deduct—		
Construction	$133,204 83	
Equipment	6,000 00	
Real estate	2 234 75	
Interest on bonds	1,190,142 30	
Discount, interest and exchange	184,554 84	
Taxes—State, county & city for 1871 and 1872	165,402 65	
Insurance	29,164 29	
		1,660,703 66
Balance—excess of income		$60,948 07

Compared with the previous year the gross earnings of 1872 show an increase of $411,195 85, or 12.41 per cent, with a decrease in expenses of $73,324 19, or 3.18 per cent, making the increase in net earnings $484,519 54, or 47.98 per cent. The per centage of operating expenses to gross earnings in 1871 was 69.51, and in 1872 59.87, a decrease of 9.64 per cent. The number of miles operated was the same in both years, viz: 673.

The earnings from Government business for 1871 amounted to $292,203 25, and for 1872 to $252,512 56, a decrease of $39,690 69.

The freight tonnage for the year 1872 was (exclusive of 90,582 tons carried for the company) 848,966 tons, being an increase over 1871 of 71,798 tons, and amounting in mileage to 72,366,837 tons moved one mile, an increase of 21,695,872 tons, or 42.81 per cent over 1871, while the revenue therefrom exceeds by only 15.85 per cent that of the previous year. This disproportion in increase of revenue results from the policy of the company in reducing the charges for transportation as rapidly as the increase of trade would justify.

The average distance one ton of freight was carried in 1871 was 182.85 miles, against 207.37 miles in 1872, an increase of 24.52 miles.

The number of passengers carried in 1871 was 201,593, and in 1872 179,182, a decrease of 22,412. This decrease is wholly in the local business, and is attributable to the depression arising from the failure of crops and the falling off of immigration into Kansas for the year.

The average distance each passenger travelled in 1871 was 95.85 miles, and in 1872 115.38 miles, an increase of 17.48 miles. Equivalent number of passengers carried one mile in 1872, 20,664,369.

The company have 88 locomotives, 48 passenger, 19 baggage, mail and express, 313 box, 95 combination, 175 stock, 275 platform, 182 coal and 38 service cars. The number of miles run by locomotives in 1871 was 2,470,914, and in 1872 2,475,270, an increase of 4,356.

The cost of locomotive service in 1871 was 24.18 cents per mile run; in 1872 it was 23.34, a decrease of 0.84 cent. The number of miles run to one ton of coal was 42.17; to one quart of oil 28.29. The total decrease in expense of maintaining and operating locomotives as compared with 1871 was $19,710 41. The report says:

The present equipment of the road is sufficient for the business of the present year, with the exception of Pullman sleeping cars, and cars adapted to the transportation of stock. An additional number of each of these kinds must be provided. The locomotives and passenger cars are in excellent condition.

During the year 1872 eight box cars were added to the equipment; and two sleeping cars, one directors car, five passenger cars, two mail cars, eleven caboose cars, four combination cars, eleven box cars and thirteen coal cars, were rebuilt at the shops of the company.

During the year the condition of the roadway has been materially improved. At Secondine 1.38 miles of road were relocated and rebuilt, reducing the grade at that point from seventy-two to sixteen feet to the mile. Many of the trestle bridges on the Kaw Valley division have been replaced with permanent stone structures, and during the year, many other temporary structures on this division have been replaced by those of a permanent and substantial character. The Howe Truss bridge, over Stranger Creek, has been replaced by a combination bridge with iron chords. On the Smoky Hill division many improvements have been made; side tracks extended, cattle yards erected, and a very substantial stone hotel built at Ellis. The cost of rebuilding the line at Secondine—of the permanent structures on the Kaw Valley division—and, indeed, of nearly all the improvements made, has been charged to expenses.

The transportation of cattle over your road continues to increase, notwithstanding the sharp competition from other lines; and so well understood are the unrivalled advantages of the grazing grounds on the line of your road, and so thoroughly appreciated are the facilities afforded by the company for the accommodation of this trade, that a business larger than ever before is expected for 1873.

Stock raising has increased to such an extent in Colorado that, during the past year, the demand for cars to accommodate the trade of that territory was greater than your company could well supply. To meet this rapidly growing business it is necessary to provide an increased amount of rolling stock, and two hundred and fifty additional cars will be needed this year.

The operations of the Land Department during the year were as follows:

Number of acres sold	68,851.29
Number of town lots sold	53.00
Aggregate amount of land sales	$201,566.71
Aggregate amount of lot sales	1,725.00
Average rate per acre	2.90
Average rate per lot	32.55

The proceeds of all sales of lands are placed in the hands of the trustees for the redemption of bonds, there being two trusts, known as the Kansas Pacific Land Grant Trust, and the Denver Extension Trust. The former covers 2,000,000 acres of the lands lying east of the 380th mile post, and secures a first mortgage of $2,000,000, and a second mortgage of $1,500,000.

The net proceeds of sales of lands and lots for accounts of the Kansas Pacific Land Grant Trust, amounts for the year 1872 to	$185,685 06
Amount previously in hands of trustees in cash and notes	402,481 04
Making	$588,166 10

already placed in the hands of the trustees for the redemption of the first mortgage (2,000,000) Kansas Pacific Land Grant Bonds.

Of these bonds the trustees have purchased and cancelled, to December 31st, 1872, $179,000, for which they paid in cash	153,583 75
Balance in hands of the trustees for the redemption of these bonds, in cash and notes	$434,582 35

with 1,808,865.73 acres of land unsold.

This statement shows that of the lands embraced in this trust the per cent (191,634.27 acres) sold has yielded an amount equal to 9.58 80.68 per cent of the first $2,000,000 of bonds, or 17.53 per cent of all bonds.

The Denver Extension Trust covers 3,000 000 acres of the most westerly lands on 236 miles of road, and with the first mortgage on said 236 miles of road forms the security for the $6,500,000 bonds, known as the Denver Extension Bonds.

The proceeds of sales of lands for account of this trust in 1872 were	$22,037 92
Amount previously in hands of trustees in cash and notes	123,329 66
Making	$145,367 58
Of these bonds the trustees have purchased and cancelled $45,000, and paid for same in cash	$41,127 50
Balance in hands of trustees, in cash and notes, for redemption of these bonds	$104,240 08

The immigration into Kansas during the year was very light, the opening up of new fields by railways north and south of your line having had the effect of diverting settlements from central Kansas. This is however, but temporary, and from the inquiries now being made for land and the number of persons seeking locations in Kansas and Colorado, it is believed the influx of settlers into the country tributary to your road will be greater this season than in any previous year. The indications of the early occupation by settlers of the lands of the company lying in the western counties of Kansas, as mentioned in the Fifth Annual Report, have now developed into certainties, and large sales of lands, deemed at one time of problematical value, are now being made to bona fide settlers, as far west as the 300th mile post, and this part of Kansas is now receiving its full share of immigration. The development of that part of the country between Ellsworth and Ellis has been rapid during the past year, and your board deem they have good cause to congratulate you upon the number and condition of the settlers now making homes on the great plains.

On the 18th day of September, 1872, as required by act of Congress, the president of your board made affidavit that your road was completed in its full length, and made application for a board of commissioners to examine and report on the same. The commission was appointed, and upon examination reported to the Secretary of the Interior that "the commissioners have found and report that the Kansas Pacific Railway and Telegraph Line, from the 393.9425 mile to the end thereof at Denver are completed; that the railway is supplied with all necessary drains, culverts, viaducts, crossings, sidings, bridges, turnouts,

watering places, depots, equipments, furniture and all of the appurtenances of a first-class railroad; that the rails and all other iron used in the construction and equipment of the road are of American manufacture of the best quality," and on the 19th day of October, 1872, the road was formally accepted by the Government as completed in accordance with the requirements of law.

The Junction City and Fort Kearney Railway Company has completed thirty three miles of its line from Junction City to Clay Centre, the county seat of Clay County. The line has been located to the western boundary of that county, and, except in a few cases, the right of way obtained. A part of the grading from Clay Centre has been done, and as soon as this road is pushed as far west as Concordia, the county seat of Cloud County, about forty miles north-west of Clay Centre, it will prove a valuable feeder to your main line By arrangements made to facilitate and aid the construction of this line, the control of the company is now in your hands, the majority of the stock being owned by you, and the road is now being operated in the interests of your company. The construction of this line should be continued until it opens up the coal and salt deposits of the upper Republican Valley and the rich agricultural country embraced in the limits of Cloud and Republic counties.

It is a matter of regret that the arrangements originally made for the building of the line from Kit Carson to Fort Lyon on the Arkansas river, as mentioned in the last annual report, failed. By means, however, of the Arkansas Valley Railway Company, new plans have been formed, and it is hoped that, by judicious aid to this organization, the rails will be laid to Fort Lyon during the summer. The road-bed has been graded to Fort Lyon and the line from thence to Pueblo surveyed and located, and about twenty miles of the distance graded. Your attention is called to the importance of this line in securing the trade of the upper Arkansas Valley. No other part of Colorado is receiving greater numbers of permanent settlers, and those now seeking this region possess more than ordinary enterprise and means. The developments already made of the agricultural and mineral resources of that portion of the territory demand increased railroad facilities, and it is important that measures should be promptly adopted to permanently secure its trade to your road.

The completion of eastern lines to Leavenworth has been advantageous to the traffic of the Leavenworth branch of your line, and a contract has been entered into with the Leavenworth, Lawrence and Galveston R. R. Company, by which this branch is operated jointly with that company. Under this agreement through trains are now run, and Leavenworth has direct communication with southern Kansas, an advantage of which its enterprising merchants and citizens are prompt to avail themselves, and which it is hoped will result in increased prosperity to a city with whose interests you are so directly identified.

The advantages secured to your company through the control of the Denver Pacific Railway have proven as great as was anticipated at the time of its transfer to you, and when it shall be operated as directed by an act of Congress as "a connected continuous line," as a link in the chain of Pacific Railroads between your road and the Union Pacific, it will become a paying line. It is to be regretted that no satisfactory arrangement has yet been made with the Union Pacific by which the intentions of Congress can be carried out.

Over the Denver and Boulder Valley Railway the supply of coal for the city of Denver, the Denver Pacific Railway and your main line is carried, and by its construction the cost of fuel consumed by your company has been materially decreased. Its value to your company in this respect has been very great.

The results, obtained by the experiments made by the Industrial Agent of the Land Department have been of great service to that department. With very scant means, not at all proportionate to the work, Mr. Elliott has fully demonstrated that the great plains are productive and valuable. Three small experimental farms were opened under his management at Bosland, (formerly Wilson,) Ellis, and Wallace. At Bosland, 239 miles west from State Line, "where in 1870 all was prairie, and the buffalo in sight in 1872," wheat, rye, corn and sorghum grew so well and yielded so finely that all experiments on the part of the company have ceased here, settlers having taken up the land rapidly; and the thriving villages of Bosland, Bunker Hill and Russell give indisputable evidence of the growth and progress of the country and the value of the lands for agricultural purposes. The ground at Bosland, plowed and fenced for these experiments, is now planted in trees, the growth of which is very satisfactory. The second farm, located at Ellis, 302 miles west of State Line, has proved of equal benefit and the results are the same. There is no longer any necessity for the company to continue its efforts at this point, as the settlers, satisfied of the productiveness of the land, are opening farms and sowing grain. "Wheat grown here was pronounced by an experienced miller of St. Louis to be of superior quality, and rye compared well with that from Illinois, to which the first premium was awarded at the St. Louis Fair." Corn also grew well. So abundantly do cereals produce on this portion of the plains that it is now almost a wonder that their growth should ever have been doubted. The results at Wallace, 422 miles from State Line, have not been so complete. Rye grows remarkably well; sorghum, millet and hungarian grass also: all without irrigation. Some varieties of trees made a fine growth. Experiments will be continued at this point.

No General Account is given in the Report. The Funded Debt, amounting December 31, 1872 to $21,200,350, (exclusive of Government Subsidy Bonds) is fully described on page 753 of this week's issue. The statement of Resources and and Liabilities at the close of the fiscal year is as follows:

RESOURCES.

Miscellaneous investments & assets.		$2,428,546 08
Cash on hand		338,152 54
Value of material on hand		290,500 10
Due from agents and conductors		137,788 95
Due from other companies		393.962 75
Due from individuals		40,871 11
Due from U.S. Governm't	$126,919 34	
Less fifty per cent to be retained by U. S. Treasury Department	63,459 67	
		63,459 67
Bills receivable, including Land Notes, outside of sinking fund		759,624 88
Receipts from Land Sales in hands of Trustees		538,822 43
Total		$4,991,728 51

LIABILITIES.

Bills payable—including sight loans.	$1,778,877 44
Due on audited accounts including pay rolls, vouchers, unclaimed wages and coupons	758,477 35

President.—ROBERT E. CARR.

Vice President—ADOLPHUS MEIER.

Directors—Robert E. Carr, Adolphus Meier, Carlos S. Greeley, Edwin Harrison, John D. Perry, S. M. Edgell, B. W. Lewis, Jr., and F. W. Meister, of St. Louis, Mo.; Thomas A. Scott, Philadelphia, Pa.; John McManus, Reading, Pa.; Mathew Baird, Philadelphia, Pa.

Treasurer.—CARLOS S. GREELEY.

Auditor.—S. T. SMITH.

Secretary.—CHAS. B. LAMBORN.

General Superintendent.—EDMUND S. BOWEN.

Pacific Mail Steamship Company.

The following statement of the financial condition of the Pacific Mail Steamship Company was presented by the Executive Committee to the directors on the 6th inst., and adopted by the latter:

ASSETS MAY 31, 1873.

Cash in bank		$31,940 87
Cash in hands of Howe Machine Co., London		28,000 00
Drafts on U. S. Navy Department remitted by agents and collections for freight due by New York Agency		66,696 82
$100,000 U. S. 5 per cent bonds hypothecated		115,500 00
Due by Union Pacific Railroad Co		67,543 00
Total		$309,680 69
Less—		
Due Panama Railroad Co. —Call loan	$100,000 00	
Due May bills for supplies unpaid	30,000 00	
Due May bills for coal freights unpaid	20,000 00	
Due Panama Agency drafts accepted	16,000 00	
Due in May on account of contracts for steamers and engines	123,000 00	
		289,000 00
Net		$20,680 69
Cash in hands of pursers and agents, estimated		185,876 18
Investments—		
500 shares Panama Railroad stock, value	$55,000 00	
2,085 shares California Dry Dock, cost	101,835 99	
		156,835 99
Total		$312,892 86
Call loans due by Isaac Taylor, unsecured, borrowed of the company February, 1867, now in suit		$25,000 00
Notes Howe Machine Co., indorsed by A. B. Stockwell, due, $100,000 each, July 1, August 1, Sept. 1, October 1, November 1, December 1, 1873, and January 1, February 1, 1874, and $40,000 May 1, —, all of the above disputed		840,000 00
		$865 000 00
Coals—amount on hand, estimated		$1,150 000 00
Outfits and supplies on hand, estim'd		350,000 00
		$1,500,000 00

LIABILITIES.

New steamers—estimated cost of 8 built and in process of building	$4,500,000 00
Less amount paid on account of same	2,663,881 13
	$1,836,118 87
Repairing wharf at Aspinwall, estimated	76,000 00
Amount for which provision is to be made, in payments of $200,000 monthly	$1,911,118 87

The company own a large amount of valuable real estate, wharf property, &c., at San Francisco, San Diego, Portland (Oregon), Acapulco, Panama, Aspinwall, Hong Kong, Shanghae, Yokohama, Hiogo, Iragasaki, &c., &c., estimated by the report recently made at $2,009,831 77.

The total number of steamships owned by the company is 34, but to these the committee think it unwise to fix any valuation, as they intend to have them appraised at as early a date as possible.

Receipts for the year ending May 1, 1873	$5,785,210 63
Total expenses, including all repairs, &c	4,958,521 61
Net receipts	$826,689 02
Steamers lost during the year—	
America	$1,017,942 22
Sacramento	600,000 00
Guatemala	$60,000
Less insurance	20,000
	40,000 00

$10,000 of the amount of insurance on the Guatemala is still in suit.

The steamers are valued as per estimates last published, at $1,657,942 22.

Canton Company.

A meeting of the stockholders of this company was held in Baltimore on the 6th inst, Jacob Rubins, of New York, presided, with Wm. Dean as Secretary. The report of the President and Directors, also the annual statement of the Treasurer, and reports of the Trustees of the Sinking Fund and President of the Union Railroad Company were read. The following resolutions were offered by Charles J. Baker, and unanimously adopted:

Resolved, That the Board of Directors be, and are hereby authorized and empowered to declare a dividend of such ascertained amount of funds so diverted, and return the same to the stockholders, in such manner and at such time as shall be judged by them most expedient.

Resolved, That the remainder of said bonds shall be used and disposed of by said Board of Directors, in their discretion, for the improvement and development of the property of the company, and also for the promotion and furtherance of its interests, and also the general purposes thereof, as authorized by its charter: provided, however, that no dividend shall be declared or made payable out of said bonds, or proceeds thereof, except the dividend above authorized.

Resolved, That in creating the sinking fund mentioned in the foregoing resolution due regard shall be had to the rights of the holders of the bonds of said Canton Company, issued under and by virtue of the act of General Assembly of Maryland, passed in 1872, chapter 69, entitled "an act to amend the charter of the Canton Company of Baltimore."

The election of Directors for the ensuing year was then proceeded with. Messrs. George S. Brown, Chas. Weber and Wm. Kimmel, the judges of election, opened the polls and proceeded to receive the ballots, the result of which was the unanimous election of the following gentlemen as Directors for the ensuing year: James H. Banker, William Mertens, William Butler Duncan and Samuel L. M. Barlow, of New York; Charles J. Baker, George S. Brown, William G. Harrison, Charles Weber and S. Sprigg Belt, of Baltimore.

The President of the Company, C. J. Baker, Esq., in submitting his annual report to the stockholders congratulated them upon the completion of the Union Railroad tunnel, which will be formally opened to travel and trade in a few days. After referring to the various hindrances which befel the enterprise prior to 1870 the report recounts the final action of the Canton Company in regard to the great work as follows:

"The enterprise seemed again to fail, when Wm. G. Harrison, the President of the Union Railroad, fully alive to the vast importance of the work, and impressed with its great value to the Canton Company, addressed a letter to your President in which was clearly and forcibly set forth all the advantages that must result in enhancing the value of Canton lands and her extended water fronts, and which, after being laid before the directors and stockholders, and duly considered, it was *unanimously determined*, at a general meeting of the stockholders, held October 28, 1870, that the true interests of the Canton Company demanded that she should subscribe for the *whole amount of the stock* of the Union Railroad Company, and endorse the whole $900,000 of its bonds, and to build the entire road, without asking the aid or co-operation of any. The work was not, however, let to the contractor until the spring of 1871, and since which time this stupendous undertaking has progressed without any intermission, notwithstanding the serious difficulties and obstacles encountered, until to-day we are able to present you a great work and a grand tunnel second to none in importance in this country or Europe. Considering the magnitude of the work, the wonder is that it has been completed in so short a time.'

The course of the Union Railroad is given as follows:

"The Union Railroad commences at present at its junction with the track of the Northern Central Railroad, near Charles St., and its terminus at tide-water at Canton, and together with its eastward branch, connecting with the Philadelphia, Wilmington and Baltimore Railroad, makes about 7¼ miles of double track road—making with sidings and switchings about 18 miles of rails. It is laid with a heavy 72-pound iron rail. The great Union Tunnel is ⅝ of a mile long, and is excavated 50 to 70 feet deep, and double arched. It runs under Greenmount avenue and under the bed of Hoffman street, through the city, passing under the beds of ten streets and avenues, until it emerges at its eastern mouth and passes over Broadway and Belair avenues by handsome iron bridges. On a graceful curve it crosses Ann, Biddle and Chase on to Eager streets, and thence along the bed of same at grade until it extends into Baltimore county, and curving thence eastwardly, one branch connects with the P. W. and B. Railroad, making the all rail through route to Philadelphia and New York. The other track goes due south until it reaches the lands of the Canton Company, through which it passes over three miles, until it terminates at tide-water on Ninth street."

Touching the revenue to be derived from this road, the President says:

"The charter allows the Company to charge as the maximun rate ten cents toll per mile, per passenger, and five cents per ton per mile for freight. The passenger mainly will travel over three and a-half miles of the road, and the freight must go over seven miles.

"By actual count 1,100 passengers average per day go to and from Baltimore on the P. W. & B. Railroad, say, in round numbers, 400,000 passengers for the year—300,000 would certainly prefer the Union Tunnel route, which is direct and unbroken, all by steam—at 35 cents would make $105,000, Two millions of tons of coal, iron, lumber, oil and other merchandise would be a small estimate per annum at five cents per ton or say 30 cents for the seven miles, would make an income of $600,000."

With regard to the business operations of the Company for the past year the report says:

"The business operations of the Canton Company for the past year have been very satisfactory, and especially so for the last three months, the total amount of sales and leases being largely in excess over any previous year. The aggregate amount of sales of land annuities and houses being $239,631 16, and that of leases executed and under negotiation to the value of $398,800 yielding an annual rent of $23,898, making a grand total of $637,931 16.

"The erection of a large grain elevator, to be built of brick and iron mainly, is now under consideration. The grain will be shipped via the Northern Central Railroad and other roads, and over the Union Railroad to the elevator at tide water.

"A large car wheel works has been established on land formerly leased by the Canton Company, and is now in successful operation. A large locotive works, with a capital of not less than half a million, is under formation, and also a large car and coach building works.

"A suitable section of the Canton property has been set apart for saw mills and planing works, and the lumber yards connected therewith. Two parties are negotiating for two lots of from three to six acres each, with ample water front. A branch of the Union Railroad will be extended to said property as soon as the improvements are commenced."

The report of the Treasurer shows the receipts to have been for the year $711,214 51, of which $540,000 was the net proceeds of sale of Canton bonds, issued to pay the balance of stock subscriptions of the Canton Company to the Union Railroad, leaving $171,214 50 received from other sources.

A sinking fund for the redemption of the second mortgage bonds of the Union Railroad, endorsed by the Canton Company, has been created by conveying to the trustees of the former trust $173,483 33 of ground rents, yielding an annual income of $10,400. This fund, with its accretions, will fully liquidate the bonds in gold in 1900, as well as setting apart one-fifth of same to redeem the Canton bonds issued in July last, as required by the compact, and redeemable in 1882.

The sinking fund of the first mortgage bonds now amount, with its accretions, to	$2,511,550 67
Union Railroad bonds purchased	86,500 00
The Canton Company Sinking Fund	3,482 50
Union Railroad bonds purchased	3,000 00

The disbursements are $719,523 90, of which $474,000 was paid on Union Railroad stock subscription, $20,000 on call loan account, $74,802 07 on bills payable, and $20,256 44 interest on Canton bonds due January 1, 1873. The large amount of the balance of the disbursements has been for grading, opening, paving and shelling streets and roads, and building wharves, &c., all of which is a permanent improvement to the Company's property.

Illinois Central Railroad.

At the annual meeting of the stockholders of this company, held in Chicago on the 28th ult., the President submitted the following statement for the information of the shareholders:

Your property comprises 705¼ miles of main track, and 127 miles of sidings and double track, 197 locomotives 4,772 freight and passenger cars.

With the exception of 2,810 feet of wooden bridges to be replaced with iron, all the bridges and culverts are of masonry and iron.

The right of way on the major part of the line is 200 feet in width.

The station property now enclosed at Chicago upon the lake shore embraces fifty acres.

Generally, at other stations, all the land required in advance of any possible want for many years is secured.

There is no engagement with any car association, either freight or passenger, for using the lines of this company. It has adhered to the policy of building and owning the entire rolling stock.

The engagements with other companies are: First, annual payment of $75,000 per annum, for the use of part of the Toledo, Peoria and Warsaw Railway Line, between our main line and branch, which contract is a source of profit. It expires in about six years.

The lease of the line from Dubuque to Sioux

City, 326.58 miles, was for twenty years; by the payment of 35 per cent for ten years, and 36 per cent for ten years, upon the gross traffic received upon that line.

The Dubuque and Sioux City Company had leased the Cedar Falls and Minnesota Road, agreeing to pay $1,500 per mile per annum, for its use, which was assumed. This road was 75.58 miles in length.

This company has engagements to devote from fifteen to twenty-five per cent of the gross traffic derived from several connecting lines, to the purchase of their bonds.

These obligations are of trifling importance, with the exception of the engagement made with the railway from Cairo to New Orleans, now under construction. To secure this important connection, the directors authorized setting aside twenty-five per cent of the gross receipts, devoting it to the purchase of the bonds of the two Southern Companies, agreeing to accept tender at not exceeding par, for at least one hundred bonds of each company each year.

Our traffic to and from the South is growing in importance. Last year the business exceeded $1,000,000. With the direct railway connection we may look for a large increase upon this traffic at an early period.

The total outlays as shown in the general balance sheet of 31st December last were.....	$34,224,092 06
The working stock of supplies....	745,961 68
Making....	$34,970,053 74

To which should be added the loss of interest paid during the construction of the road, and until the earnings exceeded the interest charged, $3,576,802 37, making $38,546,356 11.

The directors have ordered $290,000 to be added to the sum of $2,761,500 now in the "sinking fund," which, with the interest to accrue before the maturity of the bonds, will discharge the construction mortgage debt.

With this adjustment the $38,546,356 11 is represented by

Redemption bonds due 1st April, 1875....	$2,500,000 00
Redemption 6 per cent currency bonds, due 1st April, 1890.....	2,500,000 00
And stock....	25,500,000 00
Making an aggregate of.....	$30,500,000 00

Which is $8,000,000 less than the cost of the property.

The company held January first, obligations for $1,472,562 15 on contracts for lands sold, and had 344,368 acres of land for sale.

The original engagement with the State of Illinois stipulated that, at the expiration of ten years after the completion of the line, the unsold land should be offered at public sale. The company considers that it has fully complied with this requirement, but in view of the feeling entertained in the State, and the recent action of its Legislature, it is desirable to close out these lands, even at a sacrifice, to avoid any difference with the State authorities upon this subject. Pending negotiations for about 300,000 acres of this land will probably be concluded upon terms which will aid in providing for the Redemption Bonds due in 1875.

The President has the satisfaction to express to the shareholders the belief that the causes which led to so large a diminution in net results of the operation of the road last year are gradually being remedied, and that the efforts making by the Trunk lines, leading to the East to accommodate a larger traffic, with a better present supply of vessels upon the lakes have already produced higher prices for grain at Chicago, and that the benefit to be derived from the New Orleans line, will doubtless commence early in the autumn. Thus we may look for an increasing traffic during the remaining months of this year.

In this connection it may not be superfluous to state in view of the alarm which has disturbed the minds of many railway shareholders by the unexpected transfer of the management and control of several railway properties in this country, that upwards of nine-tenths of our capital stock is registered in the names of investors, and that the number of shareholders has so largely increased that the control of this property can only be obtained by actual purchase. It is desirable that the shareholders should renew their proxies each year, and give specific instructions if a change in the board of directors is desired.

Atchison, Topeka and Santa Fe Railroad.

The annual meeting of this company was held at Topeka, Kansas, on the 22d ult., the President, Hon. Ginery Twitchell, in the chair. After some preliminary business, the meeting proceeded to the election of a board of directors. The whole number of votes cast was 64,885—all of which were for the following gentlemen: Ginery Twitchell, Thomas Nickerson, Joseph Nickerson, F. H. Peabody, Alden Speare, George B. Wilbur, Isaac T. Burr, and B. P. Cheney, of Boston; Henry Strong, of Chicago; C. K. Holliday, Thomas J. Peter and D. L. Lasin, of Kansas; and George Opdyke, of New York. This is the old board with the exception of Mr. Raymond of Boston and Mr. Sherbrook of Cincinnati, both of whom decline a re-election. Mr. Twichell declined before the ballot to serve any longer as president, and Mr. Burr as vice-president, and resolutions were unanimously adopted in recognition of their services. After which the president submitted the following report to the stockholders:

To The Stockholders of the Atchison, Topeka and Santa Fe Railroad:

The year ending March 31, 1873, has been the crisis in the affairs of your road. The charter was granted March 3, 1863. The route prescribed was from Atchison on the Missouri river to the western boundary of the State of Kansas, in the direction of Santa Fe, New Mexico, a distance estimated at 500 miles. The time for completion was limited to ten years, which expired March 3, 1873. Five years and six months were allowed to pass without commencing operations. In September, 1868, the charter was transferred to new parties. Thirteen per cent of the stock is now held in Kansas and the West, twelve per cent in New York, and seventy-five per cent in New England. In 1869, 28 miles were built; in 1870, 34 miles; in 1871, 75 miles. The western boundary of Kansas not having been established we estimated the remainder to be built at about 343 miles. The time for the completion of the road and telegraph was limited, and only one year remained. The consequence, if it should not be completed within the time would be serious. The advancing cost of materials and rates for money, the waning confidence in great public enterprises of this kind and their management, the fact that five millions of money would have to be raised presented serious difficulties and embarrassments. An effort was made in Congress to get the time for completing the road extended for two years, but in view of the delay and the uncertainty of favorable action during the exciting and all-absorbing Presidential contest, when politicians consult policy sometimes at the expense of good faith and principle, the directors on the 22d of March, 1872, voted to make the arrangements and efforts necessary to complete the road within the year. The means were provided, and the work completed, but the advance in materials, the tightness in the money market, the indispensable and unprecedented rapidity with which it was performed, have increased the cost more then six hundred thousand dollars.

The road was completed and cars run over the entire line from Atchison, on the Missouri river, to Sargent, on the western boundary of Kansas, 469¼ miles on the 28th day of December last thus 332½ miles were built in less than nine months. The road is well built with a good quality of rails fish jointed, laid upon oak ties, transported on an average more than 500 miles. It runs by the side of the Arkansas river for 300 miles, is of easy grades and curves, and is equipped with 38 first-class engines and 700 cars, as will appear by the report of the general superintendent. The amount of business upon it for a new road in a new country is unprecedented. The earnings for the portion operated last year were over $4000 per mile of road per year. Five thousand dollars per mile extended over the entire road will pay the running expenses and interest on the cost of the road. We do not expect to earn that amount this year or the next, but we do confidently hope to do so at the end of the third year. The earnings of the Boston and Worcester Railroad the first year after it was opened to Worcester were only $2,395 per mile of road. The third year they were $4 720, the last year of its separate existence (1867) they reached $28,152.

The business on the line of your road in Kansas has increased more rapidly than it did on the line of the Boston and Worcester for the same length of time, and the company having the control of the lands and tariff have it in their power to more than double the business at all new points in one year. The financial condition of the company will appear by the treasurer's report.

In addition to the road built and owned by the company we are operating a branch from Newton to Wichita, 27½ miles long, at a rental of 35 per cent of the gross earnings. The Texas cattle are transported over this branch in large quantities. It now ends at the border of the Osage Indian Trust Lands, but may, and probably will, be extended through these lands and the Indian Territory to Texas at no very distant day. The main road now terminates at the boundary of Colorado; the whole distance from Atchison to this point was estimated before the boundary was established by the United States Government at 500 miles, but the actual distance as the road is built is 469½ miles, making with the Wichita branch (27½ miles) 397 miles operated by the company. This road will eventually form an important link in the great line between the Atlantic and Pacific, passing through the most valuable and productive mining region of Colorado and New Mexico. A bill giving a right of way for the extension of the road passed the House of Representatives at its last session, but was left on the table of the Senate with other unfinished business. A territorial charter, however, has been obtained and will be used for its extension whenever the company holding the charter think it expedient.

The route is feasible and desirable, and is certain to be occupied at no distant day.

The land secured to the company by the building of the road within the time prescribed is 6,400 acres per mile of road, or 3,004,800 acres. The quality of the land is not excelled by any in the State or country. The country through which the road passes has been aptly called "the garden of Kansas." At $1 per acre, the proceeds of these lands will pay the entire cost of the road. The plan adopted for their sale and the terms of payment are desirable and easy for the purchaser. The enterprise appears to be a public and private success, judiciously planned and economically executed. It requires honesty, capacity, and constant application, to assure its continued healthy growth and future prosperity.

The professional and practical qualifications of your future president, the competency and fitness of your other officers tested by experience, and the high character of your trustees, offer the best guarantees for its future success. Appended are the reports of the general Superintendents of the road and lands, and the treasurer's trial balance, all of which is respectfully submitted.

GINERY TWICHELL, President.

Boston, May 1, 1873.

After the meeting the directors met and organized by the choice of Mr. Strong as President and Mr. Thomas Nickerson as Vice President.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of May, were:

ENTERED FOR CONSUMPTION.

	1872.	1873.
Manufactures of wool.....	$943,994	$800,213
" cotton...	1,718,795	1,142,275
" silk	1,678,295	969,385
" flax	935,842	788,914
Miscellaneous dry goods..	679,752	484,304
Total entered for consump.	$5,956,678	$4,185,091

WITHDRAWN FROM WAREHOUSE.

	1872.	1873.
Manufactures of wool.....	$820,186	$888,035
" cotton...	441,607	742,729
" silk.....	602,048	734,758
" flax	380,630	495,535
Miscellaneous dry goods..	188,056	169,923
Total withdrawn from warehouse	$2,432,527	$3,025,980
Add entered for consump.	5,956,678	4,185,091
Tot. thrown on the market.	$8,389,205	$7,211,071

ENTERED FOR WAREHOUSING.

	1872.	1873.
Manufactures of wool....	$1,197,196	$779,848
" cotton...	792,784	385,624
" silk.....	768 625	287,188
" flax	784,036	352,281
Miscellaneous dry goods..	822,003	161,011
Total entered for wareh'g.	$3,864,594	$1,965,952

1873	120,955,449

Finances of Ohio.

The Commissioners of the Sinking Fund have filed with the Governor their report for the six months ending on the 15th of May. The balance in the treasury on the 15th of November, 1872, was $243,047 03; the receipts for six months ending May 15, 1873, were $762,668 74, making a total of $1,005,715 77. The disbursements amounted to $711,482 10, leaving a balance in the treasury on the 15th of May of $294,233 67. The amount on deposit in the American Exchange National Bank of New York, for the redemption of the funded debt, was $37,242 02. The total amount, therefore, of the sinking fund on hand on the 15th of May was $331,475 69. On the 15th of November, 1872 the funded debt was $8,583,546 37. The redemptions during the six months amounted to $227,164 27, leaving outstanding on the 15th of May $8,356,382 10, of which $8,354,717 10 is payable in New York, and $1,665 in Columbus.

Statement of the Public Debt of the United States June 1, 1873.

American Railroad Journal.

Saturday, June 14, 1873.

Stock Exchange and Money Market.

The last weekly exhibit of the city banks was unusually favorable to an easy Money market, and call loans were quoted off to 4@6 per cent, with choice to good mercantile credits rated at from 6@8½ per cent per annum, on a moderately active, though not urgent inquiry for accommodation. Lenders have shown most partiality for temporary and short date loans, with a view to keeping their means, well under their control, in anticipation of a livelier demand, and more remunerative rates, for Money in the Fall. The foreign financial advices have been of a more encouraging tenor. The private Cables from London and the Continent point to an early release of a large amount of the new Gold Coin now locked up in the Berlin Imperial Mint. The French Government has just paid $50,000,000 additional on the Franco-German Indemnity, and the Bank of France has ample reserves in Gold Coin out of which to pay over $150,000,000 additional in July, August and September, to complete the whole Indemnity. The British and American Funds are fair in London, and other American Stocks, like Erie, are quoted as on the advance. Our city banks, last week, added largely to their deposit and specie averages, while also handsomely augmenting their legal tender reserve, and contracting their loan and discount items, as well as their circulation. The Sub-Treasury increased its currency, and reduced its coin balance, considerably, as the result of the week's business.

The U. S. Secretary of the Treasury has issued another call for $20,000,000 five-twenties for payment, interest to cease on September 6; making in all $70,000,000 thus far called in connection with the operations of the Syndicate. The call embraces $16,000,000 of coupon bonds and $4,000,000 of registered. The following are the numbers of the bonds called: *Coupon.*—Of $50, Nos. 1,201 to 6,200 inclusive; of $100, Nos. 4,753 to 20,000; of $500, 3,000 to 10,700; of $1,000, 5,734 to 22,600. *Registered Bonds.*—$50—1,234 to 1,320. $100—8,804 to 9,500. $500—5,361 to 5,700. $1,000—20,681 to 23,300. $5,000—6,403 to 7,500. $10,000—7,093 to 9,680 inclusive.

On Tuesday, Government disbursed through the local office $2,100,000 in redemption of Five-Twenty bonds, under the older calls.

The cash balances in the United States Treasury on Tuesday were as follows: Currency, $6,211,595; special deposit of legal tenders for the redemption of certificates of deposit, $30,285,000; coin, $76,791,878. Coin certificates outstanding. $34,332,500. Outstanding legal tenders $356,000,000.

The city banks last week reported an increase of nearly 6⅜ millions in their deposit line, nearly one million in their legal tender, and 6½ millions in their specie reserves. They contracted their loan and discount averages over half a million, and their circulation slightly.

The city banks are again largely ahead on their obligatory reserve, the last statement showing that they had $10,815,325 more than the 25 per cent reserve which the national banks are required by law to keep on hand. The U.S. Sub-Treasury, last week, reduced its coin balance 1¼th millions; while adding about 1¼th millions to its currency reserve. Its currency reserves at the close of the week were $23,475,294; and its coin hoard, $42,490,288.

The clearances of the banks averaged through the week 93½ millions a day, and amounted in the aggregate, for the whole week, to $560,623,858 as against $454,272,080 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance $1,820,113 and reduced its coin reserve $1,776,812 as the result of the week's business.

The specie reserve of the city banks according to the latest return is $25,984,800, against $20,346,000 same time last year. The city bank deposits are now $214,475,800 against $227,301,400, week ending June 8, 1872. The legal tender reserve amounts to $45,808,000, against $55,108,100 same time last year. The circulation now stands at $27,434,100 against $55,108,100 same time last year. The loans are now $277,418,800 against $287,113,200 at this date last year.

The coin reserve of the city banks is now nearly 26 millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is 45⅜ millions against about 55½ millions on the statement of June 15th, 1872; and the deposits are now about 214½ millions, against 247½ millions on the 20th of July.

The U. S. Sub-Treasury office last week received $4,751,542 of currency, and $10,732,076 of gold, the latter including $2,148,000 from customs; and disbursed $3,431,429 of currency and $12,508,888 of gold, the latter embracing $356,472 of coin interest.

Government revenues have been moderate in their yield, since our last. The excises yielded within the week about 2½ millions, and thus far in the current fiscal year beginning with July 1, 1872, 108½ millions. The customs at the port of New York, for the week, were $2,067,647, and at the outports, about $700,000 more, in coin or coin certificates.

The Gold speculation has been less active and towards the close decidedly less confident. The customs drain has been moderate. The export movement has been more liberal. The latest foreign financial advices were against the operators for a rise. The range of the price during the week has been from 117¼@118¼ and the closing quotation on Wednesday was 117⅜ against 117⅞ on Wednesday of the preceding week. The specie outflow last week, was $2,158,843. The Gold Exchange Bank clearances have averaged about 49½ millions per day during the week.

The specie exports from San Francisco from Jan. 1, to May 28, were $10,168,257, against $10,095,385 same time in 1872.

The customs demand for Gold last week, averaged $358,000 a day. The arrivals of specie from Europe, Havana and other foreign ports thus far in 1873, have been $1,783,164, against $706,126 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $125,546,622 against $148,425,196 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $72,661,382, against $75,715,407 during the same time in 1871-2.

The export drain of specie was $2,158,443 last week, against $3,792,689 same week preceding year. The shipments since July 1, 1872, have been $58,241,865 against $53,518,485 during the same portion of 1871.

Foreign Exchange has been in less request, closing easier in price. Bankers' sixty day bills on London closed on Wednesday at 108¾@109; sight bills on London, at 110@110¼. The week's exports of Domestic Produce have been to the currency value of $5,614,992.

Under the official programme of the Treasury Department for June, Government proposes to sell during the month Gold as follows: Thursday, June 19, $2,000,000. Thursday, June 26, $1,500,000. And to buy in Five Twenties as follows: Wednesday, June 18, $500,000.

Government securities have been offered quite sparingly, and quoted decidedly strong in price, on an active inquiry for the leading issues, for investment purposes, in good part, on foreign account.

U. S. sixes of 1881 closed on Wednesday of this week at 122⅝@123; U. S. Five-Twenties of 1862, 117@117½; U.S. Five-Twenties of 1864 at 117@117½; U. S. Five-Twenties of 1865 119⅛

@119⅜; U. S. Five-Twenties of 1865 consolidated 120¼@120½; U. S. Five-Twenties of 1867, 121¾@122; U. S. Five-Twenties of 1868, 120¾@121; U. S. Ten-forties at 114¾@115; U. S. Fives of 1881 (Funding Loan) 115⅜@115¾; Six per cent. currency Sixes from 114¼@114½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 28.	June 4.	June 11.
Consols	93¾	92⅛	92⅞
U. S. 5-20s, 1865....	91¾	91¾	92⅛
" 1867	94⅛	94⅜	94⅝
" 10-40s	88¾	88⅝	88½
New Fives of 1881...	89⅛	89⅜	89⅛
Erie	49	48⅝	49¼

State bonds have been quoted generally firmer with a better inquiry noted for the more popular issues.

The Railway and Miscellaneous share speculation has been quite active, and toward the close, stronger and buoyant in price, favored in part, by the growing ease in Money.

Railway Mortgage Bonds have been in better demand for investment purposes, at steadier figures. Central Pacific Sixes have been selling as promptly as offered closing strong at from 103¼@103½. Chesapeake and Ohio Sixes have been also in good demand at 88½ and interest. Western Pacific Sixes have been in fair request at 95. The Northern Pacific 7-30 Loan has been quite active at par and interest.

General business has been fairly active. The main call has been for domestic produce, and a few leading kinds of imported goods. Hardware, Earthenware, and Dry Goods have been quiet. Metals have been quite moderately sought after. Copper has been steadily held at the late decline, with sales of 200,000 lbs. Ingot at 29½c.@30c., for Lake. Scotch Pig-iron has been very dull and unsettled; sales comprise 600 tons Monklin and Carmlroe, said to be at $44. We quote Glengarnock Pig at $48@$49; Eglinton do. $46@$47; Coltness, $58@$60; No. 1 American Pig at $48@$49; do. 2 do. $46@$47; Wrought Scrap at $45@$48; English rails at $70, gold; American Rails at works, $80@$82 50; old Double-head and T Rails at $52. Pig Lead has been quiet at 6¾c.@6⅞c., gold, for ordinary foreign; sales, 50 tons. Spelter has been dull at 7⅛c.@7¾c., gold. Pig-tin has been inactive and weak, with Straits quoted at 31c., and English at 30c.; Banca, 36c.@36½c., gold. Tin Plates neglected and weak; Charcoal Plates quoted here at $11@$11 50; Charcoal Terne, $9 50@$10; Coke, $8 50@$9 25; Coke Terne, $7 75@$8 75, gold, per box. Zinc neglected.

Domestic produce, has shown considerable activity, especially in the line of Breadstuffs, Cotton, Lard, Cheese and Petroleum, but prices have been unsettled, buyers, in most instances, having the advantage. Middling upland Cotton left off at 19¾c. per lb. The receipts at all the ports, since Sept. 1, have been 3,428,919 bales, against 2,635,708 bales same time in the preceding year; exports 2,444,846 bales against 1,881,589 bales in the previous year; stock at the ports at latest dates, 270,866 bales against 179,194 bales same date 1871.

Foreign goods have been in quite moderate request as a rule, and have generally favored buyers as to values. The week's imports amounted to $6,382,231 including $986,823 of dry goods.

Ocean freights have been quite active but irregular as to rates. Grain and Petroleum room has been in most request.

At the Live Stock Markets, Beeves have been in fair demand at from 9½@13½ cts. Veals at 6½@10 cts.; Sheep at from 4@7½ cts.; Spring Lambs, 10@13½; Swine at 5⅛@5½cts. per lb., all live weight. The week's receipts were 8,944 Beeves, 4,645 Veal Calves, 20,495 Sheep and Lambs, and 33,975 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—St. Louis and Iron Mt. R. R., 80; do. 1st mort., 98; Rensselaer and Saratoga R. R., 105; Atlantic and Pacific pref., 25; New Jersey Southern R. Rhinebeck and Connecticut Railroad.

The Rhinebeck and Connecticut Railroad, which is to run from Rhinebeck on the Hudson to a connection with the Connecticut Western road near Millerton, has been mortgage for $800,000 to George T. Oliphant, as trustee for the Delaware and Hudson Canal Company. This is the company whose large coal depots are located at Rondout opposite Rhinebeck. It is important to all interested in western roads, with which the above road will make connections, that this strong corporation, which ships immense quantities of coal to Rondout, has a large pecuniary interest in a road running from their coal depots to the Connecticut State line.—*Hartford Courant.*

☞ A dispatch from St. Paul, Minn., states that the track of the Northern Pacific Railroad has been completed to Bismarck, in Dakotah, a distance of 450 miles from Duluth. At Bismarck, connection is made with navigation on the Upper Missouri, and a line of steamers is already established between that point and Fort Benton in western Montana. The survey from the crossing of the Missouri to the crossing of the Yellowstone and along that river to central Montana is to be immediately pushed forward, that being the only portion of the line yet undetermined.

☞ The Richmond *Dispatch* says that the new company which has purchased the York River Railway will in a few days have possession of it, and it is understood will at once inaugurate a daily line, with connecting lines leading to both Baltimore and Philadelphia. The Eastern Shore Railway will form a part of their routes. The connection with it will be at Annamessix, Accomac county.

☞ By an act of the Legislature of New York, passed on the 4th of April, 1873, the time within which the New York, Housatonic and Northern Railroad Company is required by law to finish its road and put it in operation is extended for five years.

☞ The Milwaukee and Northern Railroad was completed to Green Bay, 109 miles from Milwaukee, on the 6th inst., and trains commenced running regularly to that city on the 10th.

BANKING HOUSE OF FISK & HATCH,
No. 5 NASSAU-ST., NEW YORK, June 13, 1873.

We recommend to our friends and customers for investment of surplus Capital, or in exchange for Government Bonds, which can now be sold at unusually high prices, the following Securities of well-known character and established reputation, viz:

THE CHESAPEAKE AND OHIO SIX PER CENT. BONDS—Principal and Interest payable in Gold Coin in New York city; Interest payable May 1 and Nov. 1; issued in denominations of $100, $500 and $1,000, either Coupon or Registered; price **88 1-2** and accrued interest.

Also, THE CHESAPEAKE AND OHIO SEVEN PER CENT. BONDS—Principal and Interest payable in Gold Coin in New York city; Interest payable January 1 and July 1. Bonds of $1,000 each, Coupon or Registered—price 90 and accrued interest.

THE CHESAPEAKE AND OHIO RAILROAD is completed and in operation from Richmond to the Ohio River, a distance of 420 miles, at a cost with the equipment of over $35,000,000, and the rapid development, of its business indicates that the earnings for the ensuing twelve months will not be less than $3,000,000, and for the succeeding year not less than $5,000,000.

Pamphlets, containing full information concerning the Road and the country it traverses, will be furnished upon application.

We also deal in GOVERNMENT BONDS, CENTRAL and WESTERN PACIFIC, and other first-class Securities; receive deposits, on which we allow four per cent interest, make collections, and do a general Banking business.

FISK & HATCH.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending May 31, at 449,448 tons, and for the coal year at 6,122,117 tons, against 6,018,270 tons to corresponding time last year, being an increase of 103,841 tons. The bituminous tonnage for the week is 58,463 tons, and for the year 884,945 tons, giving a total of all kinds for the week of 507,911 tons, and for the year of 7,807,062, tons, against 7,586,448 to same time last year being an increase of 220,614 tons.

☞ The Second Auditor of Virginia announces that the interest on the public debt of Virginia for July 1st, as prescribed by act of March 13, 1873, will be paid at his office on and after the 1st of July next, and that the sterling interest will be paid in London at the same time by Baring Brothers & Co., the agents of the State. The auditor is encouraged to believe that there will be largely more than enough in the treasury to meet both the July interest and that due January, 1874, without additional taxation.

☞ The Canton (Miss.) *Citizen* says that work has commenced on the Vicksburg and Canton Railroad, and that the prospects are flattering that the line will be put through with vigor and dispatch.

☞ The earnings of the Erie Railway Company for the week ending May 31, 1873, were $461,003, and since November 1, 1872, $10,555,403—an increase over the corresponding period of the previous year of $268,178.

Knoblauch & Lichtenstein,

No. 37 Broad-st., New York.

OFFER FOR SALE

$200,000

7 Per Cent. First Mortgage Bonds,

30 YEARS TO RUN,

OF THE

CENTRAL R. R. EXTENSION COMPANY

OF LONG ISLAND,

At 90 and Accrued Interest in Currency.

The road runs from Farmingdale, the present terminus of the Central Railroad, to Babylon on the South Shore of the Island. According to contract, the road will be finished by July 15th, ready for this summer's travel.

These Bonds being a *home security*, and among the best ever offered in this market, we take special pleasure in recommending them.

Pamphlets or further particulars will be promptly furnished on application.

☞ The final survey is now making for the projected railroad from Worcester to Milford, through Grafton and Upton, a corps of nine or ten engineers being at work. The new route is the Massachusetts link in the Rhode Island and Massachusetts Railroad, which will have its head at the wharves in Providence.

☞ The Richmond and Petersburg and Petersburg and Weldon Railroads have been consolidated under the name of the Richmond and Weldon Railroad Company. The new company have elected Mr. Reuben Ragland president and Mr. Thomas H. Wynne general manager.

☞ The Burlington and Southwestern Railroad, now under construction from Burlington, Iowa, to Kansas City and St. Joseph, Mo., is complete to Unionville, Mo., 130 miles distant from Burlington, being about half way to St. Joseph, Mo.

☞ The Arkansas Central Narrow Gauge Railroad is in working order from Helena to Clarendon, a distance of seventy miles, with fifty miles more graded and ready for the iron. Five locomotives have been placed upon the track.

☞ The Baltimore Bridge Company has completed its structures across the Saline and Little Missouri rivers, on the Cairo and Fulton Railroad. The bridge across the Ouachita at Arkadelphia will soon be completed.

☞ The officers of the New York and Hempstead Railroad Company, recently elected, are: President, H. J. Smith; vice-president, George H. Holt; treasurer and secretary, Charles H. Dewey.

☞ The estimated earnings of the Kansas Pacific Railway for the week ending May 31 are: freight, $59,958 06; passengers, $37,711 37—total, $97,669 43.

☞ The time for the completion of the Derby and Woodbury Railroad has been extended for five years by the Legislature of Connecticut.

☞ The formal opening of the Nashua, Acton and Boston Railroad took place on the 10th inst.

Journal of Railroad Law.

RAILROAD COMPANIES—CONSIGNEES MUST REMOVE GOODS UPON RECEIPT OF NOTICE OF ARRIVAL—WHAT IS REASONABLE TIME IS A QUESTION OF LAW.

The facts in the recent case of Hodges *vs.* The Hudson River Railroad Company, (49 N. Y. 223), are fully and clearly stated in the following opinion by—

FOLGER, J.—The defendant remained liable as common carrier of the paper until the plaintiff had a reasonable time to remove it, after notice of its arrival at the depot in New York city. (Fenner *vs.* Buff. and St. Line R. R. Co., 44 N. Y., 505.) What is such reasonable time, is, when there is no dispute as to the facts, a question of law for the court. (Roth. *vs.* Buff. and St. R. R. Co., 34 N. Y.)

We do not perceive that there is here any dispute as to the material facts. It is certain that with 3 or 4 trucks, all the paper could easily have been hauled away before the close of defendant's business on the day on which one load was taken with one truck. It is certain, too, that with the one truck of their own, two loads could have been received by the plaintiffs from the defendant on that day; so that it was a question of law for the court whether it was unreasonable for the plaintiffs to employ but one truck, or, if reasonable to employ but one truck whether it was reasonable to send it but once for paper that day. The learned judge left the question to the jury. In this we think that he erred; for, though we find no error in the terms of his instructions to the jury, nor in his refusals to charge the requests made by the defendant, yet as the finding of the jury was different from what we hold that the law determines, there was error in committing it at all to the jury; which was injurious to the defendant.

The plaintiffs seek to hold the defendant to a strict liability as insurer of the goods. Asking that so rigid a rule be applied to the defendant, it is just that the plaintiffs in turn be held to prompt and diligent action. A consignee cannot, after he has notice of the arrival for him of property, defer taking it away while he attends to his other affairs. He may not thus prolong the time during which the carrier shall remain liable as an insurer. That would be to make the carrier a mere convenience for the consignee, without consideration of any kind to the carrier, and yet resting under a great risk. So much time as the consignee after notice gives to his other business, to the neglect of taking charge of his property and removing it from the custody of the carrier, cannot be allowed to him in estimating what is a reasonable time for him in which, after notice of arrival, to take delivery of his goods. He is not to be compelled to leave all other business to take his goods from the hands of the carrier. He may attend first to whatsoever demand of his business he deems the most urgent or the most profitable; but he cannot do this at the hazard and expense of the carrier. It is the duty of the carrier to give notice of arrival; it is the duty of the consignee at once and with diligence to act upon this notice and to seek delivery, and to continue until delivery is complete. Either may neglect this his duty; but then the consequence of neglect must be borne by him.

Now the testimony here without conflict, shows that after the receipt by the plaintiffs of notice of the arrival of this paper, they continued for a space, in attention to other business than taking it from the defendant's charge; and that after one load had been taken, they turned again to other duties. They thus let slip time enough in which to have called for and have received another load. It may be true that this load would not have reached their store before the hour at which they usually closed it; and if it was of importance to them not to vary their habit in this, they could as they did, refrain from returning to the depot for the second load. It would then have remained, as it did, in the custody of the defendant, who could not have divested itself of the duty to care for it, as bailee thereof. But had the plaintiffs the right for their own convenience, to put upon the defendant the greater onus of holding it as insurers? There is no justice in compelling the defendant to be the sufferer thereby. There is no justice in it, that the time thus otherwise used by the plaintiffs should not lessen by so much the reasonable space accorded to them for removal of their effects.

We are not compelled at this time to hold in this case that the plaintiffs were called upon to employ in the removal of the paper more than the single truck and the two servants with which they ordinarily effected the hauling of matter to and from their store. Circumstances might exist which would require more than this of a consignee.

The respondents suggested that the goods were destroyed through the neglect of the appellant.

The case was not tried nor hitherto disposed of upon this theory. It would not be just at this stage of the matter, to determine it on that ground.

For the error at the trial there should be a reversal of the judgment, and a new trial ordered, with costs to abide the event of the action. All concur, except Peckham, J., not voting.

Judgment reversed.

Manufacture of Rails in the United States.

The total number of net tons of rails made in the United States in 1872, as reported to the office of the American Iron and Steel Association by the makers, is 941,992, or 841,064 gross tons. This aggregate was produced in the following States, the production of each of which in 1872 is given in comparison with the production in 1871:

	1872.	1871.
Pennsylvania	419,529	335,604
Ohio	121,923	75,782
Illinois	106,916	91,178
New York	82,457	87,022
Wisconsin	37,283	28,774
Massachusetts	29,242	28,864
Maryland	26,472	44,941
Indiana	23,893	12,778
West Virginia	20,100	5,000
Missouri	15,500	8,200
Tennessee	14,620	9,667
Maine	14,058	13,383
Michigan	9,883	14,000
New Jersey	9,185	6,700
Georgia	6,930	7,840
Kentucky	4,000	6,000
Total	941,992	775,733

This aggregate of production includes only such rails as were made for the use of freight and passenger railways, and excludes 15,000 tons of street rails made during the year. More mining rails are made by bar mills than by rail mills, and they are generally classified as bar iron; hence the impossibility of ascertaining exactly the production of this class of rails in any year. Were the fact otherwise, however, we but follow the precedent of this office in excluding from our statistics of rails any estimate of the production of mining rails, as well as the ascertained production of street rails.

By this table it will be observed that in 1872 Pennsylvania made 419,529 tons, or 44½ per cent of the whole. Ohio comes second in the list, taking the place which Illinois held in 1871. Illinois is the third State in the list, and New York the fourth. In the production of steel rails the relative position of these four great iron-producing States is almost the same—Pennsylvania producing 88,463 tons; Ohio, 22,000 tons; Illinois, 15,930 tons; and New York, 17,677 tons. No other States made Bessemer rails in 1872. The largest production of both iron and steel rails by a single mill must be credited to the Cambria Iron Works, at Johnstown, Pa., which made a total of 81,006 net tons. This magnificent result was accomplished during a year in which a large part of the works was destroyed by fire—a calamity which it is proper to state, however, was almost immediately overcome by the extraordinary energy and resources of the company.

The following table exhibits the growth of the home production, importation, and consumption of rails in the United States from 1849 to 1872, inclusive, together with the growth of the railway system of the country during the same period:

	Total rails made in the United States. Tons of 2,000 lbs.	Total rails imported. Tons of 2,000 lbs.	Total consumption of iron & steel rails.	Miles of railway built in the U. S. in each year.
1849	24,318	69,163	93,481	1,369
1850	44,083	159,080	203,163	1,656
1851	50,603	226,850	276,953	1,961
1852	62,478	294,750	357,228	1,926

1868	506,714	300,160	806,874	3,033
1869	593,586	336,500	930,086	4,977
1870	620,000	472,403	1,092,403	6,145
1871	775,733	566,202	1,341,935	7,453
1872	941,992	530,850	1,472,842	6,043

The production of rails in 1871 in the United States was 775,733 net tons; in 1872 it was 941,992 tons. Increase, 166,258 tons, or 21½ per cent. The importation of foreign rails in 1871 was 566,202 net tons; in 1872 it was 530,850 tons. The decrease, 35,352 tons, or 6¼ per cent. The net gain of the American railmaker in 1872 over his foreign rival was, therefore, 201,611 net tons.

Of the total production of 941,992 net tons of rails in 1872, 94,070 tons were Bessemer steel rails. In 1871 there were produced 60,042 net tons of steel and steel-headed rails. Increase, 34,042 tons, or 56¾ per cent. Of the 530,850 net tons of rails imported in 1872, 149,786 tons were steel rails. In 1871 it is estimated that there were imported 83,887 net tons of steel rails. Increase 65,889 tons, or 78½ per cent.

It will be seen that, while the importation of rails of all kinds was 35,352 net tons less in 1872 than in 1871, the importation of steel rails increased 54,889 tons. The reduction in the importation of all-iron rails was, therefore, 101,241 tons.

The total consumption of iron and steel rails in 1871 was 1,341,935 net tons; in 1872 it was 1,472,842 tons. Increase, 130,907 tons. This increased consumption was more than equaled by

the increased production of American mills, which was 166,259 tons, as above stated.

The importation in 1872 of old rails for remanufacture is carefully estimated at 170 000 gross tons. The customs regulations do not separate old rails from scrap iron; hence the necessity of estimating the quality of each imported. The total importation of old and scrap iron in 1872 was 248,444 gross tons, valued at $7,617,463, gold, of which Great Britain sent 108,181 tons, valued at $3,203,746. In 1871 Great Britain sent us 139,813 tons, valued at $3,256 849.

During the year ended December 31, 1872, the aggregate value of the imports of iron and steel and manufactures thereof, as officially reported to this office by Hon. Edward Young, Chief of the Bureau of Statistics, Treasury Department, was $60,575,514, gold, of which $22,705,025 represents the value of new iron and steel railway bars—$14,498,012 of iron, and $8,207,013 of steel.

During the ten months ended October 31, 1871, the export from the United States of American railway bars and rails was 330 net tons; during the same period of 1872 the export was 746 tons. Increase, 126 per cent. These figures of our export trade are comparatively unimportant, but they show progress in the right direction.

☞ The Gallipolis, McArther and Columbus (Ohio) Railroad Company have commenced work on the Gallipolis end of the line.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 6, 1873.

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B; water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors, and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the Steam Water Station Company,

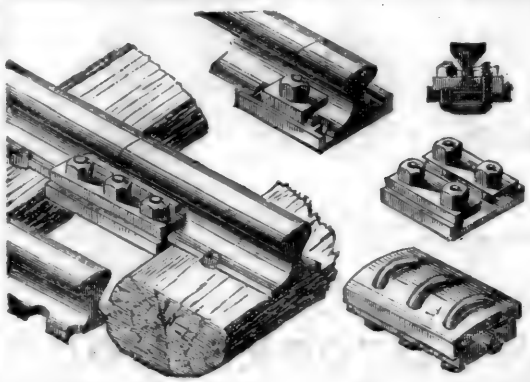
THE LOCK-NUT & BOLT COMPANY OF NEW YORK,

No. 61 Broadway, New York.

Manufacturers of all kinds of **BOLTS** for FISH-BARS, BRIDGES, CARS, MACHINERY, &c., with the "CUMMING NUT-LOCK," the only method of locking a nut to the bolt.

PATENTED June 16, 1868.



IMPROVED August 23, 1870.

Unequalled for Cheapness, Simplicity and Effectiveness.

DESCRIPTION.—A pointed copper key is placed in a groove cut in the threaded part of the bolt, *over which* the nut is screwed to its position, cutting its own thread in the copper, thereby taking up all the slack between the bolt and the nut. By riveting up against the face of the nut the projecting portion of the copper key, the nut is firmly locked in its position, but can be readily adjusted or removed with a wrench without injury to either bolt or nut.

Severely tested for over *four years*, they have *never failed*, and are *now in use on over fifty Railroads*, giving perfect satisfaction. We solicit a trial *anywhere*.

Licenses Granted to R. R. Companies, Car Builders and others.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,

MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York, Saturday, June 21, 1873.

Nashua, Acton and Boston Railroad.

The Nashua, Acton and Boston Railroad, which was formally opened on the 10th of June, starts, it is said, with unusual promise. It is already supplied with several first-class locomotives, seven new and elegant passenger and 190 freight cars, and additional rolling stock is to be provided for the large amount of freight traffic which is promised. Arrangements have been made for connecting the road with the Concord and Northern lines of railway, with the Fitchburg for Boston at Concord junction, and also with the Lowell and Framingham for Providence, Fall River and New Bedford. It is the intention of the management to run cars direct from Northumberland, N. H., to connect with the Fall River line of steamers for New York. Besides this, unusual facilities are offered for the transportation of coal from the sea to the mountains.

☞ The steamships Alaska and Cyphrenese, from China and Japan, arrived at San Francisco on the 18th inst., bringing more than 2000 Chinese passengers, with advices from Hong Kong to May 12th, and Yokohama to May 20th. It was stated that the working of coal and iron mines and the introduction of railroads in China would soon be sanctioned by the government of that country.

INVESTMENT BONDS.

The Northern Pacific Railroad Company having determined to close its 7-30 First Mortgage Gold Loan at an aggregate not exceeding thirty million dollars, and thereafter to pay no higher rate of interest than 6 per cent. on further issues of its bonds, THE LIMITED REMAINDER OF THE **7 3-10** LOAN IS NOW BEING DISPOSED OF through the usual agencies.

As the bonds of this issue are made receivable in payment for the Company's lands at **1-10**, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.

The company now has more than 500 miles of its road built and in operation, including the entire Eastern Division connecting Lake Superior and the navigation of the Missouri river; it has earned title to nearly ten million acres of its land grant, and sales of lands have thus far averaged $5 66 per acre.

All marketable securities are received in exchange for Northern Pacifics.

JAY COOKE & CO.
No. 20 Wall Street, New York.

Union Railroad Tunnel.

The Union Railroad tunnel, extending from Greenmount avenue to Bond street, is rapidly approaching completion. Some hundred feet of the track in the tunnel has been laid, and it is expected the whole track will have been laid and the cars will be running through the tunnel in July, possibly by the 4th. The road from the entrance to the tunnel, near Bond street, to the Canton terminus of the line, has been completed and cars have been run from Canton to the mouth of the tunnel several times, testing the road. The road, the track, and the bridges were found to have been well constructed, and were pronounced all that could be desired by the company. The Potomac tunnel will also be completed about the first of July, affording the interesting and novel event of the completion of two railroad tunnels at the same time.—*Balt. Sun.*

Narrow Gauge Railways.

There are now fifteen narrow gauge railways in operation in the United States having 700 miles of track, and there are no less than one hundred and twenty organizations and 1,250 miles under process of construction. These roads have been planned and constructed within the last two years despite the prejudices which have been urged against them by the advocates of the wider gauge. Gen. Rosecrans has been their strongest advocate, and his great engineering skill has helped to surmount the difficulties in constructing narrow gauge railways in Colorado.

The Galena and Southern Wisconsin from Galena through Platteville, Wis., to Boscobel, or some other point on the Prairie du Chien Road, is to extend 150 miles, and there are now 30 miles graded, and that part of the road will be in operation before the close of the year. There is also another projected from Peoria, Ill., northward through Rockford, to be extended to Milwaukee, with a branch to Fond du Lac. The survey of this route is to commence this month.

The gauge of these roads is 3 feet; their cost of construction, together with the rolling stock, is variously estimated. The Cairo and St. Louis road was built and furnished with rolling stock at an aggregate cost of $17,500 per mile; but

through a comparatively level country, the cost probably would not exceed $10,000 per mile, including a fair equipment of rolling stock, while the 4 feet 8½ inch gauge costs from $35,000 to $45,000 per mile. In the west, where the traffic is not large, the narrow gauge road pays better on the amount of money invested than does the 4 feet 8½ inch gauge, and the actual expense of transportation per ton per mile is much less, in the same manner as it was proven that the wide 6 ft. gauge could not compete with the 4 feet 8½ inch gauge. As the carrying capacity of any road is measured by the amount of its rolling stock so the narrow gauge road, with a larger amount of rolling stock, which cost much less than that of the wide gauge, could supply the wants of the country they pass through and become a good investment.—*Milwaukee Wisconsin.*

Lake Shore Railroad.

As will be seen by the following extract from the Sheboygan *Times*, the Lake Shore Railroad is rapidly progressing north of that city:

Work commenced on the Lake Shore Railroad in earnest this week. Gangs of men have been put upon the grading in several places between this city and Two Rivers, and if not interfered with in the swail lands of Mosel and Centerville by too much rain, the road will be ready for iron in six or eight weeks.

The approach piling and pier cribs for the bridge across the river here are going forward, and the bridge itself, we understand, is already completed in Chicago, ready to put together when it shall reach here.

South Carolina Railroad.

The following is a comparative statement of the earnings and expenses of this road for the years ending December 31, 1871 and 1872:

Earnings:	1871.	1872.
From passengers ...	$268,038 32	$268,042 93
" freight.....	1,035,259 10	1,110,148 05
" mails.....	22,144 58	23,020 27
	$1,325,442 00	$1,401,211 25
Expenses, viz:		
Conducting transp.....	$294,015 15	$296,985 71
Motive power.....	221,892 80	214,367 62
Maintenance of way....	253,836 76	227,499 45
Maintenance of cars....	60,715 37	71,475 89
General expenses.....	49,898 55	45,876 94
	$879,858 63	$856,105 61
Net earnings.....	$445,583 37	$545,105 64

Compared with 1871 the gross earnings of 1872 show an increase of $75.769 25, or 5.716 per cent; the expenses a decrease of $23,753 02, or 2.699 per cent; and the net earnings an increase of $99,522 27, or 22.335 per cent. The ratio of expenses to earnings in 1871 was 66.38 per cent; and in 1872, 61.10 per cent—a difference in favor of 1872 of 5.28 per cent. The president in his report says:

Satisfactory as this result unquestionably is, it could have been rendered much more favorable, had not a large portion of our Fall transportation to the West been sacrificed in a bitter contest for the control of business, fairly open to the energy and enterprise of all the lines connecting the points involved; and not to be surrendered to any one except with disastrous consequences. The South Carolina Railroad was withheld from any participation in this railroad war, until forced in self protection, to become a party to a proceeding not justified by sufficient causes, or excused by any reasonable expectation of benefit to the parties who commenced it. Our loss in this connection though comparatively small, cannot be estimated at less than $30,000. It might, perhaps, not inaccurately be placed much higher.

A noticeable as well as an encouraging feature of the road's business during the year, is the increase and healthy character of the local freight—always the most profitable and reliable of a railroad's sources of revenue, its fullest development is to us a matter of peculiar concern in view of the multiplication of competing roads, and possible unprofitableness of through freight.

There have been moved over the road 266,707 tons of all classes of merchandise and produce, at an average charge per ton of $4.16.242.

The expenses have been $856.105 61. These figures comprehend every expenditure on account of the road, its track, locomotives, cars, running of trains, and conduct of entire business of transportation.

Compared with the previous year, they will be found to be less in the sum of $23,753 02, a result very creditable to the Executive Branch when due regard is had to the large increase of work performed. In the report of the vice president, that increase is stated as 38,643 tons, or about 16.944 per cent.

The ratio of expenses to earnings will be found to be 61.10 per cent, a proportion no wise in excess of the cost of operating important Southern Railroads; and, in the case of the South Carolina Railroad, believed to be as low, as a just regard to the true interest of the property, and an intelligent comprehension of a judicious economy would warrant. Of the expenses above stated, the sum of $656,710 50 is chargeable against freight, and this applied to the tonnage of the year, gives us a result of $2.46.265, as the cost to the company of moving each ton of freight. We have then for earnings per ton $4.16.242; expenses per ton $2.46.265.

Now, the very much larger portion of our increased business is derived from articles which necessity or expediency forces us to carry at very low rates, not exceeding $2 50 per ton, and the quantity of that class of freight cannot be stated at less than about 40 000 tons, or about 1 7th of our entire business. If, therefore, that large proportion of our entire gross earnings is obtained from sources which leave no profit, the influence upon the net earnings of the road, through its expenses is very plainly seen.

The vice president reports the only considerable wants of the road and transportation department for the ensuing year at about 1,800 tons of rails and three locomotives—and the property generally in improved condition. The board recognize with pleasure the very satisfactory administration of this department during the year just terminated. It is sufficiently manifested in our happy exemption from serious accidents to our trains, and in the prompt and efficient performance of every service required.

The balance of road earnings resulting from gross earnings....	$1,401,211 25
And expenses.....	856,105 61
Is.....	$545,105 64
To this must be added receipts from other sources than transportation, viz: interest, dividends, rents, &c	10,101 07
And we have for income of the company for the year.....	$555,206 71

The disposition of this sum will be found particularly set forth in the exhibits from the treasurer's office accompanying this report, and may be presented as follows, viz:

Interest on sterling 1st mortgage bonds and premium of exchange...	$92,505 29
Interest on domestic currency bonds, and interest general.....	325,319 49
	$417,824 78
Balance to profit and loss.....	137,381 93
	$555,206 71

The financial transactions of the year, the treasurer reports in the usual full detail. The condensed balance sheet from that department indicates accurately the condition of the company at its date.

The variations of the figures of the principal accounts representing debt, from those of the preceding year, result from settlements of transactions, reported and authorized by the stockholders, modified of course to some extent, by the application of the earnings. The view is thus illustrated:

Bills payable, December 31, 1871....	$877,172 12
" " 1872....	1,000,790 85
Increase during 1872.....	$123,588 23
Accounted for by issues for loans, to pay past due bonds, purchase of materials, bonds, stocks, &c.....	$736,337 71
Retired during same period.....	612,749 48
As above.....	$123,588 23
Bonds payable December 31, 1871.	$2,932,270 04
do. " " 1872.	3,227,607 74
Increase during 1872.....	$295,337 70
Accounted for by issues to pay for claim against Greenville and Columbia Railroad.....	$54,500 00
For purchase of stock in above	289,000 00
For retiring non-mortgage bonds...	521,500 00
In payment of claim against Southwestern Railroad Bank.....	6,500
	$871,500 00
Retired during the year.....	576,162 30
As above.....	$295,337 70

The annual maturities of the domestic bond debt of the company, as provided for in former years, under more favorable circumstances, have borne with peculiar oppressiveness upon our finances during the past few years, and promise to do so for some years yet. On the 1st of April last we had to provide for $192,500 of this class of debt; and there became due on the 1st of January of this year the further sum of $118,500. It is obvious that, immediately, this form of debt had to take the shape of bills payable, and swell that account, already inconveniently large, to almost unmanageable dimensions—as well as to entail upon our earnings charges for interest equal to a handsome dividend upon the capital stock. To meet these urgent demands, and also to retire in great part our floating debt, the board resolved during the past summer to secure an issue of $3,000,000 in coupon bonds, bearing date October 1, 1872, at the rate of 7 per cent interest, and having thirty years to run.

These bonds are offered for sale to the holders of our non-mortgage bonds at seventy-five per cent, payable one-third in money and two thirds in bonds at similar prices—the cash receipts from the sale to be applied to the reduction of the floating debt.

The scheme is open to no reasonable objection, is not unfavorably regarded by the public, and we believe, will be successfully worked out. Its progress will probably be slow at first, but its substantial merits must command for it general acceptance. In that case our measure of relief, by the heavy reduction of our most expensive form of debt, will be very great.

The justification of the board in thus anticipating your annual meeting is found in the absolute and imperative necessity of some arrangement by which provision would be made to meet the cases they have above referred to—and no other plan was practicable or possible.

The progress of the Exchange in London of our sterling first mortgage bonds for the State guaranty bonds of 36 and 66 has been very satisfactory. At the date of our last report the exchange had reached £239,000. The latest date of last year reports the figure as high as £293,000, leaving only about £30,000 unexchanged to complete this important transaction.

The South Western Railroad Bank in our last report stood charged with $574,628 46.

The account now shows $593,685 13.

During this year the bank directors, in view of the resolutions of the stockholders, transferred to the road nominally their remaining assets; but as these were unavailable, being held as collateral

to secure loans to the bank for the purpose of retiring their bills, little more than a change of custody has been effected. The organization of the bank has been maintained upon a moderate scale at the expense of the road. Until the final close of the institution this was considered in some wise necessary. At least, neither of the boards of directors were willing to compromise, by any act of theirs, in advance of your meeting, a valuable charter, which it might be desirable to make future use of.

The prospects of the road are regarded as very encouraging. Competition is to be met, but it is not likely to be more formidable than it has been. New lines are being constructed, yet you have seen that with average seasons, our earnings do not suffer, and doubtless, what may be taken from us in one direction, will through the development of new demands, by the multiplication of facilities of transportation, return to us in another form.

Our investments in steamships and railroad shares, originally made in the direction of maintaining or increasing our business, give promise now to be direct contributors to revenue. The business of all the lines of ships in connection with us has been large and remunerative, and we have good reasons to expect dividends from their earnings in 1872. The rapid and extensive increase of the Greenville Railroad earnings is beyond our most sanguine anticipations. We are making strennous efforts to place its finances upon a sound and stable basis, and we think we will succeed. You will in such event have acquired a most valuable asset.

Protracted and troublesome differences with the contractors for the construction of that portion of the Macon and Augusta Railroad, between Milledgeville and Macon, have impeded the successful working of this property; but an agreement looking to a satisfactory settlement of all difficulties is now under consideration, and is very likely to be concluded. Meantime the business of that road is experiencing most decided improvement under liberal arrangements recently concluded with the Georgia Railroad Company. The board feel quite confident that their anticipation of increased and profitable business from this source will not be disappointed. It not only connects our property with the most prosperous and growing portion of Georgia, but constitutes for it the basis, the only one the city and company now have, of such extensions in the future, as the interest of both may require.

The company have 42 locomotives, 22 first class and 25 second class passenger, mail and baggage cars, 868 box, 18 stock and 111 platform, wood and coal cars. Miles run by locomotives with passenger trains, 181,987; with freight trains 530,075; distributing, 81,126; switching 63,544—total 856,732 against 808,409 in 1871—an increase of 48,323. The tonnage for the year has been: westward, 135,621; eastward 131,076—total, 266,702, against 228,064 in 1871, an increase of 38 643. The number of passengers transported in 1872 was: first-class 92,024; second-class, 115,320—total, 207,344 against 197,362 in 1871—an increase of 9,982.

The gross tonnage has been equivalent to 30,457,782 tons carried one mile, at an average rate of 3.64 cents. The number of passengers transported has been equivalent to 8,583,028 carried one mile, at an average rate of 3.12 cents. The average distance traveled by each passenger was 41.39 miles. The ratio of expenses to earnings in 1871 was 66.38; in 1872, 61.10.

The renewals of rails amount to 1,839 tons, equal to 21.4 miles of track. There have also been used in repairs 48,890 lbs. spike, 1,912 chairs, 7,808 sets fish bars, 87,112 cross ties and 44 frogs.

The running expenses per mile for repairs, fuel and stores in 1871 was 13.12 cents, against 12.71 cents in 1872.

Treasurer.—J. T. WELSMAN.

Auditor—J. R. ENERY.

Important Railroad Decision.

On the 12th inst., the Court of Errors and Appeals of the State of Delaware made an important decision concerning the right of State Legislatures to pass laws limiting railway fares and freights in certain cases. In April of this year the Delaware Legislature passed an act containing the section below, designed to limit the Philadelphia, Wilmington and Baltimore Railroad in its passenger fares and freight charges. The highest court of the State has just declared the section quoted to be "unconstitutional and inoperative."
